National Camp Meeting.

Messrs. Editors:—Will you allow me a brief space in the columns of your paper, to say a few words to those interested in the National Camp Meetings of 1870?—Camp meetings have *always* been the means of awakening the religious interests of the people, and producing a vast amount of good. Round Lake, and others of an *earlier* date, might be mentioned, did we deem it necessary.

Again, the public will be afforded the opportunity of feasting on the bread of life and of having their spiritual strength renewed. The National Committee have decided to hold *three* meetings this year—the first at Asbury Grove, Hamilton, Massachusetts, June 21st; the next at Wilton Grove, Oakington, Maryland, July 12th, and the third at Des Plaines, Ill., Aug. 9th, each to continue ten days.

But our object is to call special attention to *Wilton Grove Camp*, held near a station on the P., W. & Balt. Railroad, about two and a half miles from Havre de Grace. The *locality* of this—the Oakington Camp—is a pleasant grove of ample size, and is near the railroad. It is as fine a place for a large camp as could be found anywhere, being but a short distance from the beautiful Chesapeake Bay and Susquehanna River.

Havre de Grace, situated at the junction of the Bay and River, commands a delightful view, and is in direct communication with the Camp ground. The inhabitants of this vicinity number several thousand, so that taking everything into consideration it is well suited to its proposed use. All those of *every* Christian denomination, who are interested in the subject of Christian holiness, are cordially invited to attend. The *experience* of this great salvation, is what we all *need*. Let us labor, hope and pray earnestly, fully confident that all these meetings will be crowned with God's blessing. S.

THE NEW YORK CHRISTIAN CONFERENCE—*Action of the London Ministers on the Invitation.*—The London papers of May 24 contain rsports of the meeting in that city on May 23 to consider the call of the friends of Evangelical Alliance to a Conference in New York in September next. The Lork Mayor presided. Among those who attended were the Earl of Chichester, the Bishop of Ripon, Lord Alfred Churchill, Mr. Macfie, M. P., Mr. Kennaway, M. P., the Rev. Canon Conway, the Rev. Dr. Binney, Col. the Hon. S. Jocelyn, the Rev. Thomas Nolan, the Rev. Dr. Jobson, President of the Wesleyan Conference, the Rev. Dr. Steane, the Rev. Dr. Stoughton, the Rev. W. Tyler, the Rev. Henry Allon, the Rev. Dr. Blackwood, and the Rev. W. H. Bidwell, of the United States. The Lord Mayor urged that "the invitation from America should be answered by the whole people of England. Our common Protestantism was no doubt overlaid by a great amount of noise, and the time was come when calmly and quietly as Christians they should submit that there was such a thing left in the world as a sound, old Protestantism. It was their duty to uphold the evangelical strength of the people of American." The Rev. Dr. Steane explained how the meeting had arisen, and reviewed the Conferences previously held in London, Paris, Berlin, Geneva and Amsterdam. The Earle of Chichester moved "that the meeting having heard with much interest the statements explaining the objects and arrangements for carrying out the proposed Conference of Christians of various lands about to be held in the United States, are of opinion that there are innications in the present day, especially in the state of Christian Europe, that loudly call for united action on the part of all who love the Lord Jesus Christ in spirit and in truth. They hail, therefore, with satisfaction the projected Conference as likely in their judgment to exercise a beneficial influence upon nations, and upon the Church of God throughout the world." The present times were such that there was a peculiar obligation upon all Christians to endeavor to unite more than they had ever hitherto done.—A message, he added, had recently been forwarded by cable to New York from this country, to know how far the Government of the United States was disposed to take part in the movement. The answer was, "the President, the Vice-President, and the Secretary of State cordially approve the Conference." The Bishop of Ripon, although not a member of the Evangelical Alliance, sympathized with the present movement, because he believed the Conference would be a most important manifestation to the world of the deep unity which exists among real Christians. Protestants were often taunted with a want of unity, and it is said that the only church which possessed unity was the corrupt and apostate Church of Rome. That assumption was utterly false. However much Protestants might be divided upon non-essentials, they were agreed upon all fundamental articles of faith; and the points upon which they agree were more than those upon which they differed. The approaching Conference, he believed, would be a witness to Protestant truth, and a proof that it was not a mere negation. On the motion of Mr. Macfie, M. P., seconded by Dr. Blackwell, and supported by Mr. Kennaway, M. P., thanks were voted to the Americans for their kind invitation, and hopes were expressed that the peace, and amity, and Christian charity, which both countries desired would be much strengthened by the Conference.

THE Republican papers everywhere are telling how the "Democratic frauds in New York city have overriden the Republican majorities in the country." The truth of this will at once be recognized when it is known that without counting a single Democratic vote in New York city, the Democratic majority in the State was nearly thirty thousand. How is that for fraud?

THE New York (daily) *News* pronounces the Radical party dead. It died of the Fifteenth Amendment and the late New York State election. It could not survive that *ninety thousand* Democratic majority. The name of the defunct will be changed, and hereafter its ghost will stalk about the rural districts disguised under the name of the "nigger party." The white Democracy are after his ghostship with a sharp stick.

THE new Illinois constitution sets out for perfection, by first providing that it shall never be changed.

THE INFAMOUS ENFORCEMENT BILL.—We wish we could impress upon the people of this State something like a true conception of the magnitude and importance of the one paramount issue now dividing the people of this country. Never before in the history of our country have the rights and liberties of the people been in such imminent peril as at present. Never has any Congress, since the formation of the Government, so boldly and audaciously legislated for the interests of party, and in conflict with the Constitution and the equal rights of the people, as the Congress now in session at Washington has done, and still persists in doing.

The whole national fabric which the fathers of the Republic reared is in constant danger of being toppled over into monarchy by the revolutionary acts of Radical power. Little by little the people's rights are filched away, and unless they speedily check the mad ambition which marks the career of the National Administration, the lost liberties of the American people cannot be restored to them till fields of blood be traversed, and carnage and desolation stalk abroad throughout our once happy land.

If our people—the toiling masses of our country, especially—could only be brought to realize the gravity of the crisis, they would at once forget all past disputes, pass by all minor differences of opinion, and as a prime necessity—in its very nature a platform sufficiently broad and strong for any party that shall ask public confidence—insist that no mixture with lower races shall be permitted to degrade the blood or government of the American people. That God, in his infinite wisdom, having put this government into the hands of a race of people possessing the attributes of Christianity, Morality and Intelligence, intended it for a higher and nobler destiny than that of developing the merely animal instincts of a degraded populace, itself bearing upon its every brow the mark of inferiority fixed there by the Divine hand.

If the people will ponder these facts, reason them out to their just and legitimate conclusions calmly and dispassionately, and act accordingly, all may yet be well, and the nation saved from the universal reproach of the civilized world.—*Wilmington Statesman.*

AN odd case occurred in the United States District Court in Philadelphia last Friday. The Court had been trying one Sherman for selling counterfeit beer stamps. One of the witnesses, Witeman, a Government detective, testified with great glee that he palmed off upon Geo. Mountjoy a bundle of blank paper which the receiver supposed to be spurious currency, for which Witeman was paid $4,000 in good money. He informed the Court that this was what was known among the detectives as "the Boodle game." Judge Cadwallader was not so much entertained by these disclosures as the deponent expected that he would be. On the contrary, his judicial wrath was so much excited that he held the shrewd and funny United States detective to bail in $10,000 to take his trial for swindling, and, not being able to furnish bonds, the humorous detective was locked up. We trust that this decisive action of the Court may diminish the number of "set up jobs," at least in Philadelphia.

TWENTY-SEVEN prisoners, fourteen white and thirteen colored, were released from the Maryland Penitentiary on Monday last, by Executive Clemency. Pardon was received for one man who died just as Governor Bowie's pardon reached him.

The Living Machine.

Injure the main spring of a watch and every portion of the works become disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs, and controls to a certain extent, the whole living machine. The comparison may be carried further: for as the weakness or other imperfections of the main spring is indicated on the face of the time-piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid; the complexion is sallow or faded, the eyes are deficient in lustre and intelligence and there is a worn, anxious expression in the whole countenance which tell as plainly as written written words could do, that the great nourishing organ whose office it is minister to the wants of the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the one thing needful. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopœia have been exhausted, without at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful stomarchic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and reinvigorating every secretive and assimilating organ on which bodily and mental health depend.

TRUSTEE'S SALE OF VALUABLE REAL ESTATE.

BY VIRTUE of an order of the Circuit Court for Kent county, sitting in Equity, the undersigned, as trustee, will offer at public sale at the Voshell House in Chestertown, Maryland, on

THIS FARM CONTAINS
334 ACRES,
of which thirty-three are in a detached WOOD LOT, nearly all the residue is arable and divided into six fields, each having a good supply of water, and under good fencing. The soil is natutally of the first quality and is in good heart.

In view of its situation and productiveness this farm is justly esteemed among the finest estates in the lower part of the county. It lies in a well settled, thrifty and healthy neighborhood, on the public road from Rees' Corner to Edesville, and a branch of the North West branch of Langford's Bay, on which it has the advantages of
A Fine Public Wharf AND LANDING.
Churches, Schools, Mills and Post Office are all very convenient, the latter only a mile off; and is within four miles of the Steamboat Landing on Grey's Inn Creek, and it is now contemplated to have shortly a steamer on Langford's Bay, and at this public landing must be her most important stop, as it lies at the head of steamboat navigation on that branch of the Bay.

The soil of this farm is well adapted to grain, fruits and vegetables, and the location to any public business, such as buying and freighting grain and produce, selling lumber, or keeping a general country store; and with these rare business facilities it combines all the advantages of our most desirable water situations. All the luxuries our waters afford may be here had and enjoyed in their greatest perfection, at no other cost than that incident to the pleasure and amusement of their pursuit.

This Farm is divided by the public road; throwing it is supposed about 240 acres on the left next to the bay, and about 60 acres on the right. It will be offered in parts and then as a whole, and sold as may be found most advantageous.

The Improvements
Are a New, Large and conveniently arranged
DWELLING,
