Willoughby's Patent
GUM SPRING & GUM FEEDER
ORNA.
MANUFACTURED BY
E. WAGONER.

The Best Drill ever heard of!

IT Sows all kinds of Grain perfect, from one peck to four bushels without changing the Machine. The quantity can be changed when in motion, by a slide. It will sow Wheat, Buckwheat, Rye, Oats, and Barley without choaking by white caps, wheat heads or straws. This Drill feeds by two vulcanized rubber cylinders revolving together. The spring drag bar is very useful in rough land, stumpy or rocky. It will pass over any thing not over fifteen inches high without breaking of pins or anything else. The hoe will pass over and fall in its proper place. I also build them with Guano or other fertilizer sowers attached, which all farmers who use any of those manures ought to have, as they will save one half of the manure and have more grain, as it sows direct with the grain. This attachment is warranted to sow correct without choaking or clogging, and will sow from fifty pounds to any number of pounds that is wanted to be sown by a Drill.

Persons wanting an Attachment of this Fertilizer Sower put on their Drills, will please be as early as possible, as I have a great deal of this kind of work to do.

For further particulars, address E. WAGONER, Westminster, Carroll County, Md.

McCORMICK'S IMPROVED REAPER AND MOWER FOR 1862.

This reaper which has already established for itself a world-wide fame, and needs no eulogy from us to convince the farmers of Carroll of its superiority over all others—yet we cannot suffer the occasion to pass without giving our testimony in its favor. Therefore we deem it no more than sheer justice, when we say, that for simplicity, durability, lightness of draught, and capacity to answer the wants of the farming community, that it is with the present improvements the best REAPER now in use.

As a limited number of these machines have been built for this season, those desiring to purchase had better forward their orders without delay. WM H. HARMAN & Co.

Union Works, Westminster, April, 25.

N. B. We also manufacture the Seidle & Eberly's Patent Spring tooth Hay and Grain Horse Rake. The Patent Right of which (for this county) is owned by Geo. A Krouse, Esq. this is also, an excellent rake.
