Marines In Nicaragua, Haiti; San Domingo's Finances Under Our Control

WASHINGTON, D. C.—Attacking the imperialism of the United States and criticising the address of President Coolidge before the Pan American Conference at Habana, Senator John J. Blaine, Republican, of Wisconsin, advocated a return to the doctrine of inherent fairness and justice to smaller and weaker nations.

Senator Blaine declared that the President had failed to advise America and the world what is the American policy with respect to our southern neighbors, particularly Central and South America. He condemned the sending of marines to Nicaragua. He said that in the last 25 years, 14 out of 20 republics to the south of us have been invaded.

Dollar Diplomacy

Modern "dollar diplomacy" was blamed by Senator Blaine for the tendency to imperialism. "It is under the banner of bonds and bullets," he declared, "that all the forces of privilege march and demand that our government guarantee their questionable and usurious loans and unconscionable exploitation of weaker people."

Senator Blaine began his speech in the Senate last Wednesday. He yielded the floor late that afternoon. He resumed and concluded his remarks last Friday. With respect to Haiti and San Domingo, he said:

Imperialism

"Imperialism: Turn to Haiti, where officers of the army and navy, backed by an American Army, govern or allegedly protect the Haitians; where an American financial adviser dictates the finances and permits loans with United States Government guaranties and and where the Haitian Government was set up by force of American arms, and the Haitian constitution written by the personnel of the war-making power of America, and the adoption of that constitution ratified at an election which, if held in America under like circumstances, would be declared null and void.

No Free Ballot

"There was no free ballot. The polling places were in charge of American marines. That which is guaranteed to every community in the United States in the holding of free elections was denied to the Haitians. The constitution imposed upon the Haitian people denied them guaranties compatible with a free government and a free people, and its provisions were made satisfactory to American exploiters.

Armed Forces

"The presence of armed forces carried its tyranny to such excess as to deny to an honorable and distinguished member of this body (Senator King) the right of freedom of passage through that territory—his way barricaded and before him the battle of the sabre and the menacing muzzle of the gun. Such are the consequences that flow from tyranny.

San Domingo

"Go to San Domingo, if you please, where an army was landed, the President of the Republic dismissed, and its Congress dissolved, and where for years the military power of an alien government administered its affairs by military decrees, enforced by a military government supported by some 2,500 marines. Of course, San Domingo may be given back her sovereignty, her independence. Under what circumstances? Providing she ratify the military misrule and allow America to collect her customs and control the finances of her country.

"I was asked by the distinguished Senator from Connecticut (Mr. Bingham) yesterday if I approved of the act of the present administration in withdrawing from San Domingo. I do approve of the withdrawal of the marines, but America is not yet out of San Domingo by any means.

Strangle Hold

"The United States marines were withdrawn. But, sirs, America is still in San Domingo with a power as great as the power of force, and that is a strangle hold upon the finances of San Domingo. Let any nation have a strangle hold upon the finances of another country and that country is subjugated to the will and, perchance, to the whim of the nation which holds each strangle hold through loans, sometimes, if you please, forced upon weaker peoples."

R. R. CHURCH IS G. O. P. DELEGATE

MEMPHIS, Tenn.—By a unanimous vote, "Bob" Church was elected delegate to the National Republican Convention by party leaders in the Congressional convention held in the Court House here Saturday.

Lester H. Brenner, white, U. S Commissioner, was also unanimously elected alternate. The two names were put in nomination by assistant U. S. Attorney, Herbert Harper.

The close alignment and understanding between Congresman J. Will Taylor and Church was indicated again by instructions given delegates to the state convention on resolution of the latter that Taylor be re-elected national committeeman from Tennessee.

Lily Whites Routed

The election of Church also indicates a complete routing of the lily whites from state Republican councils and in all probability will give Church complete control over West Tennessee patronage.

GARVEY IS GOING TO RAISE HELL

Tells Jamaicans He Must Keep Quiet Until Conditions Are Bettered

CHRIST WAS BLACK

Blood Of All Races In His Veins, Says Marcus

NEW YORK.—"I will assure you that I will leave Jamaica within 24 hours when they have raised the standard of the black man. Until they do that, then I am going to raise hell."

This, the Negro World reports, is a version of Marcus Garvey's recent address at the Ward Theatre in Jamaica.

Mr. Garvey is quoted as saying, "Get me out, and get me out quickly, but take steps to abolish the nakedness, disease and dirt around. Force me out, if you can, but I will never stand by and keep my mouth closed until the condition of the masses is improved.

"If a cottage of four rooms is good enough for certain people, then why should a black mother and father with six children be contented with one room? Why should people have to live in mud, cottages and dirt? The day the condition of the masses is changed, I will leave Jamaica because there will be no more work for me to do here.

"You Negroes are sleeping on your rights. Get up and help yourselves. Instead of running over to Cuba and letting the Cubans kill you, instead of going to Costa Rica and letting the Spaniards chop you to pieces, instead of going to the Panama Canal, where they do not want you, instead of wandering about, stay at home and help to build your own country.

Christ Of Colored Blood

"Christ was not especially a Negro in the accepted term of being a black man, but Christ was a Negro in the interpretation of the twentieth century characterization of the Negro. He was a man of colored blood.

"Christ to have been Christ could not have been of any particular race, otherwise he could not be the Redeemer of mankind. Christ was the embodiment of all humanity. He was as much a Mongolian, a Caucasian as He was African. The idea of Christ being a black man is simply being enunciated in keeping with the idea of white men making Him white. The Anglo-Saxon has made Him a propossessin and a very fine type of Christ, the German has made Him the Teutonic type; and therefore, the Christ as the modern interpretation goes would have to be of our type; the Christ of the Italian would have to be a brunette, and so the Christ of the Negro must be black.

"Christ came to save all mankind. He, therefore, took in everything that was human, from white to black and every thing between."

Two Women

Speaking of his domestic affairs, Marcus Garvey said that he had married two women, the first one as bad as hell. When he found out her character, he said, he sent her away, and finding a good woman married her.

"If I am here, it is because my wife in New York kept the fire burning.

Won't Be In Jamaica Long

"I have been in England, France and America and I am just here for a short while. Treat people as they treat you; respect them as they respect you. If they love you, love them. If they curse you, curse them. Don't give them any more than they give you.

Let it be a fifty-fifty deal. Respect everybody who respects you; but if they insult you, then get busy and do likewise.

"I am here to see you go right, and if things are not going right, to get your rights. Get what is yours and what should come to you. You can cooperate and by God you must get what is right. If anybody disturbs you, call me."

Can't Jail Men Who Haven't Jobs

PITTSBURGH, Pa., Feb. 8.—(PNS)—A number of Pittsburgh's police magistrates came in for a sound scoring by Judge James B. Drew, of the Allegheny County Courts, when he declared "This is an outrage; magistrates are not superior to the law."

The jurist was provoked to make this statement at the conclusion of an annual hearing Thursday which resulted in 52 prisoners, 4 white, being released from the Allegheny county workhouse and the county jail because of having been sentenced illegally and excessively by magistrates, justices of the peace and aldermen.

During the holiday season when work was scarce the police would arrest any Negro who could not prove that he had a job and at the hearing in police court the victim would get a sentence from ninety days to six months in the workhouse. The law limits the magistrates to a sixty-day sentence or nominal fine.

EXODUS HIT LITTLE ROCK, ARKANSAS

Lynching And Extra Murder By Whites Cause Many To Leave

MAN LYNCHED "INSANE"

Body Burned In Heart Of "Colored" Section

NEW YORK.—An investigator for the N. A. A. C. P. just returned from the city of Little Rock, Ark., investigating the unpunished mob hanging and burning of John Carter there last May, reports that many colored people have left the city and that brutalities practiced against Negroes, including the killing of an aged Negro by two white boys as "a lark" have since then gone unpunished.

The man lynched was known to be insane and feeble-minded. He had been accused of beating two white women in an automobile. When caught by a mob he was hanged without police interference, the body being dragged by an automobile through the streets of Little Rock, followed by a long procession shouting, blowing horns and rioting. The mob took the body to an important Negro center, at the corner of 9th street and Broadway, and there publicly burned it, one innocent Negro who happened upon the scene being beaten into insensibility.

Police are reported to have been by-standers at the lynching and burning, the Mayor, Sheriff and Chief of Police having "left town." The Grand Jury declined to indict anyone for the outrage, the foreman of the Grand Jury, Gordon N. Peay, asking that the jury be discharged on the ground that three-fourth of his associates declined to act on the evidence of criminal negligence of officials which had been presented. Since then there has been no Grand Jury action.

Want It Forgotten

The N. A. A. C. P. investigator reports that even the white people who were most outraged at the mob murder, now want it forgotten. The investigator further reports that the District Attorney stated it was virtually impossible to procure jury action against white people accused of crime against Negroes. A number of cases of murder of Negroes by white men have occurred in which there has been no action. The investigator's report continues:

Shot Old Man

"A particularly outrageous case was one of two white boys who went out one night with the definite and expressed intention of killing a Negro for a lark. They shot a harmless old man and left him beside the road. While it was felt that this was going too far and such a tendency on the part of the youth should be curbed, still a jail sentence was considered too severe a penalty.

Not Guilty

The jury brought in a verdict of not guilty, and afterwards expressed the opinion that the scare and expense of the trial were punishment enough. Mr. — said that he believed that such cases as this were worse in themselves than the lynching of last summer and showed the hopelessness of bringing any kind of justice where the race issue was involved."

White sentiment, the N. A. A. C. P. investigator reports now oppose any action against the lynchers, and continues:

"A great many Negroes have moved away from Little Rock as a result of this lynching. They do not think it likely that the occurrence will be repeated but have no real assurance."

Grand Jury Cannot Find 200 Lynchers

WHITESBURG, KY.—Grand Jury adjourned here last week without being able to fine one of the 200 white persons who lynched Leonard Wood here recently.

White newspaper reports were that Wood killed Herskell Deaton, white, when Deaton refused to permit him and two young women to ride in Deaton's auto.

The AFRO carried the true story of the crime which was to the effect that the white man was starting out on a joy ride with a colored woman and Wood, being unable to get her out of the auto, killed Deaton. This report was corroborated by the Grand Jury.

LILY WHITES BEATEN IN MISSISSIPPI

State G. O. P. Committee Doesn't Permit Their Proposals To Be Read

PERRY HOWARD THERE

Organization For Coolidge First, Hoover Second

JACKSON, Miss.—"Lily-white" republicans were out-maneuvered at the meeting of the Republican State Committee of Mississippi here on February 1.

They came into the meeting with a set of proposals regarding the procedure to be followed in the election of delegates to the county, district and state national conventions. Perry W. Howard, republican national committeeman for Mississippi and state chairman, who presided, without permitting the reading of these demands, referred them to a special committee. This committee reported that the demands of the "lily-white" republicans were preposterous.

The avowed purpose of the "lily-whites" is to gain control of the republican organization in Mississippi and exclude Negroes from participation in the councils of the party. They have secured a charter from the state. They sought recognition in Washington, but were advised that the organization of which Mr. Howard is the head, is the regular republican party in Mississippi.

The activities of the "lily-white" republicans have seemingly cemented all factions of the regular republican party in Mississippi.

The regular state convention was called to meet here on March 14. The eight district conventions will meet on March 13.

Coolidge First

The state committee passed resolutions endorsing the candidacy of Herbert Hoover for the republican presidential nomination, in the event that President Coolidge cannot be "drafted". Mr. Howard will manage the Hoover campaign in Mississippi.

The BABY

Why do so many, many babies of today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up half the night?

If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the tiny system. Not even a distasteful dose of castor oil does so much good.

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic; or constipation; or diarrhea. Or those many times when you just don't know what is the matter. For real sickness, call the doctor, always. At other times a few drops of Fletcher's Castoria.

The doctor often tells you to do just that; and always says Fletcher's Other preparations may be just as pure, just as free from dangerous drugs, but why experiment? Besides the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold!

MRS. BECTON BORN WITH DOUBLE VEIL

Evangelist's Wife Admits She Is "Scientific Spiritualist"

TALKS TO SPIRITS

She Tells Reporter "Madame Bufford" Before Marriage

RICHMOND, Va.—Admitting that she was a "scientific spiritualist," and declaring that she was born under a double veil and had the gift of second sight, Mrs G. W. Becton, wife of the well known evangelist head of the Gospel Feast Party, defended her work and mission in an interview here with John Mitchell, Jr., of the Richmond Planet.

Mrs. Becton declared that before marriage she was "Madame Bufford" and that she conducted a spiritualist church in New York. The Bectons have been severely scored by Rev. Charles S. Morris, who openly called her a "witch" and branded the evangelist as being in league with fortune telling for money.

Goes In Trance

In explaining her unnatural powers, Mrs. Becton is said to have declared her grandmother first conveyed to her the information that she was born with a double veil and that she often goes in a trance at which time spirits from the other world hold conversations with her.

She is also able, she says, to call into consultation spirits of dead relatives and to be able to foretell events before they happen.

Spirit "Knocks"

Her husband was familiar with the spirit manifestation, she says, and that often in the night they come in their room and make them up by knocks and other noises.

She denied being a fortune teller, but stated that her work was scientific and similar to that of the distinguished Sir A. Conan Doyle.

The Gospel Feast Party spent several weeks in Baltimore some time ago when they conducted a meeting at Bethel A. M. E. Church.
