"UNION" REPUBLICAN CONVENTION.

ANOTHER MEETING.

An adjourned meeting of the State Convention of the "Union" Republican Party (as its supporters style it) was held in Baltimore on Thursday of last week, and was called to order by Col. Edw. Wilkins, of Kent (president of the former meeting.) The proceedings which follow evidently show that the *object* of the meeting was to forestal the action of the regularly constituted Republican State Convention by the *nomination* of candidates for the various State offices, and forcing them upon the party for its support. The fact that the Convention was composed entirely of self-constituted delegates, without any authority to speak for the party, renders this action the more remarkable and extraordinary. It will be seen that it was insisted by some that the word "nominate" should be retained in the resolutions, and that the gentlemen named should be the candidates, whether the party wanted them or not. The *American* deprecates the adoption of the resolution directing the appointment of another State Central Committee, "which," it says, "would be antagonistic to that now in existence, and hence would create two separate organizations." The following abstract of the proceedings is taken from the *American:*

On motion of Mr. Jas. T. McCullough, of Cecil, a committee, consisting of one from each county and senatorial district of Baltimore city, was appointed to report business for the Convention, which, after a short absence, through its chairman, Col. Wilkins, submitted the following:

Resolved, The the President of this Convention be and he is hereby authorized to appoint a State Central Committee, to consist of ten persons from the city of Baltimore and two persons from each of the counties of the State.

Resolved, That this Convention nominate for the support of the people of the State at the next general election the following candidates:

For Governor—Hon. Jacob Tome, of Cecil.

For Attorney General—Hon. George A Pearre, of Allegany.

For Comptroller—J. Henry Sellman, of Anne Arundel.

Resolved, That the members of the State Central Committee for the several counties and of the city of Baltimore, to be appointed under the first resolution, be requested to call meetings of all persons opposed to the Democratic party for the purpose of ratifying the above nominations, and of nominating for the support of their people suitable persons to fill the various county offices.

REMARKS OF MR. M'CULLOUGH

Mr. J. T. McCullough, of Cecil, said that before the report was adopted he desired to submit to the Convention the same views that he had expressed in committee. He was willing to recommend the gentlemen named as proper candidates for the Republican party, but, constituted as the Convention was, he regarded it as only an advisory body, and did not think that it had the power to make nominations.

The Chair (Mr. Hancock) suggested that debate was out of order, for the reason that no motion had been made either to receive or adopt the report.

Colonel Wilkins, of the committee, said that the report was now before the Convention for its action.

Mr. McCullough moved that the word "nominate" be stricken from the first resolution and the word "recommend" substituted, and proceeded to give the reasons that induced him to move the amendment. He came here in a certain measure self-appointed. He had supposed that the purpose of the Convention was merely to suggest measures by which all the elements opposed to the Democratic party might be brought into one organization and made to work harmoniously together. The usual method of forming a Republican State Convention is for the people to name their delegates through their primary meetings and their county Conventions, and when nominations are made by a Convention constituted in this way every Republican is bound by the action of the Convention. The nominations made by this Convention would not bind any one.

REMARKS OF MR. PUGH.

Mr. J. B. Pugh, of Cecil county, said that he had a conversation with Mr. Tome some days since, and that he had suggested to him the probability of his being nominated for Governor by this Convention. Mr. Tome said that he was not then prepared to say whether he would accept the nomination of this Convention or of any Convention. Knowing that the gentlemen comprising the Convention were favorably disposed towards Mr. Tome, he (Mr. Pugh) put the direct question to him. "If you are nominated will you accept?" Mr. Tome replied that he would not accept. Mr. Pugh further said that he thought it nothing more than fair to Mr. Tome that this statement should be made.

AN IMPORTANT QUESTION.

Mr. Counselman, of Baltimore city, inquired to whom it was proposed to recommend these candidates.

MR. WHITNEY ANSWERS.

Mr. Milton Whitney—If I understand my friend from Cecil (Mr. Pugh) aright, he informs us that Mr. Tome was not prepared to say whether he would accept the nomination or not. [Voices—He said that he would not accept it.] My friend from Baltimore (Mr. Counselman) wishes to know to whom these candidates are to be recommended. He answered certainly not to any Convention that may be hereafter called by the State Central Committee, but they are commended to the people of Maryland for their support.

REMARKS OF COL. WILKINS.

Colonel Wilkins said: We have met for cordial co-operation in an effort to harmonize the Republican party, and we can see no better way of doing this than by nominating the gentlemen mentioned in the resolution, who have the confidence of the entire party, and upon whom all elements can unite. If the State Central Committee that is to assemble on Wednesday next does not accept these candidates, then they must take the responsibility of rejecting them, and the fault is theirs, not ours. If Mr. Tome accepts the nomination of this Convention, or if he chooses to wait until another Convention meets, and he accepts the nomination of both Conventions, we will support him; but we are not content that we should have a man forced upon us by a triumvirate sitting in the city of Baltimore. I hope that the word "nominate" will be retained.

REMARKS OF DR. W. G. TUCK.

Dr. W. G. Tuck, of Annapolis, said that when he received an invitation to participate in this Convention he understood that it was called for the purpose of reconciling the discordant elements in the party and promoting peace. He had not the least idea it was called for the purpose of nominating candidates for State offices. He did not think that it had any such authority. It had a right to recommend candidates. Any Republican had a right to recommend his favorite candidate. It exceeded its authority when it attempted to nominate.

AMENDMENT CARRIED.

The question was then taken on Mr. McCullough's amendment to strike out "nominate" and insert "recommend" by a rising vote, and it was carried, 23 voting in the affirmative. The vote in the negative was not announced, but, there was some opposition.

The third resolution was then amended by changing "nominate" to "recommend."

MR. TOME'S OPINION.

Before taking the vote on the report as amended the Chairman *pro tem.*, Major Hancock, said that he felt that it was due to Mr. Tome to state that, in answer to a letter which he (Major Hancock) had written to Mr. Tome with regard to this nomination, Mr. Tome had given it as his opinion that this Convention ought not to make any nomination.

WORDS OF SENSE.

Mr. John B. Baker, of Harford, said: "If the object of this Convention is conciliation and the bringing together of the discordant elements, I am afraid that the resolutions just reported will not effect that object. I am afraid that the setting up of another State Central Committee in opposition to the one already regularly constituted will create confusion and discord rather than harmony. I have no objection to recommending gentlemen standing so high in the party as those named in the second resolution as suitable candidates, but I am in favor of striking out everything else. If we put ourselves in the lead, have we any assurance that the rest of the party will follow?—We have," he said, "no right to create a State Central Committee." Mr. Baker then moved to amend by striking out the resolution relating to the appointing of a State Central Committee.

Dr. Tuck seconded the motion. The question was put and the amendment was lost.

The third resolution was then amended by substituting the word "nominate" for recommend, in the passage relating to county officers.

The question then recurring on the report of the committee as amended, it was adopted, after which the Convention adjourned.

REMARKABLE TORNADO.

Farm Buildings Demolished—Miraculous Escape of Cattle Buried Beneath the Wreck—Singular Freaks of the Wind.

The Wilmington (Delaware) *Commercial* of Monday contains the following:

Between 8 and 9 o'clock Monday morning some men on the truck farms on the south side of the Christianna, near the mouth of that river, heard a singular roaring and rushing noise, and shortly afterwards saw that a whirlwind was passing across their place. It crossed a tomato patch, wrenching and twisting the vines, passed thence into Henry L. Townsend's wheat field, and appeared to gather strength as it went, for as it passed the wheat field it snapped off three panels of fence and then struck a large brick barn, and passed around it to a large hay barn, a building 104 feet long. There it commenced the work of destruction in earnest. It tore the building to pieces, and leveled the very foundation walls on which it was built. It next struck a wheat barn about sixty feet long by twenty wide, and completely demolished it. Thence it passed on a wheat barrack, no portion of which, except the uprooted posts, has since been seen. It next struck a granary solidly built of heavy white oak. The building was too stout to be torn to pieces, but it lifted it off of its foundations, moved it several feet, and then upset a corn crib adjoining it, smashing beneth it a grain drill and a sleigh. It also destroyed one or two other small buildings, and tore up several large trees by the roots, and split in two a large locust tree standing near the house. One of the most singular and fortunate things about the whole affair is that it passed completely around the house, without doing it the slightest damage, or injuring anything within the home enclosure, except the locust tree just mentioned.

Some of the performances seem almost like the fantastic freaks of a sportive genil. The back barn, first struck, was not injured otherwise than by tearing off all its doors, but one of these doors, a large one, which it would require four men to carry, was carried up into the air and whirled about like a sheet of paper.

But the most remarkable feature of the whole affair was that, though twenty cattle were buried beneath the ruins of the large hay barn first demolished, ther all oscaped without any serious injury. In many cases they were pinned closely to the ground by the debris, but as fast as the wreck was lifted from them they got out of the wilderness of confusion around them with whole skins and sound limbs.

The property was owned by Zadoc Townsend, and occupied by his son, Henry L. Townsend.

In company with Mr. Townsend, Sr., we rode over the track of the tempest this morning. We never saw a more complete or thorough wreck. The buildings were so completely torn up that it seemed that there was scarcely one piece of timber left fastened to another. The hurricane spent its fury there, and seems to have divided up into several smaller ones, which damaged a tree here and there, and then subsided.

On the north side of the Christiana, shortly after the ravages of the hurricane on the south side, a whirlwind suddenly seized two large willow trees near the Light-house, tore them up by the roots and hurled them against the Light-house, completely demolishing its porch. We believe it did no further damage.

ANOTHER NEW DEPARTURE.—The Republicans are making merry over the "new departure" of the Democracy and felicitating themselves upon the idea that it will have the effect of distracting the organization, thereby enabling its opponents to maintain their hold upon power. Now, we lay no claim to the reputation of a prophet, and yet we confidently venture the prediction that in October next, there will be another "new departure;" and it will not be that of the Democratic party, but that of the Republicans from their now shamefully abused positions of honor and trust. Those who are skeptical may stick a pin just here if they please.—*Evening Herald.*

A Chapter of Facts.

Space is valuable in a newspaper, and it is therefore proposed in this advertisement to condense a variety of facts, important to the public, into a small compass. Those facts refer to Hostetter's Stomach Bitters—what that celebrated medicine is, and what it will do. In the first place, then, the article is a stimulant, tonic and alterative, consisting of a combination of an absolutely pure spirituous agent with the most valuable medicinal vegetable substances that Botanic research has placed at the disposal of the chemist and the physician. These ingredients are compounded with great care, and in such proportions as to produce a preparation which invigorates without exciting the general system, and tones, regulates and controls the stomach, the bowels, the liver, and minor secretive organs.

What this great restorative will do must be gathered from what it has done. The case of dyspepsia, or any other form of indigestion in which it has been persistently administered without effecting a radical cure, is yet to be heard from, and the same may be said of bilious disorders, intermittent fever, sick headache, mental disheartilities to which the feeble are so subject. It purifies all the fluids of the body, including the blood, and the gentle stimulus which it imparts to the nervous system is not succeeded by the slightest reaction. This is a chapter of facts which readers, for their own sakes, should mark and remember.

THE CONNOLLY TRAGEDY IN NEW YORK—*Terrible Result of a Spree.*—The telegraph has announced the occurrence of a shocking tragedy in New York on Sunday, in which Dr. James Connolly, a well known physician, murdered his two children, little girls, and then committed suicide. The New York papers of Monday give details of the horrible affair. It seems that Dr. Connolly had been two or three days on a periodical spree, and Saturday and Sunday took occasional doses of morphine to quiet his nerves.—About 4 P. M. Sunday he entered the bed room of himself and wife, on the rare of the second floor, taking the children with him and locking the door. The wife soon afterwards endeavored to enter, but without success. The police, warned by the neighbors, entered the house about 7 o'clock and forced open the door. The room being dark, the gas was lighted, when a horrible spectacle was presented.

On the bed lay the father and children, dead, and literally bathed in blood. The children had nothing on but their night clothing. The father was clad in a white undershirt, covered with blood, while a pair of red flannel drawers served to add to the ghastliness of his appearance, leading one to believe at first glance that the clothing was soaked in blood from head to foot. The head-board was spattered with blood, and the bed clothing and mattress were soaked. A rubber ball, with which the children had apparently been amusing themselves, was also blood-stained and lay on the bed. The weapon the lunatic had used lay on the bed. It was a carving knife, with a blade sixteen inches in length, and tapering gradually to a fine point. The throats of both children had been cut, their jugular veins being severed. The throat of the father was cut from ear to ear, and there were besides several stab wounds in the breast in the vicinity of the heart. A physician examined the bodies and announced that death had occurred several hours previous. Mrs. Cornolly was rendered insane for a time by the terrible discovery.

ASHLAND, the home of Henry Clay, has been purchased for the use of the University of Kentucky.

Opposite the Maltby House,
my13-1m. BALTIMORE, MD.

250 SETS. 250 SETS.

Cultivator Teeth! Cultivator Teeth!

WE offer to the Farmers of Kent and the adjoining counties our well-known

Cultivator Teeth,

which have been used for some years with entire satisfaction. They have stood the test, and are considered far superior to the old three-cornered teeth. The old teeth always wear round and blunt, and have no point, while our tooth wears to a point. Their regular crook from the frame to the point makes them draw to the ground and run deep, while they run close to the plant without covering it up.

They are Made of the Best Steel,

and can be bought as cheap here as elsewhere, having reduced the price on them as on the rest of our work.

OUR CULTIVATORS

are of greater length, which makes them run steadier than other Cultivators.

BLACKSMITHING, &c.

We do Blacksmithing in all its branches—Carriage and Machine Smithing—Repairing Reapers and Machines of all kinds.

☞WHEELWRIGHTING done at reduced prices, with seasoned lumber. Farm, Peach and Express Wagons and Dearborns made to order. Everything needful for the farm.

Orders by mail promptly attended to.

CHAPMAN & LAMBERT.
Chestertown, April 29, 1871—tf.

WOOD, WOOD!

THE subscriber has in his Yard on Cannon Street, adjoining Mr. William Vannort's Lumber Yard, a good assortment of

HICKORY, OAK and PINE WOOD,

which will be furnished to the citizens of Chestertown, sawed or in the stick, and split or unsplit, as they may desire, at REDUCED PRICES FOR CASH. Good measure and satisfaction guaranteed.

my27-3m. S. W. RAWLEIGH.

TO THE LADIES!

LAIRD'S BLOOM OF YOUTH.

For BEAUTIFYING and PRESERVING the COMPLEXION and SKIN.

☞Mr. Laird has every confidence in recommending his BLOOM OF YOUTH to the Ladies, as being the only perfect and reliable toilet article now in use. For sale at

TO FARMERS.

"EXCELSIOR."

Containing Ammonia	6 *per cent.*
Super-Phosphate equivalent to Bone Phosphate of Lime	57 "
Poatsh and Soda	5 "

We again call the attention of the Farmers of Maryland and Virginia to our EXCELSIOR, composed of 700 pounds No. 1 Peruvian Guano, and 1300 pounds of Soluble Phosphate of lime (bones dissolved in sulphuric acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of many close calculating Farmers, after Twelve years experience in testing it side by side with other popular fertilizers that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

☞*The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities.*

☞Farmers should see that the 'Analysis' and name of J. J. TURNER & CO., are branded on every bag *in RED LETTERS.* All others are counterfeits.

PRICE $60 PER TON.

J. J. TURNER & CO.,
42 Pratt Street, Baltimore, Md.

To Corn Growers.

J. J. TURNER & CO.'S

Ammoniated Bone Super-Phosphate.

ANALYSIS:

Ammonia	2.83
Soluble Phosphate of Lime	29.51
Bone Phosphate of Lime	10.67

For Corn, Oats and Spring Crops generally it has no superior. Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other fertilizer sold, except our "Excelsior," and made with the same care and supervision—uniform quality guaranteed. Fine and dry, in excellent order for drilling. Packed in bags and barrels. PRICE $50 PER TON.
