The Iron-Clad Oath.

The "iron clad oath," so called, is to the effect that the person who takes it has never voluntarily given any aid or comfort of any kind to parties engaged in rebellion against the United States. The law, so far as it applies to jurors, leaves it discretionary with the court to administer this oath or not, and Chief Justice Chase, exercising the discretionary powers thus confided to him, decided, at the late opening of the present session of his court in Richmond, that the oath need not be administered to the grand jury, and directed another jury to be summoned in the usual way. This decision of the Chief Justice is based upon the satisfactory view that the ends of justice will be hindered and defeated by directing the oath to be administered. The fact that men best qualified for the responsible duties of this position cannot be had if the "iron-clad oath" is required gives confirmation to the conviction expressed by General Stoneman that the offices of the State cannot be filled by persons of whom the same requirement is made. It is to be hoped that this is the beginning of a more just and rational policy, not only in the conditions demanded for serving on juries, but in all the other cases in which it is now required either under the reconstruction or other legislation of Congress. That prominent republican journal, the New York Times, expresses the hope that the time may very soon come when this oath may be dispensed with altogether as a test for office involving either civil or political duties. The idea that former participation in resistance to the government of the United States affords a presumption that a man cannot do his duty upon a jury is preposterous. Why should not an oath to support the constitution and obey the laws of the United States be sufficient in all cases? It is high time that the persistent proscriptive policy so long pursued by the radical party, by which a measure of war is kept up after nearly four years of peace should come to an end.—We had this thing in Maryland, but it was swept away by the action of the people when they were permitted to get at the ballot-box. It is difficult to estimate the injury which has been done by these proscriptive oaths, excluding competent men and those whose capacities made them desirable for public position, thus not only striking down the rights of citizens individually, but the welfare of the community in preventing it from availing itself of the services of its best, ablest and most needed men. It is gratifying to see the Chief Justice of the Supreme Court of the United States, which swept away the test oath as to attorneys, as unconstitutional, in being retroactive and penal, now extending the same just and wise policy in the great matter of judicial action. In permitting former Confederates, upon taking the oath to support the constitution and obey the laws of the United States, to administer justice among the citizens of a country, the Chief Justice virtually condemns all legislation of an opposite character in regard to other cases. Nothing would do more to promote the general pacification and consequent happiness of the country than to dispense with the iron clad oath as a requisite for any public station.—*Balt. Sun*

THE FORTY FIRST CONGRESS.—Although the approaching session of the Fortieth Congress will last but three months, there will, it is stated, be no crowding of legislation. The Forty-first Congress assembles on the 4th of March next, as will be seen from the following, which is the first section of an act passed at the second session of the Thirty-ninth Congress, and approved January 22, 1867. It is entitled "An act providing for the meeting of Congress," and reads as follows:

"*Be it enacted*, &c., That in addition to the present regular time of the meeting of Congress there shall be a meeting of the Fortieth Congress of the United States and of each successive Congress thereafter at 12 o'clock A. M., on the 4th day of March, the day on which the term begins for which the Congress is elected, except that when the 4th of March occurs on Sunday the meeting shall take place at the same hour on the next succeeding day."

WALKING ONE HUNDRED MILES IN LESS THAN TWENTY HOURS.—The pedestrian Payne last week walked 100 miles in nineteen hours fifty-eight minutes and three seconds, at the skating rink in Buffalo, N. Y. The track was about three feet in width, covered with tan-bark, and the foothold was not the best. The feat was completed in twenty-three hours and a half. The stoppages amounted to three hours thirty-one minutes and fifty seconds, making the actual walking time nineteen hours fifty-eight minutes and three seconds—the fastest time in which the feat of walking one hundred miles has ever been performed.

A COLORED CONGRESSMAN.—The Washington correspondent of the New York *Times* writes:

There is, after all, a chance that a colored representative may have a seat in the Fortieth Congress. By the rejection of the returns of certain parishes in Louisiana, Menard, a negro, is declared elected to fill the unexpired term of Mann, democrat, and deceased. Menard will get the certificate, which will be *prima facie* evidence of his right to be Mann's successor, and he must be admitted to the seat, and Hunt, democrat, who is defeated by the rejection of the returns, will have a chance to contest Menard's seat.

BATTLE WITH INDIANS.—Gen. Sheridan has furnished an official account of a recent engagement of a portion of his force, under General Custer, with several bands of hostile Indians in Indian Territory, in which the latter were severely punished. He surprised several bands of Indians, captured the entire camp, killing the Chief and over one hundred warriors.—All the Indians' stock, ammunition, arms, lodges, robes, and fifty-three women and children, were also captured. The fight took place on the 27th ult.

THE SUGAR CROP.—The Louisiana papers say the season has been a splendid one for the sugar planters, and they are making preparations for more extensive cultivation of the cane next year. The yield of the cane is everywhere greater than has been known for years back, and the quality of the sugar is superior to that of past times. At the present prices of sugar and molasses the planters will relieve themselves of many of their embarrassments.

GEN GRANT'S VIEWS.—Mr. Boynton, the Washington correspondent of the Cincinnati Gazette, says:

"In spite of Gen. Grant's reticence, enough has leaked out concerning his views of the political situation and the relations of parties to effectually check the prediction that Grant would disappoint the republicans which slipped so glibly from conservative lips a fortnight ago. He has talked freely regarding political matters with several prominent republicans, and while, of course, no portion of this conversation can be published, it is not too much to say that these persons have been struck, both with the clear and comprehensive view which the new President takes of public affairs and policy, and also thoroughly satisfied with the earnestness with which he supports the general features of republican policy. The gentlemen thus satisfied are "radicals."

ANOTHER DECISION OF CHIEF JUSTICE CHASE.—A few days ago Chief Justice Chase, presiding in the United States Court at Richmond, Va., decided an important case. His opinion establishes, so far as the judgment of that court can establish it, the right of stockholders in loyal States to the dividends declared during the war upon the stock held by them in Southern railroads, notwithstanding the confiscation of such stock and dividends by the late Confederate government. It explains what it is meant by the term *de facto* government, and it promulgates the rule that Confederate notes received in the rebel States on account of parties in loyal States innocent of acts violating the interdicts against commercial intercourse must be accounted for in lawful money equal in value to the Confederate notes at time of receipt.

SUFFRAGE.—At the recent Woman's Suffrage Convention, in Boston, Senator Wilson stated that, under the fourteenth article (the amendment) of the constitution of the United States, he would have no hesitation in voting for an act of Congress to give the colored men in every State the right to vote. He added, however, that as many persons did not place this construction upon the fourteenth article, there would have to be another amendment submitted. In his opinion the constitution could be so amended that the right of suffrage, in six or eight months, will be secured to the colored men all over the land.

A MACHINE for harvesting corn, by taking the ears from the stalks while standing in the field, was exhibited at the recent State fair in Illinois. The apparatus is constructed to strip two rows at once. The stalks are taken between projecting metal-freed fingers, and as the machine advances, the butt of the ear is brought in contact with a short sickle, playing at the rear of the fingers, cutting it off, while the stalk passes under the machine without being pulled up; the ears are received into a large hopper at the end of the machine, and discharged when it is full.

MR. SUMNER'S VIEWS.—It is stated that Senator Sumner recently expressed himself as determined to take a stand in Congress for the immediate resumption of specie payments. Nothing more, he thinks, need be done with the reconstruction laws, as General Grant will enforce their provisions.

FORT LAFAYETTE, in New York harbor, took fire on Wednesday and was entirely destroyed, except the walls. It became necessary to flood the magazine to prevent the explosion of thirty tons of gunpowder stored there.

FOUR colored men are on the grand jury of the United States Circuit Court, now in session in Richmond, and six colored men on the list of petit jurors.

SEWING MACHINES.

It is now generally admitted that a good Sewing Machine is a valuable aid in a family. Few men would decline purchasing a machine of any kind that would enable them to perform their labor in half the time required by other means, and we think the Ladies have as much claim to be relieved from their toil. It has been demonstrated that a GROVER & BAKER SEWING MACHINE will save more than half the time and labour and do the work better. This is the best family sewing machine, because it is simple, and Ladies have no trouble to manage them.

If a sewing machine is too complicated to be used, except by experienced operators, it has very little value as a family machine. We never knew a Lady who had any difficulty in using a Grover & Baker Machine.

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicine. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, Stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with pure Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts; while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY,

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-toned, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best

Blood Purifiers

ever known, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, built of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in cases of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it.

Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined: but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a valuable medicine and value to some cases it may prove useful; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.*

Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street.

CAUTION.

Hoofland's German Remedies are counterfeited. The genuine have the signature of C. M. Jackson on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 00 per bottle; Or, a half dozen for $5 00.
Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used, and so highly recommended; and do not allow the druggists to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the
