Jan. 6, 1857. G. CHESNUT, Agent.

THE NEW YORK
Steam Saw-Mill
AND
Machine Company.
CAPITAL $250,000.

THIS company has been organized with the above capital for the purpose of supplying the demand for the Combination Portable Steam Saw-Mill and other improved machinery.

They have purchased the entire machinery business heretofore carried on by J. M. Emerson & Co., also the Montgomery Works at Yonkers, on the Hudson, near New York, and with the experience and facilities combined in its organization are prepared to furnish machinery of all kinds at more liberal rates than has ever been offered at any other establishment.

The Combination Saw-Mill was patented October, 1856, and is now generally acknowledged to be the cheapest, most practical and efficient lumber manufacturing machine in the world. A large number of them are in successful operation in different sections of this country, Canada, Cuba and South America, and wherever their merits have been tested they are being adopted by lumber in manufacturers in preference to all other mills.

The following letter expresses the general opinion of those who are using the Combination Mill:

Messrs. EMERSON & Co.—*Gentlemen:* I have tried the saw-mill purchased of you, and will say that it performs well and more than meets my expectations. I am well pleased with its performance. I set it up on a small stream that afforded constant water about as thick as my little finger, which was much more than sufficient to supply the boiler. We are able to cut 3,000 feet of beautiful lumber in twelve hours, with something less than one cord of wood. It is the very thing we have so much needed in our county for a long time. With a little trouble and expense, we are able to move at from five to ten mil s per day, and set it up in the heart of the timber, which saves the great burden of hauling the logs a long distance to the mill. Yours, respectfully,
JESSE KEER, Jr.,
Louisville, Tenn.

The Company have purchased Lund's Patent Feed Arrangement, which is illustrated and described in the Scientific American for Oct. 24th. This adds greatly to the efficiency of the mill.

The Combination Mill, with all the recent improvements, and steam power of 15 horses, is capable of sawing from 3,000 to 4,000 feet in twelve hours, and is sold for $1,650.

The New York Circular Saw-Mill is manufactured only by this Company. It is of superior construction, and sold for 25 per cent. less than other mills of no greater capacity. A mill with 36 to 54 inch saw can be sold for $450 to 500, and with a 20-horse engine and boiler is sold for $2,200.

Steam Engines and Boilers; Engines of from one to 100 horse power; Locomotive, Tubular, Flue and Cylinder Boilers furnished at greatly reduced prices from former quotations.

Drawings, with plans and specifications for buildings and machinery, furnished gratis to our customers.

Competent mechanics are sent out to put up and set in operation our machinery, when required.

We also manufacture Shingle Machines, Planing Machines, Sugar-Mills and Machinery in general.

Special attention paid to getting up shafting and pullies for manufactories, and all kinds of mill-wright work.

This Company are selling in great numbers a Patent Conical Burr-Stone Mill, for flour, corn meal and all kinds of feed, which is pronounced by experienced millers, both in this country and Europe, the best mill ever constructed. It will grind more grain in the same time, and with half the power, of any mill of the same price in the market.

We also furnish other styles of Grist-Mills, when required.

The undersigned are also publishers of
The United States Journal,
a large and magnificent illustrated monthly newspaper, devoted to Mechanics, Agriculture, Literature and Amusement.

In addition to its usual attractions, which have already given it a circulation of nearly 100,000 copies per month, it will hereafter contain a complete record of all new and valuable Mechanical and Agricultural improvements, embracing a larger amount of practical information from experienced writers in these specialties than any other publication in the world.

PRICE, ONLY 50 CENTS A YEAR.

☞Specimen copies sent gratis.

UNRIVALLED ATTRACTIONS!

EMERSON'S MAGAZINE
AND
PUTNAM'S MONTHLY.

TWO GREAT MAGAZINES IN ONE.

90,000 Copies the First Month.

MAGNIFICENT PROGRAMME for 1858.

$20,000 in Splendid Works of Art.

Five-Dollar Engraving
TO EVERY SUBSCRIBER.

THE GREAT LIBRARY OFFER.

Agents Getting Rich!!

THE union of EMERSON'S MAGAZINE and PUTNAM'S MONTHLY has given to the consolidated work a circulation second to but one similar publication in the country, and has secured for it a combination of literary and artistic talent probably unrivaled by any other magazine in the world. During the first month, the sale in the trade and demand from subscribers exceeded 90,000 copies, and the numbers already issued of the consolidated work are universally conceded to have surpassed, in the richness of their literary contents, and the beauty and profuseness of their pictorial illustrations, any magazine ever before issued from the American press. Encouraged by these evidences of favor, the publishers have determined to commence the new volume in January with still additional attractions, and to offer such inducements to subscribers as cannot fail to place it, in circulation, at the head of American magazines. With this view they now announce the following splendid programme. They have purchased that superb and costly steel-plate engraving,

"THE LAST SUPPER,"

and will present a copy of it to every three-dollar subscriber for the year 1858. It was engraved at a cost of over $6,000, by the late celebrated A. L. Dick, from the original of Raphael Morghen, after Leonardo Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary three-dollar engravings.

The first impressions of this engraving are held at $10, and it was the intention of the artist that none of the engravings should ever be offered for a less sum than $5, being richly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year—cheap at $3—and this splendid engraving, richly worth $5; thus getting for $3 the value of $8.

We shall commence striking off the engravings immediately, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers. We shall, therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings early, and from the first impressions, should send in their subscriptions without delay. The engraving can be sent on rollers, by mail, or in any other manner, as subscribers shall order

$20,000 IN WORKS OF ART.

In addition to the superb engraving of "The Last Supper," which will be presented to every three-dollar subscriber for 1858, the publishers have completed arrangements for the distribution, on the 25th day of December, 1858, of a series of splendid works of art, consisting of one hundred rich and rare Oil Paintings, valued at from $100 to $1,000 each.—Also, 2,000 magnificent Steel-Plate Engravings, worth from $3 to $5 each, and 1,000 choice Holiday Books, worth from $1 to $5 each, making, in all, over three thousand gifts, worth $20,000.

Inclose $3 to the Publishers and you will commence receiving the Magazine by return mail. You will also receive with the first copy a numbered subscription receipt entitling you to the engraving of "The Last Supper," and a chance to draw one of these "THREE THOUSAND PRIZES."

REASONS WHY YOU SHOULD SUBSCRIBE FOR
Emerson's Magazine
FOR 1858.

1st: Because its literary contents will, during the year, embrace contributions from over one hundred different writers and thinkers, numbering among them the most distinguished of American authors.

2d: Because its editorial departments, "Our Studio," "Our Window," and "Our Olio," will each be conducted by an able editor—and it will surpass, in the variety and richness of its editorial contents, any other magazine.

3d: Because it will contain, during the year, nearly six hundred original pictorial illustrations from designs by the first American artists.

4th: Because for the sum of $3 you will receive this splendid monthly, more richly worth that sum than any other magazine, and the superb engraving of "The Last Supper," worth $5.

5th: Because you will very likely draw one of the three thousand prizes to be distributed on the 25th day of December, 1858—perhaps one that is worth $1,000.

Notwithstanding that these extraordinary inducements can hardly fail to accomplish the objects of the publishers without further efforts, yet they have determined to continue through the year

THE GREAT LIBRARY OFFER.

To any person who will get up a club of twenty-four subscribers, either at one or more post-offices, we will present a splendid Library, consisting of Forty Large Bound Volumes, embracing the most popular works in the market. The club may be formed at the club price, $2 a year, without the engraving of the Last Supper to each subscriber. List and description of the Library, and specimen copy of the Magazine, will be forwarded on receipt of 25 cents. Over 200 Libraries, or 8,000 volumes, have already been distributed in accordance with this offer, and we should be glad of an opportunity to furnish a Library to every clergyman, to every school teacher, or to some one at every post-office in the country.

MAKING MONEY.

The success which our agents are meeting with is almost astonishing. Among the many evidences of this fact, we present the following from one of our agents already in the field:

"I have now been at work canvassing on your Magazine one week, and am delighted with the business. It is different from canvassing for any thing else I ever tried. I am sure to get a subscriber in every family where they can rake together three dollars. I am never received with indifference anywhere, for the first thing I do is to unroll my engraving before I let anybody know what I am after, and thus I get them interested before they know what a *splendid offer* I am going to make them. Sometimes they ask my price for the engraving and I tell them $5, and when I offer them the engraving and Magazine one year for three dollars they are perfectly astonished. I did not get to going well for the first two or three days:

The 1st day I got	2 subscribers.
The 2d day I got	7 subscribers.
The 3d day I got	6 subscribers.
The 4th day I got	13 subscribers.
The 5th day I got	9 subscribers.
The 6th day I got	17 subscribers.
First week	54 subscribers.

I shall do much better next week. It is the engraving that does the business. Everybody wants the engraving. You may calculate upon from one to two thousand subscribers from me this Winter. I am going to make enough out of the business to buy me a farm in the Spring."

With such inducements as we offer, anybody can obtain subscribers. We invite every gentleman out of employment, and every lady who desires a pleasant money-making occupation to apply at once for any agency. Applicants should inclose 25 cents for a specimen copy of the Magazine, which will always be forwarded with answer to application by return mail.

SPECIMEN ENGRAVING.

As we desire to place in the hands of every person who proposes to get up a club, and also of every agent, a copy of the engraving of "The Last Supper," as a specimen, each applicant inclosing us $3 will receive the engraving, post-paid by return mail, also specimens of our publications and one of the numbered subscription receipts, entitling the holder to the Magazine one year and to a chance in the distribution. The offer is made only to those who desire to act as agents or to form clubs.

NOTICE TO CREDITORS.

Estate of Algernon Stanley, f. n., dec'd.

DORCHESTER CO. ORPHANS' COURT, Dec. 14th, 1857.

ON application of Algernon S. Percy, Administrator of Algernon Stanley, f. n., late of Dorchester county, deceased, it is ordered that he give the notice required by law for all creditors to exhibit their claims against the said deceased's estate, and that he cause the same to be published once in each week, for the space of three successive weeks, in the "Cambridge Democrat," a paper selected by him.

In testimony that the foregoing is truly copied from the minutes of the proceedings of Dorchester County Orphans' Court, I have hereunto set my name and the seal of my office affixed this 14th day of December, in the year of our Lord, 1857.
LEVIN L. KEENE,
Register of Wills, Dorchester county.

In compliance with the above order, this is to give notice that the subscriber, of Dorchester county, hath obtained from the Orphans' Court of Dorchester county, in Maryland, letters of administration on the personal estate of Algernon Stanley, f. n., late of Dorchester county, deceased. All persons having claims against the said deceased are hereby warned to exhibit the same, with the vouchers thereof, to the subscriber, on or before the 14th day of June next, or they may otherwise, by law, be excluded from all benefit of the said estate.

Given under my hand this 14th day of December, 1857. ALGERNON S. PERCY,
Dec. 16, 1857-3t Administrator.

Baltimore Lock Hospital.

DR. JOHNSTON,

THE founder of this celebrated Institution; the only regularly Educated Physician Advertising—offers the most certain, speedy and only effectual remedy in the world for

SECRET DISEASES.

Gleets, Strictures, Seminal Weakness, Pains in the Loins, Constitutional Debility, Impotency, Weakness in the Back and Limbs, Affections of the Kidneys and Bladder, Nervous Debility, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Tremblings, Dimness of Sight or Gidiness, Affections of the Head, Throat, Nose or Skin—those terrible disorders arising from the indiscretion of Solitary Habits of Youth; those Dreadful and destructive Practices which produce Constitutional Debility, render Marriage impossible, and destroy both body and mind.

YOUNG MEN,

Especially who have become the victims of Solitary Vice, that dreadful and destructive habit, which annually sweeps to an untimely grave, thousands of young men, of the most exalted talent and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married Persons, or young men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., should immediately consult Dr. J., and be restored.

He who places himself under the care of Dr. J., may religiously confide in his honor as a gentleman and confidently rely upon his skill as a physician.

OFFICE, No. 7, South Frederick street, Baltimore, Md., seven doors from Baltimore street, East side, up the steps. ☞Be particular in observing the name and number, for Ignorant and Lying Impostors, Canning and Trifling Quacks, *Shoe Menders, Boot Blocks, Sweeps, Lamp Trimmers*, etc., styling themselves regularly Educated Phisicians, attracted by the reputation of Dr. Johnston, lurk near.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that ever were known; many troubled with ringing in the head and ears when asleep; great nervousness, being alarmed at sudden sound, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

A CERTAIN DISEASE.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an illtimed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bone and arms, blotches on the head, face and extremities, progressing on with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that bourne from whence no traveller returns."

It is a melancholly fact that thousands fall victims to this terrible disease owing to the unskillfulness of ignorant pretenders, who, by the use of that Deadly Poison, Mercury, ruin the constitution and make the residue of life miserable.

TAKE PARTICULAR NOTICE!

Dr. J. addresses all those who have injured themselves by improper indulgencies and solitary habits which ruin both body and mind, unfitting them for either Business, Study, Society or marriage.

These are some of the sad and melancholy effects procured by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irribility, Derangement of the Digestive Functions, General Debility, symptoms of Consumption, &c.

MENTELLY.—The fearful effects on the mind are much to be dreaded: loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons, of all ages, can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of consumption.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

By this great and important remedy, weakness of the organs is speedily cured, and full vigor restored.

Thousands of the most nervous and debilitated, who had lost all hope, have been immediately relieved.

All impediments to Marriage, Physical or Mental Disqualifications, Nervous Irritability, Trembling and Weakness, or exhaustion of the most fearful kind, speedily cured.

YOUNG MEN,

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions at school, the effects of which are nightly felt, even when asleep, and if not cured render marriage impossible, and destroy both mind and body, should apply immediately.

What a pity a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must before contemplating MARRIAGE, reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

IMPOTENCE—WEAKNESS OF THE GENITAL ORGANS.

Loss of virile power is the penalty most frequently paid by those who give a loose rein or license to their passions. Young persons are too apt to commit excess from not being aware of the dreadful effects that may ensue! Although impotency occurs from stricture, deposites in the urine, gravel, and from numerous other causes, yet the abuse of the sexual organs, by excessive venery or self-pollution; particularly the latter is the more frequent cause of it. Now who that understands the subject will pretend to deny that the power of procreating the species is lost sooner by those who practice the *solitary vice* than by the prudent? Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise.

The System becomes Deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Debility, Dyspepsia, Palpitation of Heart, Indigestion, a Wasting of the Frame, Cough, Consumption, &c.

INVOLUNTARY SEMINAL EMISSIONS.

Of this distressing disease, which is the common results of the above mentioned *secret habit*, but a very brief description, for many reasons, can be given here. The complaint comes on gradually. It begins by a too hasty discharge of semen in copulative and passionate dreams. Such emissions being too hasty, have no power, while the erections are feeble, imperfect and soon over. As the disorder grows worse, the discharges or emissions become more easily excited and frequent, often brought on by lascivious ideas, or by merely touching the part in this deplorable case, the emissions take place without any pleasure and without erection, and in this debilitated and sensitive state of the organs the direful effects of pollution so ruinous to health, take place day and night. Pale, emaciated and weak, the unhappy victim of artificial gratification complains of pain in the head and back, has a languid look, dimness of sight, flushing of the face when spoken to, lowness of spirits, and a vague dread of something, often starting with terror at a sudden sight or sound. He also loaths society, from an innate sense of shame, and feels a dislike to all bodily and mental exertions.

TO STRANGERS.

The many thousands cured at this institution within the last sixteen years, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the papers and many other persons, notices of which, have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise, but unless he does so, the afflicted, especially strangers, could not fail to fall into the hands of the many impudent and unlearned Impostors, with innumerable false names or combined Quack shops, swarming these large cities, and copying Dr. Johnston's advertisements. *Shoe Menders, Boot Blocks, Sweeps, Lamp Trimmers, &c., Paltry and Contemptible Imitators*, whose lives, instead of at the Noble Science of Medicine, have been spent in the most *menial capacity*, now styling themselves "Regularly Educated Physicians," illiterate, shallow-brained fellows, too lazy to work at their original trade, with scarce two ideas beyond a brute, who for the purpose of enticing and deceiving, carrying on five or six offices, under as many different false names, so that the afflicted strangers, escaping one, is sure to tumble headlong into the other. Ignorant Quacks with enormous lying certificates of great and astonishing cures from persons not to be found, who keep you taking large bottles of Licorice Water, and other packages of filthy and worthless compounds, cunningly prepared to impose upon the unfortunate and unsuspecting. Trifling month after month, or as long as the smallest fee can be obtained, and, in despair, leaves you with ruined health, to sigh over your galling disappointment.

Persons doubting these remarks can try these impostors, be ruined in health, and be convinced.

Dr. Johnston wants no Patients, but those fully capable of appreciating and distinguishing the services of a regular thorough-bred Physician from the paltry, designing and unlearned Quack.

ONLY PHYSICIAN ADVERTISING.

Dr. Johnston is the only Physician advertising to cure Secret Disease. His Credentials or Diplomas always hang in his office.

His remedies and treatment are entirely unknown to all others. Prepared from a life spent in the great hospitals of Europe and the first in this country, and a more extensive practice than any other Physician in the world.

HE ALONE CAN RESTORE YOU.

SKIN DISEASES SPEEDILY CURED.

"No Such Word as Fail."
A RESISTLESS REMEDY.
HOLLOWAY'S OINTMENT.

CIRCULAR TO THE SICK.

The first hospital surgeons and medical publicists of Europe admit the unparalleled anti-inflammatory and healing properties of this Ointment; Governments sanction its use in their naval and military services, and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlie the external evidences of disease, and neutralize the fiery elements which feed and exasperate the malady.

RHEUMATISM, SCROFULA, ERYSIPELAS.

These are among the most terrible and agonizing diseases of the muscles, the fleshy fibre and the skin; yet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing, antidote to pain and inflammation.

SALT RHEUM, FEVER SORES, STIFF JOINTS.

In cases of Salt Rheum, where medical waters, lotions, and every recipe of the pharmacopœa have proved useless, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

DISCHARGING ULCERS.

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Ointment. The surrounding redness vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly, until the orifice is filled up with sound material, and the ulcer radically cured.

A WORD TO MOTHERS.

The young are the most frequent sufferers from external injuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the encrusted sores which sometimes disfigure the heads and faces of children.

SIGNIFICANT FACTS.

This Ointment is universally used on board the Atlantic and Pacific whaling fleet as a cure for scorbutic affections and as the best possible remedy for wounds and bruises. Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes.

Both the Ointment and Pills should be used in the following cases:

Bunions, Burns, Chapped Hands, Chilblains, Fistula, Gout, Lumbago, Mercurial Eruptions, Piles, Rheumatism, Ringworm, Salt Rheum, Scalds, Skin Diseases, Swelled Glands,
