The Daring Conspiracy Against Popular Rights.

No unprejudiced mind, no one who regards the stability of the Government as dependent on a right administration of the laws and regard for the Constitution, the foundation of all, but must have been struck with the utter recklessness with which, defying all precedent, the Radical leaders have sought to make everything in Congressional legislation merely instrumental to perpetuate their rule. Looking apparently to nothing but the tendency any projected legislation might have upon their prospects and success as a party, everything has been bent to that; made subservient to that; giving sad evidence that they will stop at nothing hereafter which interferes with their ambitious purposes. Having wound themselves up to the point that *they* only are fit to govern the nation, this stupendous assumption has been borne in mind by them in almost every act passed by the present Congress, until the whole of its legislation, nearly, has taken on the hue of revolution; of usurpation of the President's and the people's rights, finally reaching to the monstrosity of expecting the people to defer implicity to what, in the same line, they may do hereafter *as judges and managers of the election for President.*

In all this they have certainly overdone their work. They have shown so plainly their despotic purposes, their determination to rule in any and every event, that they have at last succeeded in creating a determination on the part of the people to take matters into their own hands; they have so aroused the masses, that they will no longer permit these men to go on clinching one revolutionary act by another, until at last every vestige of popular rights is in danger of being absorbed and lost in the assumptions of Congress.

So long as these fearful outrages were perpetrated solely against the ten disfranchised States, there was a disposition evinced by a portion of the people North, to trouble themselves but little about the matter; but when it is made evident that was only a part of the plan for bringing the *whole* country under an oligarchical despotism in the hands of Butler and his gang, the nation is getting aroused to the danger; the people see that when such men alone, are allowed to pronounce upon their destinies, to control the ballots and the army too, popular rights are a mere myth and sham; that liberty is a thing of the past.

And what is the ready answer of these daring assumptionists to the charge of plotting against the liberties of the people; of so crippling the expression of the popular will by restrictions of the white franchise, and hedging in the laws concerning elections, that *they* receive and count out what votes they please—what votes will answer their purposes?

Why that *they*, as "loyal" men, are alone the proper judges of what is right and needful for the country; that *they* only are fit to govern! Utterly ignoring the fact that the great masses of the North—as shown by the late elections—have already decided against their wholesale assumptions, have condemned their action, they yet persist in their subtle and daring designs to secure power; and they will be put down only by a stern determination on the part of the people to end their rule, as unmistakeable as the popular acclaim can make it.—*Balt. Com.*

Order of Publication.

JOHN B. KILPATRICK,
MARY J. KILPATRICK,
VERSUS
JAMES LONG AND CATHARINE LONG HIS WIFE,
AND MARGARET KILPATRICK.

In the Circuit Court for Kent County, in Equity. July 15th, 1868.

THE object of this Bill is to procure a Decree to sell certain land situate in Kent county, Maryland, of which John Kilpatrick died seized and intestate, and which is commonly called the Trulock Farm.

The Bill states that a certain John Kilpatrick late of Kent county, Maryland, deceased, was in his life-time seized and possessed of certain real estate lying and being in Kent county, called "The Trulock Farm," containing Two Hundred and Eighty Acres of Land, more or less, and being so thereof seized and possessed, sometime in the present year Eighteen hundred and sixty-eight departed this life intestate, leaving John B. Kilpatrick, Mary J. Kilpatrick, the complainants in this bill, and Catharine Long, formerly Catharine Kilpatrick, and Margaret Kilpatrick, the defendants to said Bill, his only children and heirs at law. That Catharine has intermarried with one James Long; that she, the said Catharine, and Margaret are infants under the age of twenty-one years, and that the said Catharine Long, formerly Catharine Kilpatrick, and Margaret Kilpatrick and James Long are non-residents of the State of Maryland, and that they reside in the city of Philadelphia.

The Bill further states that the aforesaid lands are not susceptible of a division amongst all the parties entitled, and that it would be to their interest to have the same sold and the proceeds divided among them according to their respective rights and interests. But the said Catharine Long and Margaret Kilpatrick are infants under the age of twenty-one years, and that a sale thereof cannot be had without the assistance of this Court.

It is therefore adjudged and ordered that the complainants, by causing a copy of this order to be inserted in some newspaper published in Kent county once in each of three successive weeks before the fifteenth day of August next, give notice to the said absent defendant, James Long, of the object and substance of this bill, and warn him to appear in this Court in person or by solicitor, on or before the fifteenth day of December next, to answer the premises, and show cause if any he has why a Decree ought not to pass as prayed.

Pacific Guano Company's
(*CAPITAL* $1,000,000,)
SOLUBLE
PACIFIC GUANO!

THE VALUE of this Guano is now so well known and appreciated, that it does not require further commendation from us.

The Company owns the Guano Islands, and other sources of supply from which its raw material is drawn. Hence, this Guano, possessing such high excellence, can be brought into market at a price not exceeding that of the ordinary Super-Phosphates of Lime.

The large capital invested by this Company affords the surest guarantee of the continued excellence of their fertilizer, as the safety of their capital depends upon continued and permanent business.

Experience has shown that this Guano ripens the Wheat crop from five to six days earlier than the Super-Phosphates.

It is the policy and purpose of the Company to furnish the best fertilizer that enterprize and capital, aided by the best scientific ability, can bring into market, at the lowest possible cost to consumers.

THE DIAMOND STATE
Thresher & Cleaner.

We call the attention of Farmers to our IMPROVED DIAMOND STATE THRESHER and CLEANER with Double Acting Separator.—The practical operation of these machines is such as will warrant us in advising those wanting Threshers to examine ours before purchasing elsewhere. We build three sizes—No. 1, 36 in. cylinder; No. 2, 30 in. cylinder; No. 3, 26 in. cylinder. They are of the best materials and workmanship, and warranted to suit purchasers. Large or small powers can be made to drive them, as desired. Galvanized Sheet Iron is used for sieves and shaker bottoms.—They are unequalled in strength, capacity, durability and lightness of running, doing their work rapidly and in the best manner. The machine is a model of simplicity in its construction and operation, and the price of it much below others in the market. The Double Shaker separates all the grain from the straw—none is wasted, and the Fan as a Cleaner is unsurpassed.

The Shoe of the Shaker can be easily detached and the machine used as a Thresher and Separator alone.

Our ENDLESS CHAIN HORSE POWERS are made with Steel Rods and our Improved Link. All the bearings for the wheels are steel, making the Power run with great ease to the team.

Churning Made Easy.

Good Fresh Butter all the year round!
Farmers Attend!
Save Time! Save Labor! Save Money!

By using Tomlinson & Co.'s (Lincoln, England) Celebrated Butter Powder. By the use of this inexpensive Powder, churning of hours is reduced to minutes, and is applicable to the making of butter at all seasons of the year. A small quantity added to the milk or cream at the time of churning will produce Butter in much less time, in larger quantity, and of a superior quality, flavor and consistency.

It removes the unpleasant flavor caused by the cows feeding on turnips, garlic, weeds, &c.; and prevents all rancidity peculiar to butter; also makes it firmer and sweeter, even in the hottest weather.

This Powder, now being introduced into this country, has long been in use throughout Europe and the Canadas, and Butter made with it has invariably taken the prize at all Agricultural Shows, whenever exhibited.

Price 25 cts. and 50 cts. per box. Sold by all respectable Druggists and Store-keepers throughout the country.
