Pulmonary Consumption Can be Cured.

The following letter, addressed to Dr. H. H. Higbee, by Mr. Wm. Constable, a pious member of the Methodist church,) 315 Callowhill street, will show that Dr. Higbee's Remedy, though it is not and never has been offered as Specific, is deservedly ranked among the most extraordinary discoveries of modern times. The testimonials daily received of the astonishing efficacy of this medicinal compound, are conclusive proofs that Dr. Higbee's system of Treatment of Chronic diseases, (discovered, as it was, when the inventor was himself, to all appearance, laboring under the most fatal variety of pulmonary consumption,) is founded on correct principles.

Philadelphia, Jan. 15th, 1838.

DR. HIGBEE:

Dear Sir—I think it a duty incumbent upon me, which I owe to you and the world, to make this statement of facts, which I am able and ready to prove. My daughter Eliza 17 years of age, was laboring under a distressing cough, and bleeding of the lungs. We had the advice of physicians, and she was pronounced in the highest stage of consumption, and incurable. She had a continual pain in her right side, cough from a half to one hour at a time, and discharge more than a pint of corruption per 24 hours, and discharges of large quantities of blood, which the Doctor pronounced to be from the lungs loss of appetite, could not sleep long by the continual coughing, shortness of briath, and discharging from the lungs. My daughter was confined three weeks to her bed; we had to stay by her night and day, expectiug every minute to be her last. I providentially saw your advertisement in the papers, and the respectable signers to it. I felt a strong inclination to purchase a bottle; and in three days after she commenced taking your medicine, she was able to dress herself and walk down stairs, and her cough left her. It is now about ten months since she began to take your medicine. She took about five bottles of it; and she is in as good a state of health as she has been for a number of years.—I have recommended you medicine to several of my acquaintances; they have all found immediate relief. I refer you to John Greenleaf, between Jarman and Milestown, Mrs. Hart, in Callowhill st. at the Post Office; Mr. John Staneclift, keeper of the Prison, at Cherry Hill. These are persons I recommend your medicine to, and you can refer any person to them for the particular benefit received from taking your medicine. I live in Callowhill street, No. 315, near Ninth; where you may refer them to me, and they can have every particular, and see my daughter, or apply to any of theother pesons named.

WM. CONSTABLE.

We the undersigned, do assert the above statement to be true, for we were eye witnesses to the whole facts.

Messrs. Editors—I wish through your paper to remove a wrong impression from the minds of many who think the letter I wrote to Dr. H. H. Higbee, is nothing but a fictitous letter with borrowed names attached to it; for many who have called on me were under the same impression—but when they saw my daughter, they found it was no deception but an astonishig fact, and more so when they saw some of the other persons referred to in my letter; but in particular, John Greenleaf, a man sixty two years of age, who was perfectly cured by taking Dr. Higbee medicine, when he was reduced almost to a skeleton by a violent cough, and discharging of blood from the lungs, in a similar way as my daughter.—When I saw the effect the medicine had on my daughter, I strongly recommended it to him, and with difficulty I prevailed on him to try it, for he said he was given up as incurable by his Physician, and that he had tried almost every kind of medicine before and found no relief from any. I did not know Dr. Higbee, nor had I ever seen him at that time. I have no interest in selling the medicine—I am no agent direct or indirect. I purchased Dr. Higbee's medicine (previous to his removal to this city) of his agents. Messrs. Stokes and Brown, in Market st, If any persons doubt my statement, they will please to call on me, and I will give them satisfaction, for I have no other motive in view but that the afflicted may find speedy relief. You may depend on these statements to be true, for as I expect to stand before the judgment seat of Chirist, to give an account for the deeds of my life, I have made these statements, knowing them to be true. I have not been solicited by Dr. Higbee, or any other prson, to make these statements, and I repeat them in order to remove the doubts from every mind.

WM. CONSTABLE.

No. 315 Callowhill street, between 8th & 9th.

☞The author of the above letter is well known as an honest and upright man and a sincere Christian, having for many years been a citizen of Philadelphia and an exemplary member of the Methodist church. It is but act of Justice to Dr. Higbee, to say, that the above statement was unasked for, and that Mr. Constable wrote it because he believed that by so doing he might be the means of saving many valuable lives which under the usual pactice, would inevitably be lost. Dr. Higbee's medicine, which continues (though not offered as a panacea) to perform the most astonishing cures in chronic Diseases of the Lungs, Throat, Liver Kidneys, &c. &c. may be obtained at the Residence of the Proprietor, 87 North Fifth st. Philadelphia; at the Residence of Rev. Daniel Higbee, Moores town N. J. Also, of Stokes & Brown, 295 Maket st, and at Joseph Scott's Bookstore Wilmington, Del. THE AMERICAN SILK GROWER, AND FARMER'S MAMUAL:

Embellished with Appropriate Engravings;

Edited by

WARD CHENY & BROTHERS,

Burlington, N. J.

And Published by

CHARLES ALEXANDER, Philadelphia.

THE first number of this highly important and valuable work is now ready ror delivery to subscribers,—we beg leave respectfully to call the attention of our citizens to the praiseworthy objects it has in view, and for the promotion of which it has been put in operation.

There has not probably heretofore been a time when the attention of the people of this country was as much engaged on the subject of the Silk culture as at present, nor a time when those who have already embarked in this business felt such entire confidence not only that liberal profits may be derived from it, but also in their ability to produce as good silk as can be procured in any part of the world. It is believed that all that is now wanting to fully establish the great interests in this country, with all its vast advantages, is but the dissemination of plain practical information concerning it! and convince our citizens of what we know to be true, viz: that there is no more difficulty in raisin a crop of silk, than there is in procuring a crop of grain—the capital thus bestowed yields a far greater return than can be obtained from any other branch of husbandry.—The editors have long been engaged in the silk culture, and intend hereafter to give thir entire attention to it—they have an extensive arrangement for feeding the silk worms and cultivating that invaluable species of mulberry tree, the Morus Multicaulis. And from their long experience in the occupation and extensive correspondence with silk growers, they believe they may say without ostentation that they shall be able to make the American Silk Grower, useful and entertaining, and to communicate through its pages information as valuable respecting every branch of the silk business, as can be elsewhere obtained in the United States. A portion of the work will be devoted to noting such improvements of Agriculture and such matters as are generally useful to the cultivators of the soil.

The proprietors respectfully solicit contributions on Agricultural subjects generally; and also the silk growing business in particular. Address the editors Ward Cheny & Brothers, Burlington, N. Jersey.

The work will be published monthly; every number containin 24 large octavo pages, with the addition of a cover for advertisements &c. and at the end of each volume a complete table of contents will be furnished to subscribers. ☞Terms $1, a year, payable in advance, for single subscribers. 20 subscribers will be supplied a whole year by forwarding a current $10 bill free of postage.

All orders for the work, postage paid, will be promptly attended to, if addressed to the publisher Charles Alexander, Athenian buildings Franklin Place, Philadelphia.

Citizens, Silk Growers, Agriculturalists, and others, who wish to procure this work from the present time will please forward their names and the amount of subscription.

AN Election for Directors to the Nanticoke Bridge Co. will be held at the Toll house, in Vienna, on Saturday the 21st July next, between the hours of 2 and 3 o'clock, P. M.

Dorchester County,

TO WIT.

ON application to me the subscriber one of the Justices of the Orphans' court of Dorchester County, by John Mills, Thomas Hawkins, William Henry Applegarth, William A. Bailey, Zachariah Tregoe, John Fidler, Clement C. Waters and Ezekiel Frazier of the said county, stating that they are in confinement for debts which they are unable to pay, and praying to be relieved therefrom, agreeably to the acts of assembly for the relief of insolvent debtors.

Schedules of their property and list of their creditors and debtors on oath as far as they can at present ascertain the same, being annexed to their petitions. And the said Mills, Hawkins, Applegarth, Bailey, Tregoe, Fidler, Waters and Frazier, being in actual confinement, and I being satisfied that the said Mills, Hawkins, Applegarth, Bailey, Tregoe, Fidler, Waters and Frazier, have resided for two years last past in the state of Maryland, and they having taken the oath prescribed by the act of 1805, and given bond with sufficient security for their appearance before the Judge of Dorchester County Court, to be held at Cambridge in the said county on the first Tuesday after the fourth Monday in October next, and at such other time or times as the said Court may direct to answer the allegations of their creditors, and having complied with the requisitions of the act of December session, 1825, and the several supplements thereto, by executing deeds of all their property, real, personal or mixed, to Thomas Mills, Richard Hughlett, Thomas Cook, John M. Bailey, George W. Tregoe, Francis H. Rowins, Henry Page, and John G. Abbott, appointed by me Trustees to the said Mills, Hawkins, Applegarth, Bailey, Tregoe, Fidler, Waters, and Frazier. And the said Trustees having given bonds with approved security for the performance of the trust, and certified in writing to me that they are in possession of all the estates of the said Mills, Hawkins, Applegarth, Bailey, Tregoe, Fidler, Waters and Frazier, mentioned in their schedules. I do therefore, order and direct that the said Mills, Hawkins, Applegarth, Bailey, Tregoe, Fidler, Waters and Frazier, be discharged from their imprisonment, and that they be, and appear before the Judges of Dorchester County Court, on the day above mentioned; The same time is appointed for their creditors to attend, and show cause if any they have, why the said Mills, Hawkins, Applegarth, Bailey, Tregoe, Fidler, Waters, and Frazier should not obtain the benefit of the said Insolvent Laws. And I do further order and direct that the said Mills, Hawkins, Applegarth, Bailey, Tregoe, Fidler, Waters and Frazier give notice to their creditors by causing a copy of this application to be inserted in a newspaper published in Cambridge, three months before the said day, and to be continued in such newspaper once a week for four successive weeks, and also a like copy to be set up at the Court house door, three months before the said day. Witness my hand the 7th day of July, Anno Domini, 1838.

The N. York Express,

The New-York Express is a Daily and Semi-weekly Newspaper, lately established in the City of New-York, by JAMES BROOKS of Portland, Maine, and ROBERT HUDSON, of Hudson's News Rooms. The price of the daily is ten dollars, and of the Semi-weekly, four dollars in advance, and five if not paid within the year.

Subscribers not known to the proprietors are expected to give references in New York, unless the money accompanies their order. The proprietors know full well that in the management of a daily newspaper in New-York, the editors must neither sleep nor slumber upon their posts, and while thousands of their fellow citizens are in their beds, that is the time for them to be at their desk, but they are prepared for this exertion. They have the health, spirits and the age for such an encounter and are ready for it knowing full as they do, the activity of some of their contemporaries and their indefatigable exertions never to be outdone.—But nevertheless, they think there is room for them. New York is increasing with a rapidity that defies calculation and mocks at prophecy—marching onwards even with trides that threaten a close approximation to the empire city of the commercial world over the sea: and sure in all this vigorous and marvellous growth, a new Journal *may* succeed, where others have, when New-York was, as it were, but in her swathing clothes, and not the giant she now is—with her thousand arms stretching over both the old world and new. In such a great city then; the heart of our vast land, and the link between that land and Europe—where no taxes upon paper, no stamps, no restrictions upon the Press, encumber and overload the business of Journalizing, there is ample scope and range enough for us and all our contemporaries too.

The great and primary object of the proprietors is to create a commercial Newspaper, but it is just as impossible to live in this hot political world of ours without mingling in politics, as to go into the fire without being burnt. True, when the Whigs aver that two and two make four, and the friends of Mr. Van Buren aver that two and two make three and a half, they could take the ground of neutrality, aver as loudly as either, that two and two make three & three fourths, but there is a right and a wrong side on every question, and one must in a country like this be on one side or other.—As to this right political side, we are quite sure that it is that of the Whigs, but were it otherwise, we should be puzzled enough to publish a Commercial Journal, when Commerce and Whig principles are identified, one with another. Already we have in connexion with "Hudson's News Room," the basis of a newspaper establishment, a Price Current, Shipping List, and excellent arrangements for all news, Foreign and American: but not satisfied with this we shall immediately push our arragements to the furtherest point for the procuring of news.—One of the Messrs. Hudsons is about to sail for Liverpool, and go from thence to London, Havre and Paris, for the purpose of devising the most expeditious and surest means of receiving commercial intelligence from abroad. The rapid arrangements that we have been compelled to make for the publication of the "Express," have of course put it out of our power to have a new Press, we have ordered one of the first quality, a double cylinder, which will be done by the middle of September, and then the 'Express' will be the *largest Daily Newspaper in the World.*

The arrangements of our office, though not wholly completed, are rapidly advancing. We have established, at a great expense, a Correspondence with every important section of our country, and as soon as possible we intend to do the same with every interesting part of the world. Our subscription list has increased and is still increasing beyond the highest expectations. We feel sure of ultimate success and it will therefore be our pride to deserve it. With such arrangements as these, we hope to have a fair share of public patronage, to deserve which, we shall assuredly do all that is in our power.

"A mouth without Teeth is a mouth without charms."

Strength, beauty, and durability are combined in Dr. KNAPP's late improved Incorruptible Teeth.

These teeth never change their color—never decay— nofœter arises from them and therefore do not injure the breath. They can be inserted in such a manner as to elude detection from the most scrutinizing observer, and so as to make the articulation of the voice perfect, and assist very materially in the process of mastication. These teeth have been universally approved of by those who have worn them, as well as numerous gentlemen of the most profound science, both in this country and in Europe.
