TAILORING-

THE Subscriber begs leave respectfully to announce to his friends and the public, that he still carries on the

Tailoring Business

IN ALL ITS DIFFERENT BRANCHES,

At his old Stand, in Cambridge.

He has lately procured a new system of CUTTING OUT GARMENTS, which has never been used before in this part of the State. It is adjusted upon a mathematical principle, and cannot fail to succeed in all cases. Upon this plan, the science of cutting clothes is no longer uncertain, and dependent upon the eye and accident, for a good fit. It is as unerring as the truths of geometry. He congratulates himself and his friends upon the possession of this long sought desideratum. He is prepared to make up clothes for his patrons in the neatest and most fashionable style, having made an arrangement to procure the *LATEST NEW YORK FASHION'S* of the season. His work shall be finished in the best manner, and he warrants his garments to fit. Having been located in Cambridge for the last twelve years he returns his acknowledgements to his friends and the public, for the flattering encouragement they have bestowed upon him. He pledges himself to devote his most assiduous attention to accommodate those who entrust work to his care. In conclusion, he invites all to call, and he flatters himself that they will be entirely satisfied that he has promised nothing but what he will most rigidly fulfil.

A DISCOVERY of a regular Practitioner of Medicine, and prepared exclusively by him—for the cure of Pulmonary Diseases—first of which ranks Consumption; also, Asthma, Whooping Cough, Dropsy of the Chest, Inflamation of the Bronchiæ, Common Colds, Coughs, and in fact all diseases attended with preternatural excitement.

Read the following voluntary testimonial given by gentlemen of the first respectability, and of known probity—one of whom, Samuel Brown, esq. is the present sheriff, of the county of Burlington, N. J.

We, the undersigned, do hereby certify that we have been acquainted with Dr. H. H. Higbee, for the last eight years, and that about five years ago he was supposed to be very far gone with pulmonary consumption; that he was so ill as to be confined to his room, and no one looked for his recovery When, after remaining in this state for some time, he commenced taking a medicine prepared by himself, and very soon recovered his health, to the surprise of every one who knew him. His success in the treatment of pulmonary consumption, and diseases of the lungs generally, since he regained his own health, has been perfectly astonishing. Several persous within our knowledge have been restored from APPARENTLY the last stage of the disease by his medicine, and in no instance, where the disease was taken early, has he failed to effect a cure. We consider it to be a duty which we owe to the cause of humanity, to give this public testimonial of our confidence in the medical skill of Dr. Higbee, and of the efficacious effects of his remedy for pulmonary diseases.

The N. York Express.

The New-York Express is a Daily and Semi-weekly Newspaper, lately established in the City of New-York, by JAMES BROOKS of Portland, Maine, and ROBERT HUDSON, of Hudson's News Rooms. The price of the daily is ten dollars, and of the Semi-weekly, four dollars in advance, and five if not paid within the year.

Subscribers not known to the proprietors are expected to give references in New York, unless the money accompanies their order. The proprietors know full well that in the management of a daily newspaper in New-York, the editors must neither sleep nor slumber upon their posts, and while thousands of their fellow citizens are in their beds, that is the time for them to be at their desk, but they are prepared for this exertion. They have the health, spirits and the age for such an encounter and are ready for it knowing full as they do, the activity of some of their contemporaries and their indefatigable exertions never to be outdone.—But nevertheless, they think there is room for them. New York is increasing with a rapidity that defies calculation and mocks at prophecy—marching onwards even with tides that threaten a close approximation to the empire city of the commericial world over the sea: and sure in all this vigorous and marvellous growth, a new Journal *may* succeed, where others have, when New-York was, as it were, but in her swathing clothes, and not the giant she now is—with her thousand arms stretching over both the old world and new. In such a great city then; the heart of our vast land, and the link between that land and Europe—where no taxes upon paper, no stamps, no restrictions upon the Press, encumber and overload the business of Journalizing, there is ample scope and range enough for us and all our contemporaries too.

The great and primary object of the proprietors is to create a commercial Newspaper, but it is just as impossible to live in this hot political world of ours without mingling in politics, as to go into the fire without being burnt. True, when the Whigs aver that two and two make four, and the friends of Mr. Van Buren aver that two and two make three and a half, they could take the ground of neutrality, aver as loudly as either, that two and two make three & three fourths, but there is a right and a wrong side on every question, and one must in a country like this be on one side or other.—As to this right political side, we are quite sure that it is that of the Whigs, but were it otherwise, we should be puzzled enough to publish a Commercial Journal, when Commerce and Whig principles are identified, one with another. Already we have in connexion with "Hudson's News Room," the basis of a newspaper establishment, a Price Current, Shipping List, and excellent arrangements for all news, Foreign and American: but not satisfied with this we shall immediately push our arragements to the furtherest point for the procuring of news.—One of the Messrs. Hudsons is about to sail for Liverpool, and go from thence to London, Havre and Paris, for the purpose of devising the most expeditious and surest means of receiving commercial intelligence from abroad. The rapid arrangements that we have been compelled to make for the publication of the "Express," have of course put it out of our power to have a new Press, we have ordered one of the first quality, a double cylinder, which will be done by the middle of September, and then the 'Express' will be the *largest Daily Newspaper in the World.*

The arrangements of our office, though not wholly completed, are rapidly advancing. We have established, at a great expense, a Correspondence with every important section of our country, and as soon as possible we intend to do the same with every interesting part of the world. Our subscription list has increased and is still increasing beyond the highest expectations, We feel sure of ultimate success and it will therefore be our pride to deserve it. With such arrangements as these, we hope to have a fair share of public patronage, to deserve which, we shall assuredly do all that is in our power.
