"On Lincoln's election I am out for war to the knife, if need be, and I intend to devote myself to arousing the public mind to this purpose. If the South submits to Lincoln's election, we are enslaved and our negroes free. A few years will tell the tale I am willing to fight for my fire-side. But if the South refuses my services, I shall get my house in order, for a move to the trate before the door of a grocery, opened Pacific. Washington, Oct. 25.—The Richmond Whig, which is considered a leading journal of the South, contains an editorial, which is exciting considerable interest here. It savs:-The Lou-Georgia is of the most alarming character. The B eckinridge party there are putting on the cockade. The meaning of this is open, bold and resolute disunion. It is the more alarming because the movement is quiet, for exchanges tell us also of meetings of that mysterious order, the Knight's of the Golden Cross in Mississippi, which seems to be mustering its forces. An avalanche may be poured upon us before we know it. The movement is without excuse and cannot be palliated. There has been no act to justify it in the slightest degree. Let the Union men take counsel. If the party is permitted to succeed in Virginia, our whole border will be on fire in less than three moths. If men will resist the law, .cuse—for this there is none.

The article concludes as follows:-Next will follow civil war, bloodshed, property destroyed, the sacking of cities, murder, rapine and pestilence, and famine will stalk in the rear to complete the destruction. We say put your house in order and be prepared for the event. Be watchful and vigilant.

The greatest destinguishing features of the "Newspaper," are Utility, Infoamation and Variety; an Agricultural Department, a Department of Science and Art, with a Little Space for Wit and Humor.

The story department is made up almost wholly of Original Stories, from the best authors that umns. No other family paper pays out more for original reading, and, as may be naturally supposed, no other paper publishes more or better

The Agricultural department each week, occupies some three of the long columns of the Newspaper, and is a most interesting feature of the paper being wholly original, and comprising the usual variety for the Farmer and Land Owner, the Orchardist and Gardner, the Dairyman and Apiarian, the Grazier and Breeder, and for all who are interested in the Poultry Yard, Natural History, Rural Architecture, Agricultural Shows, new implements and plants, as well as for the housewife | and the fireside, Science and the Mechanic Arts. Under this head may be weekly found a column devoted to Mechanical and Chemical Arts, Patents Inventions, Improvements in Machinery, Engineering, &c., the aim being to present all subjects discussed, in a plain and popular form. Original Letters, &c. From writers in the country we shall have weekly letters, descriptive of the resources, character and habits of the people in various sections of the Union. Letters from Washington of the political movements of parties, letters from At his residence, near Burrsville, in this county, New York, of the husiness doings of that great Commercial centre, will be continued, and in the midst of a great Presidential canvass, as the coun-

try is, these letters will have especial interest. The News and Market Reports. In office machinery and other facilities for printing a cheap Family Paper the Dollar Newspaper is unequalled. With monster machines capable of printing 20,-000 copies per hour, its columns can be held open for news to within a few hours of the date of publicatiod. It is thus enabled topublish the latest and most reliable market reports.

THE TERMS ARE INVARIABLY IN ADVANCE as follows: To single subscribers one year, Club of six, Club of thirteen,

Club of twenty, and one to the getter up of the Club, No subscription for less than one year will be reveived. The Newspaper is alwaya discontinued at the expiration of the time it is paid. The Dol-
