TODAY AND TOMORROW

(Continued from page one)

of 40 years, we would have paid 300 billions in interest and would still have the 300 billion debt on the books.

Whatever plan is worked out, we are going to be paying heavy taxes for many years to come to pay the cost of this war and to pay off the excessive wages which millions of men, working on war orders, are collecting today.

So, even though it only costs us an average of a postage stamp per family for the government to spend a million dollars, it would be a good idea if we all decided to go in for stamp saving in a big way.

SENATOR BENNETT SEEKS AUTO TAX REPEAL

In view of the fact that many tax experts believe that the personal property tax on automobiles is more of a nuisance than a revenue producer, Senator Earl Bennett has announced that he will introduce a State-wide bill in the Senate to repeal that form of tax on automobiles.

In the city of Baltimore and other parts of the State, automobiles are taxed at the same rate as real estate (last year, in Baltimore, at the rate of $2.79 on each $100 of the appraised value of the vehicle) and registration tags may not be obtained until this tax is paid.

The tax was criticized as unfair and discriminatory by the Maryland Tax Revision Commission two years ago, and again last month by the commission on the revision of the State motor vehicle laws.

Senator Bennett said: "In our county, the experience has been that the cost of collecting this tax is almost as great as the amount of revenue obtained, to say nothing of the confusion and inconvenience caused automobile owners. Testimony from other sections of the State is the same.

"I can see no justification for retaining a tax which is unimportant to the public treasury and is a source of aggravation to the public generally.

"For this reason, I have asked the Department of Legislative Reference to put into proper bill form, for introduction in the Senate, a proposal that the tax be abolished.

WANTED

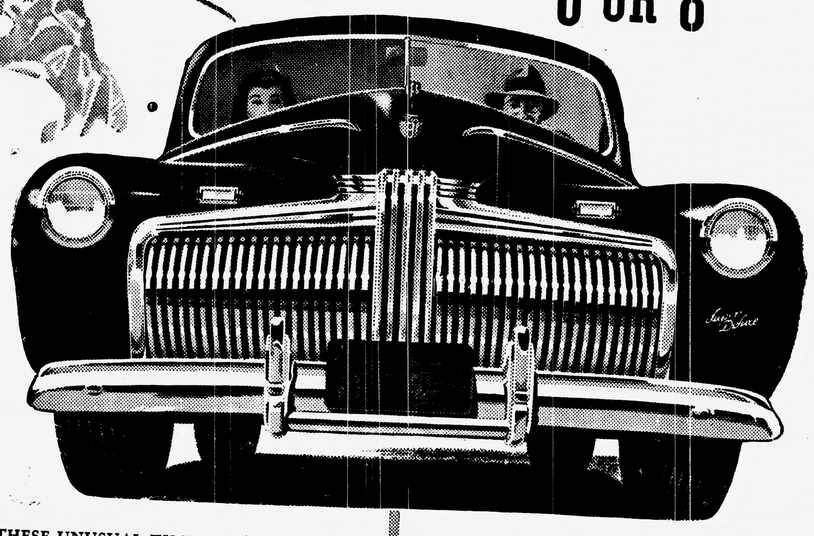
FORD
"6" OR "8"



IN THESE UNUSUAL TIMES we invite you to inspect an unusual new car—new in its beauty, its comfort, its choice of two fine 90 horsepower engines, 6 cylinders or 8.

See it and you sense at once that here is new style that will *stay* good for years. On a lower, wider chassis, we have designed new long, low, wide and modern lines.

Interior treatment is entirely fresh, distinctive, pleasing. The beauty of this Ford will more than hold its own in any company.

Inside, the car is *big*—wide across the seats, generous in knee-room, leg-room, elbow-room.

On the road this year you find the "new Ford ride" still further advanced in its softness, quietness, steadiness and all-round comfort.

At the wheel, you will find driving easier than ever. Steering, gear-shifting, action of the big and sure hydraulic brakes have all been made smoother and easier.

In quality, the car is sound to the last detail. Defense requirements have all been met without a single reduction in the basic and lasting goodness of the Ford mechanically. Some new materials have replaced old ones, usually at a greater cost to us, *but in every case the new is equal to or better than the old.*

If your family needs a new car, go see and drive this Ford. *For what it is today and for what it will be through the years ahead, we believe that you will find in it more and better transportation for your money than you have ever found before.*

Ford NOW ON DISPLAY

In offices, factories, shipyards and workshops, the pause that refreshes with ice-cold Coca-Cola is a pleasant moment on the sunny side of things. This welcome drink is the way to turn to refreshment without turning from work. When you work refreshed, you do more work and better work.
