H. E. RAMSDELL Editor.

THURSDAY, JANUARY 27, 1910.

United States Senator Isidor Rayner was reelected on Wednesday of last week for a term of six years. He received the entire Democratic vote, and Mr. William P. Jackson, of Wicomico county, received the Republican vote of the Maryland Legislature.

Port Deposit has been swept by another flood and the people are now asking for aid. Houses were swept away and many persons were saved by being taken from the second stories of their homes. Engineers are trying to ascertain the cause of the ice jam in the river, and it has already been decided that neither the B. & O. bridge nor the island was to blame, as the jam occured above both.

That the government will investigate Meat Trust prices is pretty well assured, the only delay will be waiting for the decision of the Supreme Court in the cases of the Standard Oil Company, and the Tobacco Trust. The President is reported as having said that both he and the party of which he is the titular head, are pledged to a vigorous enforcement of the Sherman act, and that he intends to keep the pledge, but doesn't consider it necessary to climb upon the house top every morning and shout about it.

As the first step toward organizing for the protection and advancement of their interests and incidentally of protecting the prices on their products, a number of the leading farmers of the Eastern Shore of Maryland and Virginia have had introduced in the Legislature a bill for the incorporation of the Interstate Farmers' Exchange. The original capital will be $10,000, divided into 2,000 shares of $5 each, with permission to increase to a total not to exceed $100,000 The headquarters is to be in Pocomoke City.

A boycott against the "Meat Trust" started a few weeks ago is growing steadily and assuming quite large proportions. All the large cities are taking an interest in the matter and thousands of people are signing pledges to buy no meat for thirty days or longer. Probably the boycott will have but little effect in lowering prices to an appreciable extent all over the country. For one reason, prices are high the world over, and cold storage permits the easy shipment of our surplus products abroad. And, then, the meat packer also has the alternative of salting his wares when demand for the fresh product falls off. It is practically impossible to get the great mass of people to persist for any length of time in such a boycott, while they have money in their pockets and their appetites are good.

Looting The Public Treasury.

After all the talk of economy at Annapolis, it is discouraging and disgusting to behold the House of Delegates raiding the public treasury in the old-fashioned manner. There are now no fewer than 83 employes on the House payroll, or, according to Mr. Marriot's calculation, 115; but the end, apparently, is not yet. Sundry and divers patriots remain jobless; there is still some money to be passed around; time is fleeting and many debts and bets must be paid before the end of the session. In consequence, it is probable that room will be found for a few more clerks pages, scriveners, watchmen messengers, guards, sentinels, runners. Perhaps the total will equal or surpass that of the last session when a small army of functionaries were fed—a few dozen for more or less valuable services and the rest for no service at all.

This biennial scramble for jobs has the dignity of antiquity, but nothing else, to recommend it. It is, at the bottom a fight for graft and nothing else. Men are appointed to offices not because the State needs them, but because they need the money. Political debts, largely, are paid boldly and openly with the funds of the people. The work of the Legislature would be better done without this horde of trainbearers, flunkies and hangers-on. With the exception of a minority of honest and capable men, upon whom heavy burdens fall, most of these appointments constitute an offense to public decency.—Baltimore Sun.

Public Sale

—OF VALUABLE—

Timber Leaf

AND CORD WOOD.

The undersigned as owners, will offer and expose at public sale to the highest bidder in front of the Court House door in Denton, Md., on

Tuesday, Feb. 1, 1910

at 2 o'clock P. M. the following described property:

PARCEL NO. 1.

All that timber of every description on about 50 acres of land, that will measure eight inches across the stump, six inches from the ground, on all that lot or parcel of land situate in the Third Election District of Caroline County, known as the Brubaker Farm and conveyed by William H. Brubaker and wife to the undersigned by Deed dated the 21st day of July, 1909.

PARCEL NO. 2.

All of the wood of every description on the above described land that will measure less than eight inches across the stump six inches from the ground. The purchaser or purchasers will be given until January 1, 1911, to cut and remove the timber and wood and right of egress and ingress to, over and from the same by the road that leads from the Garey Mill Lane to the northern part of the timber.

The above parcels will first be offered separately and then as a whole and will be sold whichever way they bring the most money. This property is well set in fine oak and pine timber. It is situated about one and one-half (1 1-2) miles from the town of Denton and the State road leading from Denton to Greensboro passes within 1-2 mile of this timber, which is quite an item in the expense of delivery of wood and timber to customers in Denton and at the Railroad depot.

Terms of Sale.

Terms of sale are cash on day of sale or an interest bearing note with approved security, payable January 1, 1911. Copy of plat may be seen at office of Albert G. Towers

Depend Upon Having Eggs During the Winter When Prices Are Highest

Egg production falls off at this season as the hen is deprived of the egg-making materials contained in her summer diet. She must also utilize the most of her food in keeping her body warm and has very little material to spare for the development of eggs.

SCIENCE MAKES IT POSSIBLE

to overcome these adverse conditions and bring Winter egg production up to the Summer standard. All that is necessary is to add to the hen's Winter ration the egg-making chemical elements contained in her Summer diet.

Fairfield's Blood Tonic and Egg-Producer

is a Scientific Poultry Powder composed of the elements of which eggs are formed. These are so combined with other elements that tone up the digestive organs and purify the blood that they are immediately assimilated and carried to the Egg Sac of the hen. The hen's egg sac contains the Embryo of all the eggs she will ever lay, and when these Embryos receive proper nourishment they develop and MUST BE PRODUCED. Make your hens lay NOW, by feeding Fairfield's Egg Producer regularly. It will increase your profits and keep disease from the poultry yard. The small dose makes it inexpensive and it is sold under written guarantee by dealers named who also carry
