Philadelphia 17th October 1792

Sir,

The enclosed is a Copy of the Queries made by the Board of Commissioners on the Accounts of Maryland for Horses & Waggons purchased in 1780 & 1781, together with the answers which have been returned — The Board insist on a speedy compliance with the promise contained in the answer to the first Query — and that every evidence in our power be produced from the persons who conducted the Horses to the Southern Army. — I therefore take the liberty to entreat the honorable Council to take immediate steps for procuring the required information; as the Board grow importunate in their demands. I have the Honor to be Your Excellency's most obedt. hble Servt

C. Richmond
