HAITIAN VISITOR IS LOST IN NEW YORK

Wanders Around in Taxi For Several Hours Because Driver Can't Speak French

Brooklyn, N. Y., Dec. 5.—A pretty brown skinned girl, who could not speak a word of English, just off the ship from Haiti, was lost in Brooklyn, Tuesday and suffered several hours of humiliation before some one suggested that the taxi driver, who had been hauling her around, take her to the colored girls branch of the Y. W. C. A. in Ashland Place.

The young woman arrived in this country on the S. S. Hollandaise and came ashore at Pier 12 in Brooklyn. She got into a taxi, handing the driver a card bearing the address of her sister in Grand street, but when the taxi arrived at the Grand street address with the little stranger he discovered to his surprise that the house had been destroyed by fire, and that the young lady could speak only French, of which he understood not a syllable.

The driver was at a loss as just what to do. He did not wish to be unkind to the girl in distress, and he was not familiar with social conditions among colored people so he stopped his car in front of the Long Island Railway station and waited with the weeping girl inside while he pitied her pitiful plight.

When the young woman finally arrived at the Ashland Y. W. C. A. the Christian ladies there at once brought relief to the unhappy miss by tracing the families that had moved out from the house that had been burned, thereby locating the Haitian girl's relatives. When the sisters were reunited in the building of the association the story was told in French which being interpretated is the foregoing narration of the girl who sailed from Port au Prince for America.

New York City, Dec. 4.—Automobile sportsmen of this city and vicinity again enjoyed an afternoon of thrills and pleasure at the dirt automobile race track at Hohokus, N. J., Thanksgiving Day.

William Carson, the world champion was absent, but Bill Blackman, the Burgess brothers, Ernest Hobbs, B. O'Field and other colored racers entered the contests. One five miles and two ten miles races were the events which started at 2 o'clock with a motor cycle race by white racers from the Patterson Motorcycle Club.

There was no grand stand for the comfort of the fans, nevertheless they all seemed to enjoy themselves and many of them spoke of future prospects to bigger races next Spring on Decoration Day or July 4.

The crowd was about equally divided between group and other races of people, quite a number of women being among them.

GARVEY LOSES $7,500 SUIT

New York City, Dec. 4.—Marcus Garvey lost his case in Part 3 of the Superior Court here last week when E. L. Gaines was given a judgment of $7,500 for unpaid salaries for which he sued the Garvey interests in the U. N. I. A. The case was in court several months and Mr. Garvey acted as his own counsellor for the defense.

Captain Gaines was a "Minister" or something in the Legion of the "Back to Africa Movement" and served for four years at the lowest salary of any of the many officials of the association. Mr. Gaines is reputed to be one of the wealthiest men of the race, and was serving in the capacity of an official of the U. N. I. A., more for the good of that he believed he could do the race than for his own personal gain.

He brought out the fact in court that he had travelled extensively for the association and in many instances when he visited branches of the association he found them too poor to defray his traveling expenses and was often forced to pay his board, lodging, railroad fare and other expenses out of his own pocket.

He further testified to the effect that when his bill against the U. N. I. A. exceeded $9,000 he tried to collect but instead of Mr. Garvey paying what he owed he instead tried to borrow from him in the form of loaning a part of his back pay to the association for five years.

Garvey, as an inducement, promised to supply Gaines with brass bands and everything for his legion. The proposition was not sufficiently appealing to Gaines so he declined, resigned and later filed suit for the recovery of some of his money.

JUDGE GEORGE IS INSTALLED AT CHICAGO

Chicago, Ill., Dec. 1.—(By Airplane)—Today was a history making day for the colored citizens of Chicago by the installation of Hon. Albert Bailey George as a Municipal Court Judge of Chicago. Prominent men and women of both races took part in the ceremony that crowned the efforts of the colored voters of Chicago to make one of their race a judge.

Chief Justice Olson and associate judges of the Municipal Court were here to witness and take part in the ceremonies that brought to realization the hopes of the colored constituency of Chicago.

After the ceremony eminent jurists and lawyers of both races vied with one another congratulating Judge George as a lawyer and judge and complimented him for being the kind of man that makes a good judge.

Chief Justice Olson said, that from a legal point of view, that Mr. George was pre-eminently qualified to ably preside over any branch of the Municipal Court in Chicago, and that he was going to start him in conducting jury trials, and that it would be some time before Judge George would grace the Municipal Court bench at 48th street police station. The ceremony was held in room 1109 City Hall where Mr. George will hold court.

Fraternal and civic organizations of the city vied with each other with bouquets presented to Judge George with complimentary remarks with best wishes for success. Citizens from all walks of life visited room 1109 to see and shake hands with the first colored judge of Chicago, and express themselves as well pleased over the making of one of our group a judge.

Judge George was too overcome with emotion to make a speech after his introduction because of the many fitting remarks made regarding his fitness as judge. The ceremonies lasted two and one-half hours and concluded by Judge George shaking hands with as many as possible.

The six newly elected Municipal Court judges were guests of honor at a banquet tendered by States Attorney Robert E. Crowe to the employes of the states attorney's office in the Morrison Hotel last night. Among those at the speakers' table was Judge George.

KERSEY PETITION FILED THIS WEEK

Chicago—Hon. George T. Kersey's friends, politically and otherwise, fully convinced that he was duly elected to the legislature November 4th, but has been counted out by his political foes for their failure to give Mr. Kersey votes cast for him, have filed a petition with the Committee of Elections to the House of Representatives at Springfield, praying for a recount of votes of the third senatorial district.

The petition set forth that George T. Kersey was duly elected to the general assembly November 4th but has been fraudently defeated by unfriendly election clerks and judges failure to credit him with votes cast for him. It is claimed that in certain precincts where seventy straight republican votes were cast, Mr. Kersey did not receive a vote, notwithstanding he being the regular republican candidate.

Mr. Kersey has plenty of friends of both races, who do not hide their feelings and belief over his defeat. Rumors are flying thick and fast over his defeat and was brought to climax when matters shaped themselves into the form of a petition asking for a recount cast in the third senatorial district.

Some of Mr. Kersey's friends are more vehement in their denounciation of his enemies than others and want him to fight the matter to its bitter end. It is safe to say that there will be friendship lost over the defeat of Mr. Kersey, as some are saying that he was robbed of his election and declaring vengeance on the one certain political leaders.

MEN and WOMEN are making from $30.00 to $100.00 per week with an investment of $3.00. Write at once for particulars.

EMPLOYMENT

By George W. Griffin

The labor condition for this week is on the decline in general. Owing to the fact that "Thanksgiving Day" cut into us, caused a great decrease in jobs. Of course, several firms practically abandoned business for the remaining part of the week together with the losing of the one day (Thursday) probably account for the falling off of business.

This week our placements were men, 143 Women, 44. The previous week they were Men, 199, Women, 69. This office lost as follows men 46, women 16.

A few days ago, we had a call for a male stenographer, one who can do court reporting, the job pays $400 per month. We landed that young man this week, and he is making good. One of our solicitors, Mr. Kennedy, discovered this young man in the fourth ward. We are proud that there is such talent in Chicago among the colored people. There are many good men and women out of jobs. There are yet many more people idle than there are jobs to be filled. Many anxious people are now seeking positions.

I again advise those seeking positions to be forever potient and diligent in your search, and don't wait for an opportunity to present itself, take advantage of even a half opportunity and make good when you can land a job. Just to illustrate: last summer or sprnig, a young man came into the office and told me his story. He was attending a school in Texas and about to finish his course there. The young man's name is Leroy Ingram. I got this young man a job with a hotel man who is wealthy, that young man made good, the employer soon gained his confidence and raised his salary, paid his tuition in school, his fare to Texas and gave him an order to Marshall Field Co., for three suits of clothes and offered to send him a ticket to Chicago, when he finished school next spring. Now this young man's conduct, while filling this position was such as to cause the employer to interest himself in this young man and he gave him a chance.
