## IMPORTANT FROM MEXICO

*The Mexican Congress—Levy of Fifteen Millions on the Churches—Santa Anna reported to have been shot!*

We received a slip last night, from the New Orleans Picayune, dated the 2d inst., containing the following highly important intelligence. The report that Santa has been shot, we consider as wanting confirmation.

We have just received news from Anton Lizardo up to the 20th ult.

One of the letters states that Congress, on the 9th ult., after a stormy session, approved the first section of a bill anthorizing the Government of Mexico to raise $15,000,000 by the hypothecation or sale of certain goods of the church. Santa Anna opposed this, and it is rumored that his opposition so exasperated his soldiers that they had shot him! Our correspondent says that this report requires confirmation, but there are many circumstances which still render it not impossible such has been the fate of Santa Anna—The army was in great distress.

The passage of the above law has certainly created the greatest excitement in Mexico. The churches are closed, and every indication of mourning and resistance has been evinced by those who support the religious establishments.

The Mexican congress, and Mexican press everywhere, appear to be thoroughly aroused. The issue they make is "*Sor o no ser*"—to be or not to be.

Mr. Rogers was still in confinement at Vera Cruz, but was well treated.

# PROSPECTUS

OF THE

## AMERICAN JOURNAL OF EDUCATION.

We propose to publish a *Monthly* Periodical, to be called the AMERICAN JOURNAL OF EDUCAGION. As its name implies, it will be devoted to the general subject of Education, embracing every grade of instruction, from the Primary School to the University. Many of the ablest writers, and most accomplished educators of our country, are already pledged as contributors to this work. It is expected also that numerous friends to the interest of literature and science, whose acquirements qualify them for the task, and whose benevolence makes them desirous of diffusing knowledge among men, will become occasional writers for the American Journal of Education. It is intended that it shall be a Repository of whatever is most useful to the teacher, in his heaven born purpose of developing the minds of youth; that it shall be a Magazine from which stores of useful knowledge may be drawn pertaining to a rational and christian education.

Several of the States are supplied with Newspapers or other Periodicals, that are devoted to the preliminary interests of our general subject, such as School Laws, Superintendents' Reports, Teachers' Institutes, County and other Conventions, but it is believed there is no Monthly of the kind here proposed. Formerly, the Quarterly Journal of Education published in London, and the Annals of Education published in Boston, were eminently useful, and afforded a fund of valuable information for the Teachers of the two countries. But these have long since been discontinued, and it is hoped that the present publication may in some measure supply their place. It will be partly original and partly selected; will scrupulously avoid all unprofitable controversies, and irrevalent topics; and will contain occasional embellishments, diagrams and illustrations, as the subjects may require. It will be edited by JOSEPH MCKEEN, A. M. President of the Association of Teachers of the State of New York, to whom was confided the Chairmanship of the Committee on subject of an Educational Periodical, at the annual meeting of that Association in August last.

**Terms:**

The Journal will be published in a large octavo form of 64 pages, handsomely printed on good paper, and furnished to subscribers at the price of $2 a year, or three copies mailed to one address $5, ten copies $15, in advance.

☞Teachers are respectfully invited to become agents for the work.

Competent agents wanted to circulate the work, to whom a very liberal discount will be made.

## "SUGAR COATED" PILLS,

BEWARE! CAUTION!!

The increasing popularity of Dr. G. Benj Smith's improved Indian Vegetable Sugar Coated Pills, has induced a number of persons to make something they call pills, and coat them with sugar, in order to sell them for the genuine, while they do no possess a particle of the goodness, nor even assimilate in appearance the original. Dr. Smith's Pills. In short, they are an intended fraud upon the community. A minister who at first had an interest in an imitation Sugar Coated Pill, manufactured at Albany, N. Y. has given them up, as he says, on account of the miserable dishonest parties concerned in manfacturing them. The same party are now industriously circulating reports calculated to injure Dr. Smith and to effect the reputation of his valuable pills; but rather than notice them in public, Dr. Smith is about to institute legal proceedings against them for their slanders, as he has in another case against a similar party, in which he recovered a large amount of damages. These miserable imitators have to resort to the most abominable means to palm off their counterfeit pills as the public know that Dr. Smith's are the original and genuine. Several instances have come to public notice in which life has been endangered by the unfortunate use of the counterfeits.

REMARKABLE CURE OF COLD,

New York, March 2, 1846.

I very imprudently went out last week with a pair of shoes on, having sent my boots to the boot-maker for repair, and I took a very severe cold, which settled in my limbs, stiffened my neck, and rendered me wholly incapable of attending to business. On the following night I took six of Dr. Smith's Indian Vegetable Sugar Coated Pills, which entirely relieved me, and the next day I felt as well as usual.

I know they are the best medicine that can be used for colds.

JOHN ADAM,
No. 40, 5th Street.

COMPLICATED DISEASE CURED.

[From the Rev John Kellett.]

Brooklyn, 127 Myrtle St. Oct 1, 1846.

Dr. Smith—Sir, It is with great satisfaction I acknowledge the benefit my wife has received from the use of a few boxes of your pills which she used at the recommendation of a friend. Having fallen into bad health early in winter, she used them with perfect safety, even in that cold season. She has at times used Morrison's Moffat's and others, but says she has received more benefit from them than all the others. She believes they may be used with perfect safety by females, without changing either their employment or diet, and that at any season of the year.

Yours respectfully, JOHN KELLETT,
Wesleyan Methodist Minister.
To Dr. Smith, 179 Greenwich street; New York.

DYSPEPSIA CURED

Portsmouth, N H Feb 28. 1846

Dear Dr Smith—I have been afflicted for the last five years with dyspepsia, unable most of the time to attend to my business. I have tried every thing that was recommended, but without any good effects. By chance I saw a notice of your pills in the N H Gazette, and determined once more to try something that might restore my health, and to my unspeakable joy I found that they had the desired effect; and feeling it a duty I owe my friends and the community at large, I make these statements. If you think it worth while to publish the above, it is at your disposal.

Yours very respectfully,

WM. O. CHOATE,

AGUE FEVER CURED.

Mr G B Remson, (Grocer, Middle Village, L I) says he sold Dr Smith's Indian Vegetable Sugar Coated Pills to two persons there for the fever and ague, and a permanent cure was, in both cases, speedily effected. For headache, colds, fevers, dyspepsia low spirits, &c, there is not their equal to be found in the whole range of pharmacy. Be careful of imitations, base counterfeits, and mind that the written signature of G Benj Smith is on the label of each box, otherwise spurious pills will be palmed on you

BAD COUGH CURED:

New York, May 25, 1846

I have been afflicted with a bad cough, so that I raised blood, and at times was under the necessity of neglecting my business. Last fall I commenced using Dr Smith's Pills, and have now used three boxes, which have entirely cured my cough I have taken no other medicine
