EXPLANATORY PREFACE.

This book contains all the records of the Eastern Precinct Commissioners 1812 to 1817; and the Western Precinct Commissioners 1810 to 1817.

The Commissioners were authorized to lay out, grade, level, open streets, etc., in new precincts of Baltimore, East and West of Jones' Falls, which were contiguous to Baltimore, and were annexed in 1816.

The Commissioners' work was in anticipation of an extension of the City boundaries and was mostly performed before the actual extension. Though their duties were identical in their respective precincts, they were separate and distinct bodies.

The Precinct Commissioners often worked with the City Commissioners when the grade of a street to be established extended in both the City and Precincts.

This book completes the Records of Baltimore City from 1729 to 1813, of this particular character, which are in volumes entitled:

"First Records of Baltimore Town & Jonestown, 1729 to 1797."

"Records of the City of Baltimore (City Commissioners), 1797 to 1813."

"Records of the City of Baltimore (City Commissioners) (Supplement), 1729-1813."

"Records of the City of Baltimore (Special Commissioners), 1782 to 1797."

"Records of the City of Baltimore (Eastern Precinct Commissioners), 1812 to 1817, and (Western Precinct Commissioners), 1810 to 1817," which were published under the same auspices in the order named.

This printed copy has been made to conform to the original in every possible detail.

WILBUR F. COYLE,
City Librarian.

BALTIMORE, August 1st, 1909.

You will recollect that application having been made for levelling pleasant street conformably to an order passed and published by the Commissioners to dig down and remove the dirt to the proper grade on or before the 16th Instant, this order has not been complied with on your part, in consequence a formal complaint is now filed in this office, with a request to have the dirt removed according to Law. The Commissioners feel no wish to increase the expences, the demand of the Complainants must be complied with.

Unless you do not proceed immediately to the removal of the dirt before your Lot on Pleasant Street, I am directed to have it dug down to the grade Established, the expence of which will of course be levied on you

Yours with due respect

Baltimore November 26. 1811.

The Subscribers met agreeably to adjournment: to confer on the complaint of Wm. Thorpe, Simon Barthe & Wm. Alcock, who agreeably to the Law in that case made & provided, think themselves injured, or likely to be injured in their improvements by the Grade Established on Cove Street; by the Commissioners— the subscribers having been Sworn faithfully & honestly to determine what damages Wm. Thorpe, S Barthe & Wm. Alcock has or will sustain from the Grade affixed by the Commissioners & if any, then impartially without favor or affection equitably to assess the same on the property on said Street benefited.

After taking the premises into Consideration, the subscribers are of opinion— That at present the Complainants have not sustained any injury; there being no improvements of any kind erected on the property belonging to the Complainants. But what injury the Complainants agreeably to the words of the Law “are likely to sustain,” the Subscribers have it not in their power to ascertain.— The Subscribers are nevertheless of opinion, that by the Grade as Established, the Complainants will hereafter be injured; yet the Subscribers cannot point out what property on Cove Street is benefited by the Grade Established; on which an assessment should be made.
