N. A. A. C. P. URGES STATES ATTY. TO PUNISH KIDNAPPERS

PUNISHMENT URGED FOR KIDNAPPERS

Local Branch N. A. A. C. P. Writes State's Attorney and Police

O'CONNOR REPLIES

Cites Attitude Of His Office In Prosecuting All Criminals

Urging that the two white men captured after kidnapping 13-year-old Lottie Maddox be brought to the bar of justice, the local Branch of the N. A. A. C. P., through Secretary Charles Pinderhughes, has written letters to State's Attorney Herbert O'Connor and the Captain of the Southwest Police Station.

That the State attorney will give the matter the most serious attention is indicated from a statement made by Mr. O'Conner to this paper recently, when attention to the manner in which his office had brought about the conviction and long sentence of a white man accused of killing a member of the race which ended in the Criminal Court last week.

Calling attention to this case, Mr. O'Conner stated that his office had adhered rigidly to a straight course of justice with regards to all criminals, white or colored.

The letters from the N. A. A. C. P. follows:

Six Pt. indent Follows:

To the Captain of Police,
Southwestern District,
Baltimore, Md.

Sir: On Monday, April 13, two white men were captured in the act of kidnapping, with intent to criminally assault, Lottie Maddox, a 13 year old colored girl. It seems that there were several witnesses to the kidnapping.

I have written to Attorney Herbert O'Connor urging that his office handle the matter with the greatest diligence in bringing these two criminals to their punishment. I am asking that you will give his office the benefit of every bit of help possible in gathering evidence in this case.

We feel that while the utmost diligence is used in punishing a Negro criminal, too little is done to make life and property safe for us. We are hoping, therefore, that your attitude in this case may prove to us that the sword of Justice does indeed strike blindly where-ever punishment is deserved.

Sincerely,
C. L. PINDERHUGHES.

Mr. Herbert O'Connor,
Court House,
Baltimore, Md.

My dear Mr. O'Connor:

On Monday, April 13, two white men were captured in the act of kidnapping, with intent to criminally assault, Lottie Maddox, a 13 year old colored girl. It seems that there were several witnesses to the kidnapping.

I am writing you at this time to urge that everything possible be done to bring just punishment upon these men. Our people are very much incensed about the affair and desire that immediate steps be taken.

We have noted in the past that there is no delay in punishing a Negro severely for the same offense. We do not object to this where a fair trial is given, but we do insist that Justice demands the same treatment for the same offense regardless of the color of the person by whom or against whom the offense was committed. It is not fair to give one group of citizens greater protection than is given to other groups.

The manner in which this case is handled may have a far greater effect upon the community than either you or I can forsee. I am writing the Captain of the Southwest District, urging him to lend every assistance in getting to the bottom of this affair.

May we look forward to a proper ending of the case that our people may know that Justice still lives in Maryland.

Sincerely,
C. L. PINDERHUGHES.

Business and Industry

A Weekly Review Of Labor and Business
Conducted by William N. Jones

600—William L. Fitzgerald—$1,250,000

Monuments are NOT built to men who never had any difficulties to overcome. Neither are bouquets thrown at those who accomplish only the ordinary. It is not a coincidence that our leaders in every walk of life are persons of courage and decision—the "doers" and the "go-getters."

The average man is, after all, a person of small attainments. Roger Babson showed by statistics that the average life of a grocery store in a large city is only 7 months—and that 50% of all the firms of this country fail in business over a period of 20 years.

It is the more remarkable, in the light of such facts, to note that this spring marks the passing of the twentieth year in the life of the Real Estate business of one of our citizens, William L. Fitzgerald. The fact is noteworthy, and one that fills us with a certain pride in our own race.

Beginning in a small way, the business met with the usual discouraging bumps and set-backs; by sheer grit and hard work, seconded by a resilient and cheerful spirit that was not to be denied, the founder saw his efforts blossom into an organization that today has charge of over 600 houses representing the impressive total of some million and a quarter dollars! And it is still going strong.

The AFRO-AMERICAN feels that the creator of such a lusty near-adult as this 20-year old business concern, deserves the heartiest congratulations. May he and his work live another twenty years—and another!

WEEKLY SURVEY OF BALTIMORE

The week opens locally much improved for wage earners. The Municipal Employment Bureau reports that employment for laborers is on the continual increase and that within a few weeks it will possible for most of the men now unemployed to get work.

Added to this good news the produce market, which governs to a large extent the wage purchasing power, is easing some. In the market such vegetables as lettuce, cabbages, new white potatoes and even asparagus and beans have taken a drop. The housewife will find chickens graded from 25 cents to 32 cents per pound.

Sonsiderable activity is seen in some business lines here also. The Liberty Life Insurance Company announces the opening of an agency here under a district manager. The Southern Life Insurance Company, which has been taken over by an energetic group of successful business men headed by Willard W. Allen, announces that plans are being made to make this company one of the biggest in this section and to extend its field of operation.

Minnesota Offers Real Advantages

Minnesota, rightly termed the "bread-and-butter" State, says the Northwestern Bulletin, April issue, thousands of acres of cheap, tillable land with good soil, which should attract the agriculturist of the race.

It may mean only a matter of orientation by a change from raising cotton to raising wheat as far as labor goes; but it means a world of difference in the way of enjoyment of citizenship with all of its benefits. Here we have in rural districts one of the finest systems of consolidated schools in America. Both races attend these schools in harmony and without injury to either.

The University of Minnesota is one of the world's best institutions of learning. The colored students receive the same consideration as the white. Both drink from the fountain of knowledge back of which stands the sovereignty of the great North Star State.

Western Field

(National Economic Survey, for The Associated Negro Press)

Chicago business is showing but slight improvements all along the line and hence there is little change in Northern labor demands. In all the large cities the building season is opening and there is a demand for skilled men in the building trades. There is no demand for common labor in this line, however, for the reason that there are plenty of men who are not yet working.

The steel business is not improving and not likely to do so during the spring and early summer. Buying is about the average and none of the mills are running capacity.

Packing houses are running short time throughout Chicago and in other packing centers.

The same advice given still holds. Don't come North until you know there is work. This also applies to men in the North who are seeking other locations. Conditions are about as slow in one section as in the other and it is best to wait and make sure.

An enterprising colored business man in Galveston, Texas, is engaged on a large scale, in the manufacture of screen doors and windows.

GARVEY STEAMER MAY SOON SAIL FOR HOME PORT

By Charles D. Fallin

Colon, Panama.—The Steamship Booker T. Washington, formerly the General George W. Goethals of the Panama Railroad Steamship Line, which was purchased recently by the Black Cross Navigation and Trading Co., of New York and which has been held up in Cristobal harbor due to a libel action for alleged wages due, is expected to sail for New York via Kingston, with the next few days.

This steamer arrived in Cristobal March 26th from New York by way of the West Indies and upon arrival here the crew and the captain had a misunderstanding which resulted in several members of the crew leaving the ship, all alleged claims being settled except engineer Knudson's and he through his Attorney W. C. Todd, had the steamer libeled for wages due.

But Mr. Carter, secretary of the Black Cross Navigation and Trading Co., whose office is at 56 West 135 Street, New York City, stated here that he had received cable advice that sufficient money is being cabled to him from the New York office to settle all claims against this steamer and expects to have her sail for New York via Kingston within the next few days.

It is also rumored that Mr. Carter has made a tentative arrangement to go into the banana business here on a large scale.

Winter Season

This is the winter season. It rains incessantly but the temperature varies between 75 and 84 degrees.

Rubber May Enrich Florida Negroes

Jacksonville, Fla.—It is encouraging news to nearly 13,000 Florida colored farmers, 6,320 of whom own approximately 400,000 acres of land valued at more than nine million dollars, that the large northern tire manufacturers who have invested heavily in rubber plantations in this state expect to secure their first output within the next five years. These farmers are now carefully considering the future possibilities of that industry, in this state and do not intend to sell their holdings at a sacrifice. The move to grow rubber here is due to the 50 per cent reduction of that production in the Far East.

Industrial Briefs

Colored mail carriers number 3,663, of whom 24 are females.

There are 367 colored owners of flour and grist mills in the U. S.

Investigation shows that divorces are scarce when couples own homes.

American industry leads the world in protecting the health of its workers.

Sixty per cent of the colored women of Jacksonville, Fla., are bread-winners.

We have 297 males who are employed as ladies' valets, and they probably earn their salaries.

There are eleven colored male and five female ticket and station agents for steam railway companies.

Come on Old Pay—Brace up and Smile,
Don't keep on saying—"Life isn't worth while"—
Just think of the folks who are worse off than you—
Why, there's lots and lots of people, feeling awful blue.
This big world of ours is round like a ball,
And there's plenty of money in it for us all.
So come on, Old Pal—Brace up and Smile—
Advertise in "Hi-Power"
Buy second hand clothing and it will sure be worth while.

A greatly feel the need of a Negro to represent our group in the U. S. Congress. Will you kindy inform me what the votes was for each candidate in the two districts represented by Mr. S. A. T. Watkins of Chicago and Dr. C. H. Roberts of New York?

Did these two candidates get the full support of the colored vote? If they were given the entire colored vote, would they have been elected?

No New Library Building for Morgan yet, says President Spencer.

To the Editor:

I note in your issue of last week a statement to the effect that within a few months we shall begin the erection of a new library building. I wish this were true, for we greatly need one.

The simple fact is we do not know when we shall be able to begin a building of any kind. Certainly not until the pledges made on on recent Crusade are realized. We rejoice in the gift of $10,000 form the Carnegie Corporation for the improvement of library facilities.

Kindly make the above correction.

J. O. SPENCER,
Pres. Morgan College.

Here's another Apostle of John Jasper, who says the Earth is square and the Sun moves.

To the Editor:

Just a few lines to inform you on teaching the Bible. The sun does move and the earth stands still.

Read, the earth has four corners, Rev. 7:1, also Joshua 10:12, 13, John 8:31, 32.

A man that teaches the Bible is a good man, Psalms 3:7-23, "to overcome some things that have been taught us." Rev. 3:12, "We will be a pillar in the temple."

Now the truth will stand no matter what is said. God says it has four corners. He made the world and there was no man in it to say anything at that time.

Elder JAMES E. HALL,

This War Veteran asks for All and Someone to write him.

To the Editor:

While alone today, Easter Sunday, I am writing to you. I was honorably discharged in France and was in several battles. Was in the Argonne on the 11th day of November, 1918 when the last gun was fired.

I have thirty years in prison and have put up over four years. I am trying to get money to get a lawyer to have my time cut, and I am going to ask you will you help me raise the money. You can get in touch with the ex-soldier boys by putting this in the AFRO and some of my camrades will read this message and help me out. I don't think my camrades will turn me down, and I would like to hear from some lady that would like to write to an ex-soldier, or some of the Red Cross nurses that were in the war. I am always glad to get a letter from some one that sympathizes with an ex-soldier.

My mother is close to 70 years old and on that account I am compelled to ask for help.

Mr. Geo. W. Lee told me to write to you, he lives in Memphis, Tenn. He is going to help me.

Today is Sunday and the sun is shining in my cell. I am just wondering what the outside world thinks of the ex-soldiers who risked their lives that other might live. I know someone will think of me and write me a word of cheer.

Your paper is allright. I keeps me in touch with the outside world and in touch with my race. If it wasn't for it, I would spend many lonely days. But I have a radio in my cell, and it is fine to pass the time away. I get your home town some times.

Just two years ago you were laid to rest
And your cold hands weer folded upon your breast,
In silence you suffered, in patience you bore,

Bearing sweetly all his sufferings,
'Till his Saviour called him home.
