
FARMERS OF AMERICA

The farmers have builded America, for despite the growth of our cities, Americas agricultrual industry is still the greatest in the world.

As the world has progressed, the farmer has improved his tools and his methods until today with fewer "hands" the farmer produces greater crops than ever before.

Good banking service is one of his requirements. All our facilites are at the disposal of our farmer-patrons.

About Droughts

William Allen White, the Kansas editor, was talking about droughts. "One summer during a terrible drought," he said, "a tourist was passing through Arizona. He put up in a town so dried that even the trees had yellowed and withered. "Does it ever rain here?" the tourist said to the landlord of the hot dusty hole. "Rain?" said the landlord. "Why frogs in this here town wot aint never learned to swim yet "

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

WATER

They tell us water's harmless, as the universal drink, and omes in mighty handy in the bath or kitchen sink. . . .We see , smilin' meekly on the bosom of a lake—but, sometimes she's s deadly as a colin' rattlesnake!

The dam above the city spreads restruction when it busts —and tempered steel in helpless in the moisture where it rusts. 'here's demons in the under-tow, that drags us out to sea— hich proves that these here quiet things is dangerous as can e.

Where the thunders of Niagara mock the boomin' of the kies—or, where the roarin' rivers sweep the valleys as they se—you can ask the flyin' thousands as they scream in wild larm, if they think a little water is entirely free from harm.

It's the same with Christianity—as calm as twilight's hour, s peaceable as angels, yet, Herculean in its power. . . .and, nce it gets a headway on its everlastin' path, it will sweep the orld fer Jesus, like the waters in their wrath!

To Each of Our Subscribers You Are One of Our Customers

WE would like you to be a partner in the telephone business.

If you become an owner of one or more shares of the American Telephone and Telegraph Company you become a partner in the Bell Telephone System.

An investment in the stock of the American Telephone and Telegraph Company does not depend solely upon the earnings of any one Company in any one State. A stockholder in that Company becomes a part owner in the Nation's telephone service.

The number of shareholders is now over 175,000; an increase of more than 35,000 since January 1, 1921. More than 75,000 of our employees are now making payments for stock purchased by them on an easy payment plan and over 23,000 of these hold shares already paid for.

It would be to the interest of all concerned if every telephone user and every employee also were a shareholder in the American Telephone and Telegraph Company.

We believe that there is no stock issued by any corporation which, considering safety and the return on the money, is a more attractive investment than American Telephone and Telegraph Company shares.

The stock can be bought, at the prevailing market price, through any bank or banker in the country. Each share has a par value of $100, a property value of more than $185, can be purchased for about $115 and pays a dividend of $9.00 each year, payable quarterly.

If you can pay for the stock only gradually we are prepared to make arrangements by which you can, through a reliable bank or banker, pay in installments.

We shall be glad to send you, upon application, the full details as to the management, financial position, earnings, and history of the American Telephone and Telegraph Company, and the details of the means to be taken by you to purchase the stock, either outright or in installments.
