

Anty Drudge Invited to Take an Automobile Ride.

Miss Spic-a-span (joyfully) - "Hello, Anty Drudge! Come take a ride with me!"

Anty Drudge-"My! An automobile! How extravagant." Miss Spic-a-span-"No. I earned this with my painting. And I do all my own housework. This is washday, but I was through by 12 o'clock. That Fels-Naptha you told me of is like sunshine on a rainy day. Why, the hanging out is the hardest part of my washing."

If time is money, Fels-Naptha will save you money and lots of it every washday.

Perhaps you don't consider your time is worth money. But your coal is, and your clothes are, and you certainly value your health.

Fels-Naptha saves your coal or other fuel because it cleanses your clothes in cool or lukewarm water, with no need for a hot fire to heat water or boil your clothes, either in summer or winter.

It saves your clothes because there is no boiling to weaken their fibre and no hard rubbing to wear holes in them.

It saves your health because it takes all he back-breaking work out of washday and removes the danger of catching cold om overheated room or steaming suds.

Aren't these things worth saving? If you think so, get Fels-Naptha and ise it according to directions on the red and green wrapper.

we are on the eve of abundant prosperity, and in my opinion one thing likely to prevent the setting in of such a period would be the re-election of President Taft and the one thing that would make prosperity most certain would be the election of Governor Wilson. This opinion is based upon my In Open Letter He Says Issues belief that for the business world nothing else is so important as stability.

Stability is impossible with Mr. Taft as president; there has been no feeling of stability during his administration.
