TERRIBLE DISCLOSURES!

SECRETS FOR THE MILLION

A Most Wonderful and Invaluable Publication.

DR. HUNTER'S

MEDICAL MANUAL,

Being an Original and Popular Treatise on

MAN AND WOMAN;

Thoroughly Physiological, Functional and Sexual Disorders of every kind, with never failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the Laws of Nature and of Nature's God.

PRICE TWENTY-FIVE CENTS.

THE Author of the above volume is a graduate of one of the first medical schools in the United States and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a specialty, he has become possessed of most valuable information in regard to the same, and is able to compress into a vade mecum compass the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousand of cases in the City of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is literally unbounded, but at the earnest solicitation of numerous persons he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that should be in the hands of every family in the land, whether used as a preventive of secret vices, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind for the sins of sensuality and impurity of every kind.

It is a volume that has achieved the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philanthropists and humanitarians, have thus found means of reconciliation in all quarters, public and individual, otherwise well-nigh lost to society and to the nation.

The author argues faithfully, most strongly against every species of self-delusions, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences consequent of their ignorance of physiological laws and sexual impurities and irregularities, whether exhibited by premature development or arising from the vicious and corrupting examples of their school-mates or companions. To those who have been already ensnared in the "pathway that leads hell," a clear and explicit way is shown by which they may secure a return of mental health, and regeneration of the soul from a terrible pollution.

It is well-known that thousands of victims are annually sacrificed at the Shrine of Quackery—especially those who are suffering from Venereal or Syphilitic diseases which spring directly or less remotely from the indulgence of carnal passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Consumption, a large majority being the victims of the foregoing indiscretion of their youthful days, apprehensive for the temporal extinction, that the sins of the parents are visited upon the children, even to the third and fourth generation—The author, induced with sentiments of enlarged philanthropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual.

One copy, securely enveloped, will be forwarded free of postage to any part of the United States for 25 cents, or 6 copies for $1. Address, post paid, COX DUNN & CO., Publishers, box 197, Philadelphia.
