meeting him in this nether world, let them garner up his virtues in memory's store house, and often recall to mind the happy hours when he moved among them, buoyant with hope, and health, and cheerfulness.

"Wake, memory, wake! and bring again those hours
Of youth's fresh bud,—those happy childhood days,
The dawn of young existence, when his feet
Roved through these paths."

Though it were vain to hope to do justice to the character of the deceased by the feeble eulogy of an unpractised pen, yet the writer would pay this last sad tribute to departed worth.

"The better day's of life were ours:
The worst can be but mine;
The sun that cheers, the storm that lours,
Shall never more be thine."

*. *. *.

Cambridge, Md.

We are authorized to announce

ALEXANDER DONOHO ESQ.,

as a candidate to represent this District in the next Congress of the United States.

September 7th, 1839. tf

THIS IS TO GIVE NOTICE,

THAT I have appointed Mr. James Mowbray my agent in my absence for collecting monies due me. Those persons who purchased propety at my Vendue, and others who may wish to make payment, are respectfully requested to call on him and settle their accounts.

VENDUE.

LARGE SALE OF STOCK.

THE subscriber will sell at the Farm immediately in the vicinity of the Town of Vienna, on

THURSDAY the 12th inst.,

his entire Stock of HORSES, CATTLE & HOGS;

Farming Utensils, Carts, Waggon, &c. together with a variety of articles too tedious to enumerate here.—The stock of Cattle & Hogs is large containing each between sixty and one hundred head; the number not known to a certainty. It will be well for all those who may wish to buy stock, good farming utensils, &c., to attend this sale, which will be real, as there will be no by-bidding, but every thing offered shall be sold for what it will bring. A credit will be given and further particulars made known on the day of sale.

THOMAS H. HICKS.

September 7th, 1839.

Valuable Property For Sale.

THE following valuable Real Estate is offered at private sale, to wit:

The farm where Solomon Frazier now lives situated near the chateau Meeting house; and two acre LOT at the X Roads, Cambridge,—

The House and Lot occupied by Messrs Cary & Schleigh as a carriage Manufactory,— also a wood Lot near Cambridge containing twenty five & one half acres.

The title to the above property is indisputable.—Persons desirous of purchasing will do well to view the property. For terms &c. apply to

JOHN NEWTON, Cambridge.
or to
Doct. ARTHUR RICH, Balt.

September 7th 1839. tf

CHANCERY SALE.

PURSUANT to authority derived from the Honorable Chancellor of Maryland, I will sell to the highest and best bidder, on

Saturday the 21st day of September,

in the Town of **VIENNA**, between the hours of 11 and 4 o'clock, A. M., the following Real Estate, of which Thomas Norman, late of Dorchester County, died seized and possessed, to wit: That valuable

TAN YARD ESTABLISHMENT,

situate in the Town of Vienna. There is a NEW TWO STORY DWELLING HOUSE,

Kitchen, large bark and Mill house, and Beam house. The number of Vats is not recollected. This property is well enclosed, and with some repairs to the house, vats, &c., may be made to yield a handsome per centum. The stand is considered among the best in this section of country. There is, in addition to the above property,

TWO UNIMPROVED LOTS;

one adjoining the Tan Yard Lot, with a plank fence around it; the other lying between the lots of the late Mrs. Fitchett, and Mary Jones; both of which said lots front upon the street. To an enterprising man, with a moderate capital, this property offers strong inducements.

The terms of sale, as prescribed by the decree, are one fourth cash on the day of sale, the balance in six and twelve months from the day of sale, all secured by bond and security, approved by the Trustee, bearing interest from the day of sale.

H. PAGE, Trustee.

The creditors of the said Solomon Kirwan Jr., are hereby notified to file their claims in the Chancery office at Annapolis within six months from the day of sale, with the proper vouchers thereof, they may otherwise be deprived of all benefit of the proceeds of this sale.

H. PAGE, Trustee.

August 10th, 1839. tds

IMPROVEMENTS.

IN DENTAL SURGERY.

IT has for many years been a great desideratum among European and American Dentists, to manufacture TEETH from incorruptible materials, which should imitate the natural living teeth.

Many have devoted years to unsuccessful experiments, and others have succeeded in manufacturing Teeth of materials similar to the porcelain ware, but generally they have an opaque white appearance, by which they are easily distinguished from the human Teeth.

After long and tedious experiments, the subscriber has succeeded in manufacturing Teeth of materials *entirely incorruptible* and *perfectly in imitation* of human Teeth. They have a semi-transparency, and are made of various sizes and shades.

In cases where absorption of the alveolar process, or other causes may render it necessary, he will cast of the same materials attached to the Teeth, artificial gums, which shall imitate the Gum and supply the loss of substance.

It is entirely impossible for these Teeth to change their color, or cause fœtid breath.

He will insert them from one to entire sets, in such manner that they will make articulation of the voice perfect, and materially assist in mastication, and so that they cannot be distinguished from the most beautiful natural living Teeth by the most scrutinizing observer.

He also performs all the various operations in Dental Surgery, according to the late scientific improvements in the art.

The following testimonials from gentlemen whose respectability needs no encomium, are respectfully submitted to the public.

From N. R. Smith, Professor of Surgery in the University of Maryland.

Baltimore, Oct. 28, 1836.

I have examined specimens of incorruptible Composition Teeth, manufactured by Dr. F. H. Knapp, an ingenious Dentist of this city.

In their form, color, etc., they admirably imitate the natural Teeth. Being completely incorruptible by the agents which affect the Teeth, and also apparently very strong, they must be peculiarly fitted for the purpose for which they are designed.

NATHAN R. SMITH.

From Professor Ducatel.

Having examined some Artificial Teeth prepared by Dr. F. H. Knapp, and learned from him what are the principal ingredients that enter into their composition, and the nature of the materials by which they are colored, I am inclined to think that they will prove, as he represents them to be, incorruptible.—Dr. Knapp having moreover acquired the art of varying the colours of the enamel which covers his Artificial Teeth, is thereby enabled to impart to them a more natural appearance than such Teeth are usually found to possess; a circumstance that will doubtless render them more acceptable to the public.

J. T. DUCATEL, M. D.
Prof. of Chemistry in the University of Md.

From S. K. Jennings, Professor of Materia Medica, Therapeutics, &c. in the Washington Medical College of Maryland.

Having been favored with an inspection of a considerable number of Incorruptible Artificial Teeth, which were manufactured by Dr. F. H Knapp, I cheerfully concur in the opinion expressed in respect to them by Professors N. R. Smith and J. T. Ducatel.

SAML. K. JENNINGS.

He has also received the most flattering testimonials in favor of his improved Teeth from Prof. Thomas P. Jones, author of Conversations on Chemistry; Prof. F May, Prof. H. Lindslay, Prof. J. C. Hall, and Prof. Thomas Sewell, Washington D. C. and very many other gentlemen of the first standing in this country.

He offers these Teeth for sale to Dentists on the most favorable terms. Teeth, Gold Foil, &c. &c. sent per mail when ordered.

F. H. KNAPP, Surgeon Dentist,
N. W. corner Charles and Fayette st. Baltimore.

June 8th 1839. 6m

We are authorised to announce

JOHN DENNIS, ESQ.,

as a Candidate to represent this District in the next Congress of the United States.

August 24th, 1839.

MR. & MRS. DAVIDGE'S,
ACADEMY FOR YOUNG LADIES,

No 11 St. Paul St. between Baltimore and Fayette Streets.

BALTIMORE.

HAVING already announced, through the public papers, their intention to open, on the first Monday in September next, an Academy for the instruction of young Ladies in all the branches that constitute a polite and classical education, Mr. and Mrs. Davidge take this method of stating more fully the system upon which the proposed institution will be conducted.—Long and attentive observation has convinced them that accurate and permanent knowledge can alone be acquired through a well directed exercise of the understanding, and that to present to the youthful mind, words, unaccompanied by well defined ideas, is a useless expenditure of time and attention: they, therefore, propose to adopt such a course as will insure *thorough comprehension on the part of the learner, and cherish a dependence on the reasoning faculties.* With a view to this desirable object, the recitations in this academy will be accompanied by such explanatory practical illustrations as may be necessary, presented in the form best calculated to *enlist the attention and keep alive the interest of the pupils.* In chemistry, natural philosophy, and other departments of science which require elucidation by experiment, recourse will be had to such *apparatus*, as may be requisite.

In connection with their literary and scientific improvement, the most unwearied attention will be paid to the social, moral and religious deportment of scholars, particularly such as may be entered as house pupils, to whom the principals will conceive it their duty to supply, as far as may be practicable, the place of parents and guardians, in administering to their personal comforts, offering to them salutary advice, and watching over their conduct.

The professors and assistants in the institution will be selected with reference to attainment, agreeableness of manner, moral character and attention to duty, without regard to expense.

Independently of the services of the instructer during school hours, a lady, well qualified in point of attainment and refined deportment and a native of France, will be engaged, who will reside with the family, and accompany the young ladies at all times. This person will make it her duty to converse in French with the scholars at meals and during ordinary intercourse and aid them in the preparation of their exercises, by explaining difficulties, &c.

Being fully aware of how much the success of the institution will depend upon their personal attention to its concerns, Mr. Davidge and the members of his family will apply themselves assiduously to the details of the various departments, for the proper administration of which Mr. D. will hold himself responsible.

With the religious observances of the boarders there will be no interference, further than may be necessary to carry into effect the wishes of parents or guardians, and to provide suitable facilities for attendance, on public worship.

It is expected that every boarder will come provided with tea and table spoon, and a silver fork, six table napkins, and six towels. Beddiing will be furnished unless the friends of the young ladies prefer to send their own.

It is deemed unnecessary to particularize the branches of study, as they will be the same as taught in academies conducted on the most liberal plan including the French Italian, Spanish, German, and if required, the Latin and Greek languages. Regular courses of lectures, will be delivered on such subjects as seem to call for that mode of instruction.

Those who may propose to send children to the academy as Boarders will confer a favor by making their intentions known as early as possible, in order that suitable arrangements may be made.

The terms will be as follows:

Board and English instruction, per annum,	$260 00
English tuition per annum,	60 00
Day boarding per annnum,	60 00
French, Italian, Spanish, German, Latin, &c. (lessons daily,) each per annum, payable quarterly,	30 00
Stationery,	4 00
Music, including Harp and Guitar, at professors prices,	
Use of instrument per quarter,	3 00
Drawing and painting per quarter,	10 00
Dancing at professor's prices,	
Washing per quarter,	5 00
Bedding, if furnished per quarter,	3 00
Fuel, two winter quarters,	2 00

It will be observed that the *lessons in the foreign languages are given daily, instead of three times a week*, a course which is regarded as being indispensible to the proper advancement of the pupils.

Boarders will be required to pay half yearly, *in advance.* Day scholars at the end of each quarter.

A careful person will be engaged, who will superintend the laundry, and see that the clothes of the young ladies are kept in proper order.

Mending and mending materials, per annum, six dollars. Attendance in sickness will be an extra charge.

Boarders will not, *on any account*, be permitted to spend the night, abroad except with their parents or guardians.

Books, drawing and painting materials, &c. will be furnished at regular store prices, if required.

Pupils will be charged from the time of entrance, but no deduction will be made for absence, *except in cases of prolonged severe indisposition.*

The academic year will commence on the first Monday in September, and terminate on the third Monday in July in each year.

The building selected for the institution is the spacious Mansion, formerly occupied by Robt. Barry, Esq., in St Paul's street, between Fayette and Baltimore streets, and is in every respect suited to the comfort, health, and convenience of the pupils.

Application may be made at the above named place, or at the *Office of the "American."*

For the convenience of persons living at a distance, who may not be acquainted with Mr. & Mrs. D. the following names are given of gentlemen residing in the city of Baltimore, to whom reference may be had.

Baltimore, July 10, 1839.

PULMONARY CONSUMPTION CAN BE CURED.

THE following letter addressed to Dr. H. H. Higbee, by Mr. Wm. Constable, (a pious member of the Methodist Church,) 315 Callowhill street, will show that Dr. Higbee's Remedy, though it is not and never has been offered as specific, is deservedly rankked among the most extraordinary discoveries of modern times. The testimonials daily received of the astonishing efficacy of this medical compound, are conclusive proofs that Dr. Higbee's system of treatment of Chronic diseases, (discovered as it was, when the inventor was himself, to all appearance, laboring under the most fatal variety of pulmonary consumption,) is founded on correct principles.

Philadelphia, Jan. 15th 1838.

Dr Higbee: Dear sir—I think it a duty incumbent upon me which I owe to you and the world, to make this statement of facts, which I am ready and able to prove. My daughter Eliza 17 years of age, was laboring under a distressing cough, and bleeding of the lungs. We had the advice of physicians, and she was pronounced in the highest stage of consumption and incurable. She had a coutinual pain in her right side, cough from a half to one hour at a time, and discharge more than a pint of corruption per 24 hours, and discharges of large quantities of blood, which the Doctor pronounced to be from the lungs, loss of appetite, could not sleep long by continual coughing, shortness of breath, and discharging from the lungs, My daughter was confined three weeks to her bed, we had to stay by her night and day, expecting eve- minute to be her last. I providentially saw your advertisement in the papers, and the respectable signers to it. I felt a strong inclination to purchase a bottler and in three days after she commenced taking you; medicine, she was able to dress herself and walk down stairs, and her cough left her. It is now about ten months since she began to take your medicine.—She took about five bottles of it; and she is in as good a state of health as she has been for a number of years I have recommended your medicine to several of my acquaintancee; they have all found immediate relief. I refer you to John Greenleaf, between Jarman and Milestown, Mrs. Hart, in Callowhill st. at the Post Office; Mr. Johh Staneclift, keeper of the prison at Cherry Hill. These are persons I recommended your medicine to, and you can can refer any person to them for the particular benefit received from taking your medicine. I live in Callowhill st. 315, near Ninth, where you may refer them to me, and they can have every particular, and see my daughter, or apply to any of the other persons named.

WM. CONSTABLE.

We the undersigned do assert the above statement to be true, for we were eye witnesses to the whole facts.

William Sinkler and Mary Sinkler, Race street, near Tenth.

H. D. Welsh, and Jane M. Welsh, Garden st., between 8th and 9th.

Martha Ostler, and Mary Ostler, No. 361 Callowhill st.

Philadelphia, April 14th, 1838.

Messrs. Editors—I wish through your paper to remove a wrong impression from the minds of many who think the letter I wrote to Dr. H. H. Higbee, is nothing but a ficticisus letter with borrowed names attached to it; for many who have called on me were under the same impression—but when they saw my daughter, they found it was no deception but an astonishing fact, and more so when they saw some of of the other persons referred to in my letter; but in particular, John Greenleaf, a man sixty-two years of age, who was perfectly cured by taking Dr. Higbee's medicine, when he was reduced almost to a skeleton by a violent cough, and discharging of blood from the lungs, in a similar way as my daughter. When I saw the effect the medicine had on my daughter, I strongly recommended it to him, and with difficulty I prevailed on him to try it, for he said he was given up as uncurable by his Physician, and that he had tried almost every kind of medicine before and found no relief from any. I did not know Dr. Higbee, nor had I ever seen him at that time. I have no interest in selling the medicine—I am no agent direct or indirect. I purchased Dr. Higbee's medicine (previeus to his removal to this city) of his agents. Messrs. Stokes and Brown, in Market st. If any persons doubt my statement, they will please call on me, and I will give them satisfaction, fer I have no other motive in view but that the afflicted may find speedy relief. You may depend on these statements to be true, for a I expect to stand before the judgement seat of Christ, to give an account for the deeds of my life, I have made these statements, knowing them to be true. I have not been solicited by Dr. Higbee, or any other person, to make these statements, and I repeat them in order to remove the doubts from every mind. WM. CONSTABLE.

No. 315 Callowhill st. between 8th & 9th.

☞The author of the above letter is well known as an honest and upright man and a sincere Christian, having for many years been a citizen of Philadelphia and an exemplary member of the Methodist Church. It is but an act of justice to Dr. Higbee, to say, that the above statement was unasked for, and that Mr. Constable wrote it because he believed that by so doing he might be the means of saving many valuable lives which under the usual practice would inevitably be lost. Dr. Higbee's medicine, which continues (though not offered as a panacea) to perform the most astonishing cures in Chronic diseases of the lungs, throat, liver, kidneys, &c &c. may be obtained at the residence of the Proprietor, 37 North Fifth st. Philadelphia; at the residence of the Rev. Daniel Higbee. Moorestown N. J.; also, of Stokes and Brown, 295 Market st, and at Joseph Scott's Bookstore, Wilmington, Del. Price $1 per bottle, or $5 per half dozen bottles.

The above may be obtained at the Drug store of
DR. JOSEPH FLINT.

DR. W. EVANS'S

CELEBRATED FEVER AND AGUE PILLS.

THIS widely extended and most admirable Remedy for Fever and Ague, and other Fevers, which has already rendered such benefit, and proved a sure and speedy cure for the above-named disorders, is particularly recommended to public notice.

On first feeling the premonitory symptoms occur, it is advisable at once to clear thoroughly the stomach and bowels. In no way can this be bettsr and less inconveniently effected, than by taking a few doses of

Dr. Evans's Purifying Pills

the value and well-authenticated virtues of which medicine have been, and still are, too apparent to call for further comment. They tend to promote a healthy secretion of the Bile, and render the system capable of receivingwith benefit

The Invigorating & Strengthening PILLS.

DIRECTIONS ARE AS FOLLOWS:

Take four of the Purifying Pills on the first accession of Fever, and continue the same number every other night, till with the additional use of Invigorating Pills, a permanent cure is obtained.

Take three of the Invigorating Pills in the morning, three at noon, and three in the evening, on the days when the attacks do not occur.

☞The attacks usually occur every other day.

Price One Dollar a pack, containing both kinds Pills.

Sold at Dr. EVANS'S Medical Establishment,
100 CHATHAM STREET, N. Y.,
And by his authorized Agents throughout the Union

A REAL BLESSING TO MOTHERS.

Dr. W. Evans's Celebrated Soothing Syrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the children will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores.—Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing Convulsions, Fevers, &c.

For sale at Dr. Evans' Principal Office 100 Chatham street, New York; also by

S. & E. P. LECOMPTE, Cambridge, Md.

ENVIABLE DISTINCTION.

In the midst of a general, and in many instances not unfounded prejudiced against many of the medical remedies of the day, DR W. EVANS' Pills have the enviable distinction of an universal approbation. They are perhaps the only medicine publicly advertised, that has the full and unreserved testimony of medical men in its favor; if not the only one which gives full satisfaction to its purchasers. DR. W. EVANS has the satisfaction of knowing that the Camomile or Tonic Pills are not only regularly recommended and prescribed by the most experienced physicians in their daily practice but also taken by those gentlemen themselves, whenever they feel the symptoms of these diseases in which they know them to be efficacious. He knows this to be generally the case in New York, Philadelphia, Albany, Boston, and other lage cities in which they have an extensive sale. That they should thus conquer professional prejudice and interested opposition, and secure the agency of the most eminent and best informed physicians in the country to render them useful to all classes, can only be fairly ascribed to their undeniable and preeminent virtues.

Enviable, however, as this distinction is, it can easily be accounted for from the intrinsic and peculiar properties of the medicine itself. It does not pretend to too much, and it accomplishes all that it promises Dr. W. Evans does not pretend, for instance, that either his Camomile or Aperient Pills will cure all diseases by merely purifying the blood, but he certainly does pretend, and has the authority of daily proofs for positively asserting that these medicines, taken as recommended, will cure a great majority of the diseases of the Stomach, Lungs and the Liver by which impurity of the blood is occasioned. The blood is made from the contents of the stomach; has its red color and vitally given it by the action of the lungs, and as it performs its duty in circulating through the veins and arteries, has its yelp low billious or excrement, which may be termed itrefuse or worn out sediment, collected and discharge- by theliver. These viscrea, then, are the anatomsical mechanism or apparatus by which the blood is manufactured and preserved; and it is therefore obvious that the state of these should be the first consideration of the physician. Now there are various
