TO FARMERS.

THE undersigned having associated Hudson Steel with him in business, intends to continue the manufacture of MOWERS AND REAPERS, RAKES, &c., in the name of CASHO & STEEL. He therefore takes this occasion to return thanks to his former patrons and solicit their favors and that of their friends for the new firm. JACOB CASHO.

Being satisfied from long experience in manufacturing, selling and using Reapers and Mowers, (and in this opinion we believe the best farmers agree with us,) that it requires two separate and distinct machines for reaping and mowing, especially on large farms; the high speed of motion required for mowing will so shake and rack the Machine when reaping with the same, the bolts are continually wearing and finally something breaks and then comes the delay so much dreaded by the farmer.

This we are fully convinced is obviated by the machine we are now building, viz:

DORSEY'S PATENT SELF RAKING REAPER

of which we have secured the right for the Eastern Shore of Maryland.

This Reaper we have been using for four years in trial with others, and are so well satisfied of its superiority in point of speed and ease in cutting, lightness of draft and strength, that we have no hesitation in saying it is superior to any reaping machine in use. Every part that we thought required to be strengthened has been done, and in sustainance of these views we refer to the following persons, who have bought and used them, each and every one of them have said that it more than met their expectations:

Wm. P. Richardson, New Castle Co., Del.
James Brown, " " "
George T. Townsend, " " "
Sylvester Townsend, " " "
Giles Lambson, " " "
Joseph L. Foreman, " " "
Geo. W. Karsner, " " "
Thos. McConaughey, " " "
Enoch D. Tagart, Cecil county, Maryland.
Joseph Coudon, " "
Isaac Titter, " "
George W. Bennett, " "
Richard Frazier, Kent county, "

Many others could be named, but as these are well known, we think it useless. We will also continue to manufacture

PRATT'S PATENT
STEEL TOOTH HORSE RAKE,
AND
Johnson's Revolving Hay Rake.

These articles are so well known that it is useless to say anything about them. No farmer should be without one or the other. Send your orders soon or you may be disappointed.

To farmers wanting a Mowing Machine we will furnish them either Kirby's or Wood's Mower, at manufacturer's prices.

HARRISON'S
PLANT FERTILIZER,
A PERFECT FOOD FOR EVERY VARIETY OF FARM & GARDEN CROP.

The invention of the compound bearing the foregoing title, was prompted by the conviction, that no means of fertilization, either natural or artificial, yet existed to meet the demands of Agriculture and its kindred interests, or re-supply the nutritive elements which present methods were constantly removing from the soil, and with the means of but partial and very limited restoration.

It contains all the elements of nutrition, for every plant, shrub and tree, and their seeds, grains and fruits, cultivated for the use or benefit of man or the lower animals. It will furnish every element requisite for the most rapid, equable and enlarged growth, the most perfect structure of every organ of each plant, the most mature development of their fruit, and consequently, the most healthy constitution possible to attain. It will give fertility to the most barren soils, and maintain the highest fertility in all soils. Descriptive Circulars, of its character, properties and uses, and testimonials of its great practical results—sent free by mail. *Price not advanced*—$50 per ton, of 2000 lbs., in bags of 200 lbs., each—net cash.
