The First and Highest Premium
AWARDED TO THE
GROVER & BAKER
Sewing Machine and Stitch,

FOR FAMILY USE.

Read the following:

NASHVILLE, September 15th, 1860.

The undersigned Committee appointed by the State Bureau of the Seventh Annual State Fair of Tennessee to examine, and mark award, for the best Family Sewing Machine, find on exhibition the following machines in competition: the I. M. Singer; Wheeler & Wilson, A. B. Howe, and the Grover & Baker. The first three named, although differing in construction and capacity, still, so far as the stitch is concerned, all arrive at the same point—making what is called and known as the Shuttle stitch, each using a shuttle or shuttle and bobbin, upon which all of the lower thread, or thread used underneath, is required to be re-spooled.—The Shuttle Machine may be used upon some classes of Family Sewing with a degree of satisfaction, but we conceive from their construction, operation and stich, their principal adaption is to the purposes of manufacture.

The points we conceive most necessary and important to meet the wide range of requirements in a Machine for family sewing, we find more fully combined in the Grover & Baker—extent of capacity, simplicity of construction, ease of management, advantage of using thread from two spools without re-winding, strength of work, elasticity, durability, and regularity of stich, and quietness of movement. We therefore mark award to Grover & Baker.

JOHN HERIGES, *Chairman.*
JO. W. HORTON, J. W WISSON,
C. H. WHITE, JAS. A. WOODS.

I hereby certify that the above is a true copy of the original decision and award of the Committee upon Family Sewing Machines, appointed by the Tennessee State Fair, for 1860.
