POETRY.

THE STREAM OF LIFE.

The stream of life is rolling on
A down time's transient vale,
And lo! we the half of it is gone,
The fountain source will fail.

The stream of life, ah! let it glide
Away to some far strand;
And swiftly too, that we may hide
From this deceptious land.

The stream of life, there's none will tell
To whate'er clime of dearth
That it may float, e'en down to hell,
But what 'tis good as earth.

The stream of life will soon be done,
And all will be forgiven,
But righteousness, there liveth none
Save what is found in heaven.

Woodbine, Md. PUDENS.

MISCELLANEOUS.

Sharp.

Muggins has a sharp porter. This chap returned from the post office the other day with Muggin's papers, and informed that individual that there was a letter in the post office that he couldn't get.

"Couldn't get it; why couldn't you get it, you stupid?"

"There's five cents to pay on it."

"Why didn't you pay for it?" asked Muggins with indignation.

"I hadn't *cents* enough!" replied the urchin, grinning archly.

"You fool!" said Muggins, storming, "here, take this five cents and get that letter in little less than no time!"

"No use, I tell you, replied the fellow, they won't let me have it."

"The dickens they wont—I'd like to know the reason?"

"Because," replied the fellow, looking back to see that the door was open, "*because the letter wasn't for you.*"

The chap retreated from the room suddenly, while an ink-stand followed his noggin, at a speed of about 54 40.

Cutting up Beef.

A correspondent writes:—While sitting at the Junction on Saturday, a passenger was describing the way the beef flew when they ran into a cow that morning. "The engine cut her in two and scattered the beef for a quarter of a mile, along the track; some pieces being cut out as nice as a butcher could do it; others were completely chawed up, bones and all," he said.

"That's nothing," said an engineer on the D. L. & W. Railroad, who was present.

"I ran into a two year old bull last spring, and threw him thirty feet high and four hundred feet from the track, and when he landed it was on his back, his four legs sticking up in the air as straight as a fence post."

"Did it kill him?" innocently asked the passenger, who had witnessed the cow catastrophe.

"Well, next day when I came along he was lying there still, in the same position, precisely; reckon it did, stranger."

☞An Irishman out West, conceiving that a little powder thrown upon some green wood would facilitate its burning, directed a small stream from a keg upon the smoking pile; but not possessing a hand sufficiently quick to cut this off at the desirable moment, was blown into a million pieces. The coroner for the occasion reasoned out this verdict:

"It can't be called suicide, bekase he didn't mean to kill himself; it wasn't a visitation of God, bekase he wan't struck by lightnin'; he didn't die for want of breath, for he hadn't anything left to breathe with; it's plain he didn't know what he was about; so I shall bring in, *died for want of common sense!*"

One of Daniel Webster's Best.

The late Kendall O. Peabody, of Franklin, was accustomed to tell the following, which we have never seen in print:—

Mr. Webster and Henry Clay were standing on the steps of one of the hotels in Washington, and Mr. Peabody was close by and heard what was said. A drove of Jackasses was passing by, and Mr. Clay thought it a good opportunity to get a joke upon Mr. Webster. He patted him upon the shoulder, pointed to the long-eared donkeys and said:

"Mr. Webster, there are some of your Northern constituents."

"Yes," replied the great statesman, "going South to teach school."

☞In what two cases are precisely the same means used for directly opposite purposes? Why, bars, to be sure.—They are put on bank windows to keep thieves out, and on jail windows to keep them in. Some banks we have known should have bad bars both inside and out.

☞The following is taken from the report of the proceedings of the Connecticut Legislature: "Bill to tax geese and bachelors taken up Mr. Harrison was opposed to the provision taxing bachelors. There was a tax already laid upon a goose, and any man who had lived twenty-five years without being married, could be taxed under that section. The bill was postponed.

☞We have heard a woman of the world say, "The state of widowhood is inconvenient, for one must assume all the modesty of a young girl, without being able to feign her ignorance."

☞It is said that a girl in England was struck dumb by the firing of a cannon. Since then a number of married men invited the artillery to come and discharge their pieces on their premises.

☞The mischievous winking of a beautiful coquette from under a smart hood is a pleasent kind of hood-winking.

☞Why is the sun like people of fashion. Because it turns night into day.

MOFFAT'S
Life Pills and Phœnix Bitters.

THESE Medicines have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind. Flatulency, Loss of Appetite, Heartburn, Headache, Restlessness, Ill Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also WORMS, by disindging from the turnings of bowels the slimy matter to which these creatures adhere.

ASTHMA and CONSUMPTION, by relieving the air vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces those dreadful diseases.

SCURVY, ULCERS, and INVETERATE SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

SCORBUTIC ERUPTIONS and BAD COMPLEXIONS, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two even in the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint, for upwards of THIRTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, and after his recovery had he been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent.

Try them, be satisfied, and be cured.

BILIOUS FEVERS AND LIVER COMPLAINTS.

GENERAL DEBILITY, Loss of Appetite, and Diseases of Females—these medicines have been used with the most beneficial results in cases of this description: King's Evil and Scrofula in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Colic, are speedily cured.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla.

Prepared and sold by Dr. W. B. MOFFAT, 335 Broadway, N. Y. For sale by all Druggists.

JOHNS & CROSLEY'S
IMPROVED GUTTA PERCHA CEMENT ROOFING.

IS THE CHEAPEST AND MOST DURABLE ROOFING IN USE.—IT IS FIRE AND WATER PROOF. It can be applied to NEW and OLD *Roofs* of ALL KINDS and to old shingle *roofs without removing the shingles.*

THE COST IS ONLY ABOUT ONE-THIRD THAT OF TIN, AND IS TWICE AS DURABLE.

GUTTA PERCHA CEMENT for preserving and repairing TIN and METAL ROOFS of every description.

From its great elasticity, is not injured by the contraction and expansion of metals, *and will not crack in cold nor run in warm weather.* These Materials have been thoroughly tested in New-York and all parts of the Southern and Western States, and we can give abundant proof of *all* we claim in their favor.

They are readily applied by ordinary laborers, at a trifling expense.

"NO HEAT IS REQUIRED."

These materials are put up ready for use, and for shipping to all parts of the country with full printed directions for application.

Full descriptive circulars will be forwarded on application by mail or in person, at our principal offices, 510 BROADWAY, (opposite St. Nicholas Hotel) N. Y.; 349 FULTON-ST., (opposite City Hall) BROOKLYN.

LAW OF NEWSPAPERS.

1. Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their newspapers, the publisher may continue to send them until all *arrearages are paid.*

3. If subscribers neglect or refuse to take their newspapers from the office or place to which they are directed, they are responsible for them *until they have settled their bills and ordered them discontinued.*

4. The Courts have decided that *refusing to take newspapers from the office, or place where they are sent, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.*

5. The United States Courts have also repeatedly decided that a postmaster who neglects to give reasonable notice, as required by the Post Office Department, of the neglect or refusal of a person to take from the post office newspapers addressed to him, *renders the postmaster liable to the publisher for the amount subscribed.*
