School Teacher Buried in Va.

Rites were held Sunday at Morning Star Baptist Church in Gloucester, Va., for Mrs. Doris S. Studivent, teacher at School No. 101, and sister of Mrs. Saul Perdue of this city.

Mrs. Studivent, who had been ill since Oct. 26 died on Nov. 14 at Provident Hospital. She was 33 years old, a native of Gloucester, and the daughter of Mr. and Mrs. Floyd Stokes, who survive her.

Survived by Husband

Other survivors include her husband, Obie, AFRO employee with whom she resided at 234 Dallas St.; a brother, Sgt. Floyd Jr., of the Army; and five other sisters.

They are Advanced Lois Braim and Winnie Batson of Washington; Misses Aubrey Stokes of N.Y. and Louise Stokes of Cincinnati, and Mrs. Marguerite Jones of Gloucester.

ARTISTIC BUSINESS VENTURE:

Display Manufacturing Co. Set Up by Former Seaman

By LOUISE K. HINES

Hampton Williams, a former merchant marine, operates one of Baltimore's few display manufacturing businesses which bids not only to reach-top ranks of the profession, but to provide employment for youths with artistic talent.

It is the Modern Display and Sign Studio, located in the basement of 1900 McCulloh St.

Opened just six months ago, Mr. Williams was seeking a partner when Lawrence W. Watson, from Florida, stopped in the shop for a chat. Their conversation resulted in a partnership and combination of talents that produced work of unusual craftsmanship, startling originality and skillful use of colors.

Equipment Expanded

They have since built and acquired several thousand dollars worth of equipment that enables them to fulfill the artistic requirements of their customers in a minimum amount of time.

At present the partners manufacture paper mache and plaster forms, all types of signs and show window novelties, counter displays and decorative papers. In addition they decorate halls for social affairs.

Bearing tribute to the latter, was the paper mache Indian and horse, nestling in a corner of the shop, which was recently part of an Indian motif requested by a club for its dance.

Displays Used Downtown

Products from this studio have been displayed in the windows of the better down town department stores, and the larger neighborhood novelty establishments.

In readiness for the Christmas season, Mr. Williams has in stock, signs, floss-haired angles with star spangled gowns, glittering wreaths, well bearded "Santas," and rolls of lavishly colored papers to form a background for any Yuletide setting.

Attended Douglass

Mr. Williams is a 22-year-old Baltimorean, whose artistic training was garnered from the Douglass High School art classes under Samuel L. Taylor and Ralph V. Cooke, and later under Elton Fax and William Hawkins.

He plans to expand his business to produce full sized mannekins and all types of display. Moreover, he is looking forward to opening a Saturday art class for high school students.

Already Grace Johnson and Norma Mitchner of Douglass are engaged as apprentices, a step necessitated by increased business.

Incentive for Others

The success of this business proves that the quality of workmanship oftimes transcends the color barrier, and should stand as an incentive for others to establish themselves in new fields.

Married to the former Miss Ruth Thomas, Williams is the father of two children, Shirley, 13, and Grafton, 8. They reside at 343 Robert St.

Infantile Paralysis Cases Reach to 10

Ten cases of infantily paralysis have been reported to health authorities in Baltimore County since the first of the year, it was announced this week by officials of the Baltimore County Health Department.

It was further stated that 21 cases of diphtheria, with two deaths, have occurred in Baltimore County since the first of the year.

Currently, this county had three reported cases of scarlet fever.

Education Cure for World Ills, Head of Schools Says

"Education for all people will help form the basis for the solution of world problems," said Dr. William H. Lemmel, superintendent of public instruction, to the Frontiers' Club on Tuesday at the YMCA.

In what was probably his first address to a colored service club since he assumed his post here three months ago, Dr. Lemmel said the school must inculcate in its program the democratic principles of education and Bible teachings.

"To become united and give the world leadership, we must solve our problems at home as well as abroad. If we are to gauge our place in history, we must be well informed. This need is greater than ever before," he opined.

Lands Race for Progress

Dr. Lemmel, who formerly headed the schools of Wilmington, Del., cited the need for highly qualified people in public life.

He lauded the colored race for its patience, its progress, adding, "They have helped white people to appreciate the contribution of all races to the civilization of the world."

J. Carl Opper, secretary and chief examiner of the City Service Commission, spoke of his agency, whose main function is to secure qualified persons for municipal jobs.

In-Service Training Need

He described the functioning of the commission, its problems and the need for in-service training for employees in many classifications.

Dr. Lemmel was introduced by Saul Perdue, principal of Carver Vocational School; and Opper by Cecil Scott, Urban League industrial secretary.

Guests were William L. Fitzgerald and Leonard J. Wheatley Jr. Claims Leonard, manager of the Druid Laundry, was accepted as a new member.

A. J. Taylor to Launch National Drive for Scouts

A. J. Taylor, national field director of the interracial service of Boy Scouts of America, will be principal speaker at a public meeting for all scouters and friends of scouting at 8 p.m. tonight (Friday) at Druid Hill Ave. Baptist Church.

Mr. Taylor will launch Baltimore's "One Thousand for One" Program, a national membership campaign designed to enroll 1000 scouts for each of the 30 years served by Dr. Stanley R. Harris, veteran scout leader.

Drive Ends Oct. 31

Dr. Harris will retire on Oct. 31, the same date the drive ends. Under his leadership, colored scouting has grown from 5,000 to over 120,000.

The program for tonight is as follows:

Exhibits and pre-opening by Yancy L. Whittaker Jr., field scout executive, Chesapeake District; invocation, the Rev. C. Edward Browne, chairman, Chesapeake District; song fest led by Alfred W. Jones, district commissioner; welcome and introduction of speaker, the Rev. A. J. Payne, chairman, Monumental District.

Music from Morgan

Also special music by the Morgan State College String Ensemble; discussions led by Dean George W. Gray; announcements, Robert H. Heisland, scout executive, Baltimore Area Council; closing remarks, Andrew R. Johnson, field scout executive, Monumental District.

Woman Who Slays Razor-Wielder Freed

Testimony that she stabbed her husband to death in order to ward off his attacks with a razor, acquitted Mrs. Dorothea Thomas, 32, of 813 Low St. on a murder charge, Thursday, at Criminal Court.

Supporting the woman's plea of self-defense were James Mozell, 5611 Molborn Ct., and Mrs. Carrie Cisco of 1004 Low St. address, who said Mrs. Thomas stabbed her husband, William, 33, after he knocked her to the ground on Sept. 4, and swung at her several times with a razor.

The man died of a chest wound, said to have been inflicted with a small penknife. Witnesses said he attacked Mrs. Thomas on the street after they left a South Baltimore tavern.

FULTON AVE. RESIDENT FINED FOR DISORDER

Albert Jackson, 1429 N. Fulton Ave., was fined $5 and cost on a disorderly conduct charge in Western police court this morning.

POLICE HOLD MAN WANTED ON CHARGES IN NORFOLK

Dover Walker, 33, arrested by officers of the Southwestern District Station on charges of assaults and robbery in Norfolk, Va., was released on $2,500 bail, pending a hearing on Nov. 25.

Temperatures May Fall to 20's Over Week End

Typically fall, but comparatively mild weather marked this, the third week of November for Baltimoreans.

Light rain of early Friday morning, accompanied by a slightly sickening humidity, was expected to vanish during the day, giving way to temperatures in the upper 20's predicted for the night and week end.

Republican Gains Held Good Sign

Analyzing the recent election, Marse S. Callaway hailed the Republican gains as a good sign and viewed the trend as being of tremendous importance to voters.

Mr. Callaway was the Republican guest speaker at the monthly meeting of the Secondary Schoolmen's Club, of which Cyrus Marshall is president. Invited to represent the Democrats was Josiah F. Henry Jr., who was out of town.

Progressive Moves Noted

The speaker cited the following election observations:

That Senator Bilbo, no longer an important figure in Congress, if seated, will no longer head the District of Columbia as Mayor, which will definitely affect thousands of colored residents;

That the New Deal, CIO and PAC lost representation in Congress and that the Southern bloc lost the chairmanship of 15 important committees.

Following the talk, a lively round-table discussion was held among the approximately 20 persons present. Both Democrats and Republicans joined in the debate.

3 White Men Arrested for Disorderly Conduct

Three white men, arrested by officers who saw them advancing on an unidentified colored man in a threatening manner, were fined $25 and costs in Western police court this morning (Friday) for disorderly conduct.

They were Carl Shaver, 914 W. Baltimore St., Orval Canter, same address and Homer Bowgs, 924 Cleveland St., Cleveland, Ohio. The trio also was fined $25 and cost for kicking garbage and trash in the street. Sgt. Jack Mitchell and Patrolman Edward Bohager made the arrest.

Cerebral Palsy Children Lack Number for Class

A committee of authorities seeking authorization from the School Board, Thursday, for the establishment of a kindergarten class for five-year-old children affected with cerebral palsy, revealed that an insufficient number of colored children could be found to warrant such a class.

According to Dr. Winthrop M. Phelps, director of the Children's Rehabilitation Institute, an examination of children at Wood School for the Handicapped, had disclosed only six children affected with this disease.

Not Prevalent Among Colored

Incidence of this disease which affects speech, hearing and limb movements is less among the colored race, Dr. Phelps said.

Maximum number of pupils required for such a class is 15, the minimum, 10.

According to Dr. Harry F. Latshaw, director of special education in local schools, 60% of the cost would be furnished by government subsidy. The city would provide room with needed changes totaling $600 for the accommodation of classes, books, teacher and other equipment.

Plan Expansion

The government subsidy would include transportation and medical needs. The plan, if approved, will reach its peak in 1959 with the establishment of five classes. It will include kindergarten, primary and intermediate opportunity classes.

After training on the elementary school level, cerebral palsy pupils are able to attend regular high schools, Dr. Latshaw said. Dr. C. H. Halliday said training at the five-year level enables these children to care for themselves.

According to Thomas F. McNulty of the Maryland Association for Cerebral Palsy, the City Council resolution to the Board of Estimates requesting funds is expected to be supported.

The matter was referred to the board of superintendents for a report at the next general board meeting.

TRUCK DRIVER FINED $5 FOR DUMPING REFUSE

Eddie Jones, 31, 687 Pierce St., was fined $5 and costs in South western police court Wednesday for dumping refuse on a lot in the 1500 block of Russell St. Following an automobile over the curb in the same block, he received an additional $5 fine which was suspended.

GOP Candidate Heads New Civic Group

A group of civic-minded citizens held an initial meeting at 641 W. Lafayette Ave. Wednesday evening and set up a body known as the "New Alliance Organization."

Charles A. Reid, Fourth District Republican candidate for the City Council, is director of this new organization, which has as its purpose the betterment of all types of civic problems.

The group presently plans to conduct a campaign on Pennsylvania Ave. to secure more employment for members of their race in those shops which use only white clerks and bookkeepers.

To relieve Shortages in things you need...

THE PICTURE IN STEEL 1939 vs. THIRD QUARTER 1946

STEEL MILLS are working day and night. Steel production is setting peacetime records. This is good news for you.

In one way or another steel helps make almost everything you use—cars, washing machines, refrigerators and countless other things.

By pushing its production to record-breaking volume, the steel industry is helping hundreds of other industries get going.

However, the mills are not yet able to supply the full demand for steel. This is largely due to the loss of 12,000,000 tons of steel production this year from strikes in steel, coal and other industries.

The mills are trying hard to make up the lost output. If the present production pace can be continued, there should be enough steel for normal needs before many months are past.
