To the Faculty of the Nashv.e Med. College

Gentlemen

At a meeting of the students held on the 12th Inst, we made Known to you in the form of resolutions our dissatisfaction with the late Conduct of Mr. McGill, and had recourse to the painful duty of requesting his dismissal – That our language has been unhappily construed into dictation or insult, we sincerely regret, and here permit us to disavow at once any such inclinations on our part –

From the prejudicial reports in circulation and from the Known sentiments of our friends in the South and even in this state, we would represent the danger not only incurred by the Institution, in his abiding with us, but would forcibly advert to the blighting influence, it would undoubtedly exert upon our future professional prospects – With these considerations in view we would respectfully solicit your attention to our reiterated desire of his early dismissal –

In confirmation of these sentiments we subscribe ourselves –
