A Fortune Over-night

A newspaper is a constant source of information. Several times a year you will read of someone being left a large fortune or winning a great amount of money by stock speculation, in other words, getting rich over-night.

In this country there are quite a few thousands that are pretty well-to-do. Have you heard relatively of many that have gained affluance over-night, compared to those that gain wealth by constant plodding and saving, and whose names never get in the papers? Their's is not a spectacular rise, but the results are accomplished just the same.

Why not be one of the thousands that get there by depositing your money regularly in your saving account HERE, and looking back later with the pride of real accomplishment.

Think this over—but act at once by starting your account HERE AND NOW.

FIRE ON THE OLD BOWLEY CLUB PROPERTY.

Last Wednesday afternoon a fire destroyed several outbuildings at Bowley's Quarters, which was once headquarters for a famous ducking club and is now run as a summer hotel and restaurant. The fire, according to Mr. Quinn, the proprietor of the hotel, started in one of the outbuildings used as an oil and gasoline shed and quickly spread to the garage, and only for the prompt response of the Essex Fire Department and the bucket brigade of the neighbors the entire property would have burned.

The loss is estimated at about $2200.00, and is partly covered by insurance.

KEEP YOUR COLDS TO YOURSELF, SAYS COUNTY HEALTH OFFICER.

"If you cough or sneeze
Do it behind your 'hanky,' please."

"No better advice could be given the victim of the cold that is so common at this time of the year," says Dr. Josiah Bowen, County Health Officer, "than the jingle quoted above. Remember that every cold is caused by a germ that you have picked up from somebody or something. If you have a cold, don't pass on the germs of your cold to the next fellow.

"At this time of the year when there are apt to be sudden changes of temperature, it is worth while to take some precautions against taking cold. Dress according to the weather. Don't over-eat. Drink plenty of water. Keep yourself fit by daily exercise in the open. Fresh air is the best possible tonic. Keep away from the person who has a cold. Don't use a common towel or drinking cup. The person who coughs or sneezes in your face, ought to know better; avoid him.

"The laws of Maryland require cases of influenza and grippe to be reported to the Bureau of Communicable Diseases of the State Department of Health. Quarantine is not required, but patients are urged to take every precaution to prevent the spread of the infection to others. While quarantining is not required, the person who voluntarily keeps away from other people while he or she is suffering from a cold, is helping to prevent the disease from spreading to others, and is thereby performing a public service."
