PHYSICIANS' REPORT.—Concluded.

The total number of visits made amounted to 1,909, as shown below—

1st Police Physician's District	637
2d Police Physician's District	512
3d Police Physician's District	760
Total	1,909

There were 43 physical examinations made of persons who were candidates for appointment on the force—the number of examinations being equally distributed among the three police physicians. Three of the subjects of these examinations were reported as physically incapacitated, and were rejected by the Board of Police Commissioners.

There were 5 medical surveys held on officers and men whose fitness for duty and usefulness to the department was a matter of doubt. Of this number 3 were placed on the pension roll, the remainder continued in active duty.
