THE AMERICAN SILK GROWER, AND FARMER'S MAMUAL:

Embellished with Appropriate Engravings;

Edited by

WARD CHENY & BROTHERS,
Burlington, N. J.

And Published by
CHARLES ALEXANDER, Philadelphia.

THE first number of this highly important and valuable work is now ready ror delivery to subscribers,—we beg leave respectfully to call the attention of our citizens to the praiseworthy objects it has in view, and for the promotion of which it has been put in operation.

There has not probably heretofore been a time when the attention of the people of this country was as much engaged on the subject of the Silk culture as at present, nor a time when those who have already embarked in this business felt such entire confidence not only that liberal profits may be derived from it, but also in their ability to produce as good silk as can be procured in any part of the world. It is believed that all that is now wanting to fully establish the great interests in this country, with all its vast advantages, is but the dissemination of plain practical information concerning it! and convince our citizens of what we know to be true, viz: that there is no more difficulty in raisin a crop of silk, than there is in procuring a crop of grain—the capital thus bestowed yields a far greater return than can be obtained from any other branch of husbandry.—The editors have long been engaged in the silk culture, and intend hereafter to give thir entire attention to it—they have an extensive arrangement for feeding the silk worms and cultivating that invaluable species of mulberry tree, the Morus Multicaulis. And from their long experience in the occupation and extensive correspondence with silk growers, they believe they may say without ostentation that they shall be able to make the American Silk Grower, useful and entertaining, and to communicate through its pages information as valuable respecting every branch of the silk business, as can be elsewhere obtained in the United States. A portion of the work will be devoted to noting such improvements of Agriculture and such matters as are generally useful to the cultivators of the soil.

The proprietors respectfully solicit contributions on Agricultural subjects generally; and also the silk growing business in particular. Address the editors Ward Cheny & Brothers, Burlington, N. Jersey.

The work will be published monthly; every number containin 24 large octavo pages, with the addition of a cover for advertisements &c. and at the end of each volume a complete table of contents will be furnished to subscribers. ☞Terms $1, a year, payable in advance, for single subscribers. 20 subscribers will be supplied a whole year by forwarding a current $10 bill free of postage.

All orders for the work, postage paid, will be promptly attended to, if addressed to the publisher Charles Alexander, Athenian buildings Franklin Place, Philadelphia.

Citizens, Silk Growers, Agriculturalists, and others, who wish to procure this work from the present time will please forward their names and the amount of subscription.

MANUFACTURERS OF
LOOKING GLASSES,

NO. 27, North Fifth Street, Philadelphia, back of the Merchant's Hotel—the only establishment devoted exclusively to this business in the city.

Country Merchants are supplied at manufacturer's prices, and their Glasses insured from breakage to any part of the Union, without extra charge.

Those who have orders for large Glasses, would do well to inform us by letter previous to their coming on, of the size of the plate, and the kind of frame they want, (whether of Gilt, Mahogany or Marble,) that the artcle may be manufactured expressly for the occasion.

Merchants should give their orders for Looking Glasses, the first thing on their arrival, to insure them well put up.

Any editor of a weekly paper who will publish this advertisement to the amount of six dollars, at his usual rates, shall be duly paid in Glasses, at manufacturers prices, which of course must be as low as they can be bought in the city—provided he will send on his bill by a merchant who will purchase Glasses with which we can pack and forward them at our sisk of breakage.

Improvements in Dental Surgery.
"A mouth without Teeth is a mouth without charms."

Strength, beauty, and durability are combined in Dr. KNAPP's late improved Incorruptible Teeth.
These teeth never change their color—never decay— nofœter arises from them and therefore do not injure the breath. They can be inserted in such a manner as to elude detection from the most scrutinizing observer, and so as to make the articulation of the voice perfect, and assist very materially in the process of mastication. These teeth have been universally approved of by those who have worn them, as well as numerous gentlemen of the most profound science, both in this country and in Europe.

Among them may be found the names of Proff's R. N. Smith, J. D. Ducatel, J. R. W. Dunbar, and Geo. Gibson M. D of Baltimore.
