WHY A SOAP SHORTAGE?
You've Heard Rumors. Here Are the Facts!

1. There is a world-wide shortage of animal fats and of vegetable oils. This shortage effects all of us. For instance, this year soapmakers have been able to obtain only one fifth of the imported oils they used in 1941—far less domestic fats, too.

2. Because of the world-wide shortage, manufacturers are unable to get the amount of fats and oils they need to make not only soaps, but also paints, textiles, tires, leather goods, floor coverings, electrical appliances, etc.

3. In the face of these conditions, American soap manufacturers have done their utmost. They have turned all the fats and oils they have been able to obtain into soap just as quickly as possible.

4. But for the help of American housewives, the shortage of soap would have been far more serious. Last year, more than one out of every nine packages of soap sold was made from used fats saved in America's kitchens.

5. Don't blame your grocer. He is doing his best, like the soapmakers, to get more soap for you. Won't you do your best by saving and turning in every drop of used fats.

OXYDOL WASHES SO CLEAN
Your biggest wash comes
WHITE WITHOUT BLEACHING
PROCTER and GAMBLE'S OXYDOL is Far Ahead of Most Soaps in Preventing "Dirty Grayness"

Tests Prove OXYDOL Washes Clothes CLEANER and WHITER!

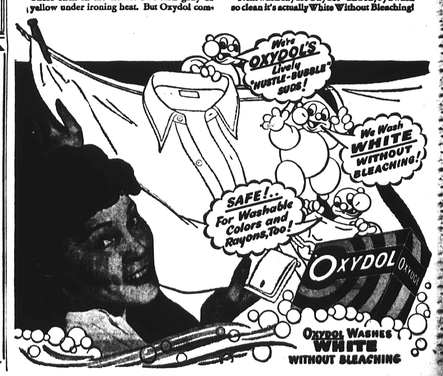
Yes, Whiter! In wash test after wash test—Oxydol proved that it actually washes clothes *cleaner* and *whiter* than many other soaps which, unlike Oxydol, fail to get out that last possible trace of stubborn dirt and grime!

White and Bright Wash after Wash! Soaps often leave tiny discoloring particles caused by dirt in the clothes and the "hardness" of the water. These stick in the clothes and turn gray or yellow under ironing heat. But Oxydol combats "dirty grayness"—it helps *prevent* "dirty grayness" from forming in the clothes.

New "Hustle-Bubble" Suds Lift Dirt Out! Oxydol's new "Hustle-Bubble" suds are so active they *lift dirt out.* All your white things—except for unusual stains—come so clean they're White Without Bleaching: Sparkling white!

So Safe for Colors, Too! And Oxydol is so *safe*—safe for wash colors, rayons and your own precious hands. Its rich, safe suds wash your colored clothes so clean they fairly sparkle!

Next wash day use Oxydol—and enjoy a wash so clean it's actually White Without Bleaching!



OXYDOL WASHES WHITE WITHOUT BLEACHING
