EDITORIAL EXCURSION.—The Association of Maryland Editors have determined on an excursion over the Baltimore and Ohio railroad to Harper's Ferry, Winchester and Jordan Springs, starting on Thursday, the 5th day of August next. The officers of the road have tendered the editors the use of their road for the trip, and will, if there are fifteen on the trip, provide a special car for the occasion. The trip will occupy four or five days. The route is one full of historical incident, including a view of Harper's Ferry, the Potomac river, Jefferson's Rock, the Shenandoah river and valley, Charlestown, Berryville, Winchester, &c., places which have all become prominent on account of being the theatres of many stirring events in the late war. The Hagerstown Mail says:

"The party will leave Barnum's Hotel, Baltimore, on the morning of the 5th, in time for the mail train west, and editors along the line of the road are invited to join it (if they cannot do so at the start) on the route. It is contemplated by the excursionists to first visit Jordan Springs, near Winchester, an invitation from E. C. Jordan, Esq., the proprietor, having been kindly extended."

AN EXPEDITION TO EXPLORE THE COLORADO.—The San Francisco Bulletin has the following of the proposed exploration of the White Pine region:

"There is a territory about the headwaters of the Colorado, with an area as large as Illinois, about which nothing is known of any practical value. One or two persons have made the passage through the great Colorado Canon, and now and then a pioneer hunter or miner has looked from its heights into its fearful chasms. But we know little or nothing of the topography of the country, what inexhaustible mines of precious metals it may contain, and more important still, what great table lands and rich valleys it may have adapted to agriculture and to the maintenance of a dense population. We do not even know from authentic sources whether the Colorado is navigable above the Great Canon, and we know even less of two or three of its largest affluents.—The Flax river is traced on maps for more than two hundred miles through northwestern Arizona; but the country through which it flows has been shut out from civilization, and even from thorough exploration. We hear of fierce savages, of floods and droughts, of semitropical verdure, and of mineral deposits richer than have been developed in any other part of the country. We shall never know how much of truth or how much of fiction there may be in these reports until a thorough exploration has been made.

CIRCUMSTANCES ALTER CASES.—The New England journals are indulging in gloomy forebodings as to the effect that the census of 1870 will have upon the representation of the several States in Congress. It is believed that the unparalleled growth of the Western States in population will reduce the number of Congressmen from the old States, and therefore a system of representation composed of two elements, population and wealth, has been openly advocated. The Providence Press, in commenting upon this subject, says "the West is superior in numerical strength, the East is far superior in financial importance. This fact will necessitate the consideration of the just basis of apportionment, that the section which contributes of its capital to promote the material growth of the country may not be compelled to be satisfied with a small minority in the House of Representatives, while the West dependent, at least in the early part of its history, upon the favor and patronage of the East, may not have a controlling voice in Congress, and so distribute the capital which they do not own as to enhance itself at the expense of the rest of the country" As the constitution provides that representatives and direct taxes shall be apportioned among the several States according to their respective numbers of persons, no change can be effected without an amendment to that instrument. This idea, however, of New England attempting to hold on to an undue proportion of power in the Union by means of its wealth, accumulated in large degree by class legislation, excessive protection, &c., at the expense of the rest of the country, is a pretty bold one to announce, and is not likely to be received very amiably by the large populations whose interests are to be taken care of "according to their respective numbers" in the other States of the Union. There is hardly any other quarter of the country than New England that would have presumed to advance such a proposition at this day, and in the face, too, of the successful crusade which that section has made against the representation which formerly existed of certain property involving persons in the Southern States.

A RADICAL paper says that the Democrats profess to worship the Constitution of the United States. Well, the Radicals profess to worship the negro! Which is preferable?

The Morning Star Bitters Co.,

HAVE determined to present their Bitters to the public, knowing that they will sustain the merits claimed for them. This is no novelty in the market, having been before the public for the last ten years, and has everywhere stood the test of the most searching scrutiny. This Medicine is accurately compounded from the purest ingredients by experienced chemists. Neither is it claimed that the ingredients were hitherto unknown to the medical profession, on the contrary the various component parts have for a long time (some for centuries) been used by the most skeptical and experienced Physicians as a Specific in cases of Dyspepsia, Poverty of the Blood, Nervous and Billious Headache, and many diseases arising from derangement of the Digestive Apparatus It is not claimed for this article that it will cure all diseases In BILIOUS FEVER and CHILLS AND FEVER, its value not only as a relief, but as an actual cure, has been fully proved. It is especially recommended in all diseases resulting from an impoverished state of the Liver, such as Hepatic Congestion, Biliary Obstruction, excess of Bile, &c.

It is recommended by prominent Medical men, who though opposed in principle to all patent or proprietary Medicines, have been forced by the result of their experience with the M. S. BITTERS, to recommend its use to their patients and the general public. We append a few of their certificates:

CHURCH CREEK, Aug. 15, 1866.
Having been made acquainted with the composition of the "Morning Star Bitters," I have no hesitation in stating that they are well adapted to cases of debility of the digestive organs, in which a purely vegetable tonic is required. THOS. KING CARROLL, M. D.

No. 230 BARRE ST., BALT., MD.
I hereby certify that for a number of years I was afflicted with Dyspepsia, it resisted all treatment and finally became so bad that I was compelled to abandon my business, regarding the case as hopeless. A persevering use of the M. S. Bitters completely removed the troubles.

URIEVILLE
GRIST AND SAW MILLS.

THE undersigned having rented the above well known Mills, takes this method of informing his friends and the public generally that he is now prepared to accommodate them in GRINDING and SAWING, having at both Mills competent and reliable men.

The Mills are in excellent condition for work, and all who favor him with their patronage may rely upon full justice in every respect being done them, and as good a turn-out for Grist as can be had at any Mill in the county. By giving his entire personal attention and a determination to leave nothing undone to give satisfaction to his customers, he hopes to receive a liberal patronage.
my29-6m. H. M. ROLLISON.

May 25th, 1869.

WE have this day completed extensive repairs on the MILL, which enables us to grind more than ten bushels of good Meal in one hour, and more than eight bushels Wheat. If any one doubts it, I invite him to call, and I promise to convince him We can accommodate all that may find it convenient to send, in the best possible manner. We have also repaired the Mill for grinding Plaster, and Corn in the ear, etc.

N. B.—I have been compelled to expend quite a large amount of money in the repairs or incur great loss and the public much inconvenience; I would therefore take it as a great favor for any one owing me to call and pay their indebtedness, or any part of it. I have called where I thought it most likely to succeed and failed, and am discouraged from further attempts. This may find some prepared whom I least suspect. If so, I shall be spared the mortification of selling paper or borrowing money.
Most respectfully,
my29-tf. THOS. H. WHALAND.

To My Friends and the Public.

FEARING that I may not be able to undergo the arduous duties of my profession, I have this day associated with me Dr. J. A. PERKINS. From my knowledge of Dr. Perkins, I without hesitation recommend him to my patients. If any one should object to the services of either, they will so state when sending, that anything unpleasant may be avoided. The one preferred will give all or most attention. Consultations will be held without the consultation fee. Our charges will correspond with those who practise around us. We herewith offer our services and pledge our best efforts to discharge our duty.
T. H. WHALAND.

N. B.—I shall proceed to settle my old books, by legal process, upon all accounts remaining unsettled for more than two years.
