COLLECTORS NOTICE.

THE undersigned takes this method of informing the public that he has his books now made out for the present year 1844, containing County charge, road tax and officer's fees. It is generally known that I have large demands to meet, and those demands will be expected of me punctually. It would be conferring a favor on me by coming forward and settling immediately. There is a number of accounts on my books for the year 1843, yet unsettled. I have heretofore urged upon the people the propriety and even the necessity of an early settlement. I regret very much that I have been disappointed in the effects of the different appeals I have made to the people upon this subject; and hope they will no longer delay; to have to press those accounts that are due me would be repugnant to my wishes, and at the same time would increase the debt of the payer. I am in hopes that the above notice will be attended by all of those who pay taxes or have contracted debts with the Register, or Clerks of the county or any of the Lawyers.

A CARD

It being understood that the Misses CARROLL who for some time past have conducted a female academy, in Cambridge, with great and merited satisfaction, are about to leave us, Miss MARGARET E. LECOMPTE proposes to open a school for young ladies. She feels much diffidence, in offering herself as a successor to those so distinguished in this sphere, but hopes that her assiduity in attention to the duties she incurs, and her competency will be manifested in the advancement of those whom her patrons, may entrust to her charge.

In the course of study which she will prescribe, will be embraced the following subjects:

READING, WRITING, ARITHMETICK.

RHETORICK, HISTORY, GEOMETRY.
MORAL SCIENCE, MENTAL PHILOSOPHY, NATURAL PHILOSOPHY.
CHEMISTRY, NATURAL HISTORY, LOGICK.,

She will also pay attention o composition, and to those who may desire it, she will give instruction in French.

Her school will be opened on Monday 24th February inst. in the house lately occupied by John N. Steele Esq. The room is very commodious, and pleasant, and the situation central, yet retired and suitable for the purpose.

The terms are, for
Reading—Writing—Arithmetic—Grammer—Geography and History—$1 the quarter.
For the higher branches, including French—$1 additional.

BALTIMORE, 26th Feb. 1845.

Miss MARGARET LECOMPTE was for some time under my instruction in Mr. DAVIDGE'S Academy in this city, and I most cheerfully bear testimony to her excellent and lady-like deportment, and to her sound scholarship. She received the meda in the French Department, and stood second to none in the English. Her recitations were carefully prepared, and recited with fluency and ease. She was particularly fond of Mathematics, and pursued Geometry much farther than any young lady in the institution, and in fact farther than any young lady I have ever had under my charge. Her thoroughness and perserverance were perceptible in all her studies, and these are two most valuable qualities in a teacher. I recommend her with confidence for any situation in teaching which requires sound scholarship and faithfulness. She deserves the confidence of those who may be so fortunate as to secure her services in the instruction of their children.

SIR:—It gives me great pleasure to be able to state, that Miss Margaret Lecompte's lady like deportment and scholarship, while at Mr. and Mrs. Davidge's were such as to merit general approbation, and in the French department which was under my immediate supervision, her proficiency was very great, her pronunciation excellent, and I have no doubt but that she is well qualified to impart, and that with credit to her former professors, the knowledge she has acquired.

Cheapness, Elegance and Excellance Combined!

Before subscribing to a Periodical for 1845, read the ollowing Prospectus of the Third Volume of

ARTHUR'S LADIES' MAGAZINE.

PRICE ONLY $2.00 PER ANNUM,

48 Pages Reading Matter, besides two elegant Steel Plates, in each number!

The Publishers, in sending forth their Prospectus for the third volume of their Magazine, which is exclusively and permanently under the editorial control of T. S. ARTHUR, believe that they can offer to the public most substantial claims to patronage. The first and second volumes have been acknowledged on all hands to be equal, and, in many respects, superior, in character, strength, interest and attractiveness, to any of the magazines issued. The aim of the Editor is a high one. He repudiates the long prevalent system of basing his work upon the reputation of contributors, whose articles, no matter what they *have* done, are, in too manyinstances, below mediocrity.

Nothing gains admission into the pages of this Magazine, which is not excellent in itself. The source from which an article comes is secondary—its merits always primary. Such a rule, strictly carried out, must give character to any work. It was given "ARTHUR'S MAGAZINE" a character already acknowledged in all respectable quarters where it has been received.

Among the inexhaustable sources that open up to the hands of a literary caterer, GERMAN and FRENCH LITERATURE offer a wide field for selection. Into this region, with an admirable corps of translators, we are steadily penetrating, astonished at every step by the riches we meet. Especially is this the case in Literature. Already we have given some splendid articles from the German, brim full of pure thought, and forcible illustrations of the power of goodness, "Silent Love," "The Governor and his Successors," "The Unknown Patient," "The Russian Prince," "The Privy Counsellor," &c. &c., all who have read will remember with delight.

3 copies 5.00	"	11 " 15.00	"

☞We would particularly call the attention of our friends, the Post Masters, to the above Prospectus, and also, suggest to all persons who intend taking our work, to do so as early as possible, in order to secure the January and February numbers, and thereby have their Shakspeare Gallery complete; and also, the New Noval by the Editor.

☞The January number will go early to press, and be mailed to our country subscribers by the 1st of December in order to let them see the character and quality of the work. The February number will follow early in the month of January.

☞A Specimen of the January number can be had by at least the first of December, and even earlier.

CLICKENER'S SUGAR COATED VEGETABLE EXTRACT PILLS.

A medicinal preparation is hereby announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect suspect that he had been taking medicine, for these pills are so skilfully prepared that they do not gripe the bowels, and thus the patient who takes them avoids two evils which attend all other purgative medicines; namely nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being *mixed* with the sugar, and hence produces a mingled flavor, which, to most persons is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood.—Pure blood is therefore essential to health. We must not, however, *wait* until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of, for their removal leaves the chyle, (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness rebukes them for the folly of their conduct.—Still they *had* some excuse; for *heretofore*, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now—however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE EXTRACT PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are, as described, the public will freely and gladly patronise them; and the proprieter merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Extract Pills are prepared and sold, wholesale and retail and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents.

Caution—The public should remember that C. V. Clickener is the inventor of the Sugar-Coated Pills, and that nothing of the sort was ever heard of until he introduced them. Therefore should any other person, seduced by the popularity of his discovery, advertise Sugar Coated Pills, they must be a wretched counterfeit, which it would be dangerous to use, as none but the most ignorant quacks can be found dealing in such a nefarious traffic, as palming off counterfeit for genuine medicine.
