msa_sc2901_scm1622-0728 copyright Maryland State Archives

SAN DOMINGO.—It is said that President Baez is making great military preparations. He has received an invoice of Enfield rifles from the United States. Cabral is also said to be preparing for war. Gen. Caceres, of the Baez party, has marched with 500 men to reinforce the army operating against Cabral. The country is much agitated. The American war vessels have left Santo Domingo. The troops of Baez, numbering from 1,200 to 1,500, recently attacked about an equal number of Cabral's forces at San Juan. The latter were defeated with a heavy loss, including two cannon captured. Gen. St. Clair was killed, and eighteen prisoners and the camp equipage taken. When Cabral saw that it was necessary for him to retreat, he ordered the powder-magazine to be fired, which was done, and nearly the whole of the town of San Juan, according to report, was destroyed.

THE LEGISLATURE OF TEXAS has been doing a little in the land-grab way itself. It has been passing "an act to encourage the speedy construction of a railway through the State of Texas to the Pacific ocean;" it being a firm persuasion apparently of the learned body that the State has that body of water as one of its boundaries. The amount of land granted is 22,016,000 acres, a territory almost equal to the States of New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut combined. To balance this intolerable deal of real estate six millions in thirty-year eight per cent. bonds are likewise given the lucky corporators.—Governor Davis on the 24th ultimo vetoed the whole affair, very neatly putting the little game of the company thus: "They propose that the State shall build the road, but themselves shall own it;" which is the doctrine of State aid in a nutshell.

A TRIAL OF STRENGTH.—The recent contest in Ohio for the Republican nomination for Governor was a trial of strength between the San Domingo party and the officeholders on one side, and the independent press on the other.

President Grant and the San Domingo speculators were resolved that Ben. Wade should be the candidate for Governor.—The independent press were for General Noyes; and when the Convention met, Ben. Wade was so powerless in it that he had to withdraw without a ballot, leaving Noyes to be nominated by acclamation. Grant, and the office-holders, and the San Domingo jobbers were nowhere. The independent press had cleared them all out of the field.

Just so it will be next year, when the Republican candidate for the Presidency comes to be nominated. Grant hopes to be the man, and all the officeholders and the San Domingo speculators encourage him; but the independent puts in its veto. Grant will retire—if he is wise he will not wait for a ballot.

A SELF-CORRECTING EVIL.—A New York paper has a note upon an abuse which, increasing in that city year by year for some time past, has at last come to be felt intolerable. Following is the paragraph:

"Church ceremonies will give place entirely to house weddings next winter. A church is really the proper place for a religious ceremony, but so many objectionable features have become apparent in church weddings that society has been obliged to give them up. Announcements made long beforehand in the public press, crowds of vulgar people giggling and talking through the ceremony, unnecessary and theatrical display in the bridal procession, and impertinent reports in the society papers have had their natural ending, and people of refinement don't go to church to get married."

THE burning of the bodies of the soldiers killed around Paris is being vigorously conducted under the direction of the authorities. The French papers state that the process of "incineration" is being carried on between the gates of Versailles and of the Pont-du-Jour, where the atmosphere had become badly tainted. For some days after June 9th, great volumes of smoke, occasionally lighted up by flames, are described as arising upon the horizon to the south of Paris; by day nothing but smoke was to be seen, but at night dull red fires were visible. On the slopes of the hills, near the fortifications, there had been heavy fighting, and lime coke and phenic acid were being plentifully employed to destroy the bodies of the Prussian, French and Communist soldiers, which were thickly strewed about these places. The bodies that had been temporarily buried inside of Paris have been exhumed and re-interred in the Bois de Boulogne, the cemeteries being no longer available.

IN reference to the statement that a man named Springer is claiming Wilmington, Delaware, the *Gazette* has the following:

A few days ago a gentleman, who claimed to be one of the heirs to the Springer estate, came to our office with a Baltimore lawyer and searched the files of the *Gazette* with a view to get some information on the subject in question. And we presume the paragraph originated from these gentlemen. As the lease alluded to, if ever it had any existence, expired over one hundred years ago, and our people have had undisputable possession for over twenty-one years, there will be no occasion for the predicted "terrible rattling among the dry bones."

THE CANADIAN DOMINION.—In this country, as yet, we have incorrect ideas of the value of the so-called "Dominion." Independent of its wealth in lumber, cereals, metals, animals, manufactures and fish, it actually is *the fourth maritime power in the world*. Last year it possessed 7,591 merchant ships, with a tonnage of 899,090 tons. This places "The Dominion" ahead, in maritime power, of every nation except Great Britain, the United States and France. The strength of the militia and volunteer corps is 656,066. The population at present is 4,700,000.

SOME idea of the magnitude of the Irish potato crop of the vicinity of Onancock, Accomac county, Virginia, this season, may be formed when we state, and that upon good authority, that the weekly cash receipts to producers, per steamer *Maggie*, will average $2000; this amount is not the half which that vicinity is realizing, as some five or six "pungies" are running the same product to market.—*Newtown Gazette.*

A WEST VIRGINIA man thought to have some nice fun frightening a boy by playing panther, clothing himself in a panther's skin, and suddenly appearing before him in the woods near his house.—But the boy failed to see the joke, good as it was. He went back to the house, got his father's rifle, rested it on the fence and shot that panther, and there was a funeral from that man's late residence two days after.

FORTIFICATION.—It is reported that the United States government has consummated a contract with a farmer, near Delaware City, for sixty acres of land, at $300 per acre, for the purpose of building an auxiliary battery to Fort Delaware, and that work will commence immediately at Finn's Point.—*Middletown Transcript.*

JEFF. DAVIS declines to lecture in Mobile, because, he says, his words would be abused by political opponents in the North to injure his Southern friends.—The following is the text of Mr. Davis's letter:

"*Memphis*, June 22, 1871.—Major W. T. Walthall—My Dear Sir: With sincere thanks for the kind consideration shown by the Mobile Franklin Society, I feel compelled to decline the invitation to deliver a public lecture before the association.

"It surely would not be difficult, with the freedom you allow in the selection of a subject, to avoid any expression which could fairly be used to the injury of my Southern friends, but it would hardly be possible under existing circumstances to prevent my words from being abused for such a purpose.

"Hopefully looking forward to the better day when such restraints shall no longer exist, I beg you to make my acknowledgments acceptable to your associates, and to accept for yourself assurances of the high regard with which I am your friend. JEFFERSON DAVIS."

A NOVEL LOCOMOTIVE.—*The New Narrow-Gauge Engines Now Building in Philadelphia.*—The Baldwin Locomotive Works, in Philadelphia, are now building some narrow-gauge locomotives for the Denver and Rio Grande railroad, on the new principle of the very narrow three-foot gauge. The first of these engines has just been completed. Its completion signalizes the "new departure" in railway practice, and consequently great interest is naturally attached to it. The engine is six-wheeled, four of the wheels, forty inches in diameter, being coupled as drivers, and one pair of leading wheels in front having a swing bolster and radius bar, forming what is known as a "pony truck." This arrangement enables the engine to pass short curves readily, as the rigid wheel base is only six feet three inches. Its total weight in running order is 25,300 pounds, of which 20,500 are carried on the four driving-wheels and so are available for adhesion.

The proportion of driving-wheels relatively to the stroke of piston admits of a speed of 30 to 40 miles an hour, with a facility equal to that on the full gauge.

This Philadelphia manufacturing establishment now holds contracts to furnish locomotives for quite a number of narrow-gauge roads both in this country and Canada. The firm also receive by every mail letters and inquiries for information on the subject from all parts of the United States, from Mexico, from the British possessions, from South America, and from Americans residing in India and China.

THE new horse, Startle, four years old, and Bruno, both belonging to Mr. Robert Bonner, of New York, were timed over Fleetwod course on Friday last.—Startle made his mile in harness, with a 203 pounds driver, in 2.29¼; Bruno did a half mile, under the saddle, in 1.5¼.—This is the fastest half mile trotted on record.

REV. E. D. SAUNDERS, of Philadelphia, on Saturday gave the Presbyterians of that city $1,000,000 to found a Presbyterian Hospital.

A Few Words to the Ladies.

Many ladies, particularly mothers nursing, complain of a tired listless feeling, or complete exhaustion, on arising in the morning. On the wife and mother devolves the responsibility of regulating the duties of the household. Her cares are numerous, and the mental as well as the physical powers are frequently called into requisition. She often finds her slightest occupation a weary task and existence a burden, while at the same time she has no regular disease. Hostetter's Stomach Biters, if resorted to at this period, will prove an unfailing remedy for this annoying lassitude. The effects of this potent agent are soon seen in the rosy cheek and elastic step of the head of the family, as with restored health and renewed spirits she takes her accustomed place in the family circle. If this friend in need be regularly used, those depressing symptoms will never be complained of, and not only would lassitude not be experienced, but many diseases following its advent be avoided. As a medical agent it has no equal, while its pleasing flavor and healthful effects have made it a general favorite. It is free from all properties calculated to impair the system, and its operations are at once mild, soothing and efficient. All who have used the Bitters attest its virtues and commend it to use.

CYPRESS FENCING.—Just received, a large lot of Cypress Fence Boards, and for sale by WM. VANNORT, Chestertown.
je3.

HARVEST GOODS!
June, 1871. THOMAS S. WICKES.

THE EUREKA FANNING MILL.
THE GREATEST INVENTION OF THE NINETEENTH CENTURY!
Farmers Look to Your Interest!
THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public.
It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras—EUREKA!—signifying in the Grecian language, "I have found it." This has given the name to this new Mill.
In this Mill are all the former improvements to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention:
It combines ECONOMY, UTILITY and PRACTICABILITY!
THE "EUREKA" MILL
is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented.
IT IS THE ONLY MILL
that will successfully remove from wheat all such pests as Cockle, Garlic, Oats, Rye, &c.
Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.
HINES & BURCHINAL.
Chestertown, Maryland,
Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of Noland & Co., Port Deposit, Md., which is a guarantee that they will be put up in the best manner. je17-tf.

Corner Stone Laying!

THE Building Committee of STILL POND SCHOOL have arranged for the very interesting ceremony of Laying the Corner Stone of the NEW SCHOOL HOUSE AT STILL POND, on

MONDAY, July 17th,
At 10½ o'clock, A. M.

This will be an occasion of much interest.—The committee have secured the Corner Stone and contents of the old Harmony School House erected half a century ago. These antiquated relics will be placed in with the new Corner Stone. Addresses will be made by Rev. J. A. BRINDLE, J. HORTON KELLEY and others. Still Pond Choir and Sabbath School will assist in the ceremony with select pieces of music—vocal and instrumental.

An invitation is cordially extended to all, especially Parents, Teachers, and Scholars of either week day or Sabbath Schools.
JOSHUA CLARK,
LOUIS HEPBRON,
WILLIAM AYERS,
GEO. W. COVINGTON,
jy1-3t. Building Committee.

R. A. BRICE,
my13-3m. SASSAFRAS, MD.

250 SETS. 250 SETS.
Cultivator Teeth! Cultivator Teeth!
WE offer to the Farmers of Kent and the adjoining counties our well-known
Cultivator Teeth,
which have been used for some years with entire satisfaction. They have stood the test, and are considered far superior to the old three-cornered teeth. The old teeth always wear round and blunt, and have no point, while our tooth wears to a point. Their regular crook from the frame to the point makes them draw to the ground and run deep, while they run close to the plant without covering it up.
They are Made of the Best Steel,
and can be bought as cheap here as elsewhere, having reduced the price on them as on the rest of our work.
OUR CULTIVATORS
are of greater length, which makes them run steadier than other Cultivators.
BLACKSMITHING, &c.
We do Blacksmithing in all its branches—Carriage and Machine Smithing—Repairing Reapers and Machines of all kinds.
WHEELWRIGHTING done at reduced prices, with seasoned lumber. Farm, Peach and Express Wagons and Dearborns made to order. Everything needful for the farm.
Orders by mail promptly attended to.
CHAPMAN & LAMBERT.
Chestertown, April 29, 1871—tf.

Public Road Notice.

THE undersigned citizens of Kent county, hereby give notice that, thirty days after date, they intend applying to the County Commissioners to open a

NEW PUBLIC ROAD

commencing at the division line between Dr. J. A. Perkins and Wm. N. E. Wickes, Esq., and running thence across the lands of Thos. W. Hynson, Wm. Morris and Stephen Lecates, until it intersects the public road leading from Chestertown to Worton, at or near the public School House, on the corner of said Lecates' farm, and to continue the said road (if deemed advisable) across the county, until it intersects the new road at the corner of the late Wm. T. Baker's farm on the Bell Air road.

THOMAS NORRIS & SON,
m6-tf No. 141 Pratt street, Baltimore.

The "Improved Champion" for 1871.
THE CHAMPION
Reaping & Mowing Machines
Are made as Single Mowers, Single Reapers, Combined Reapers with Dropping and Self-Rake attachments, either right or left hand cut. THE MOST COMPLETE COMBINATION IN THE WORLD, successful in every particular, no attachment injuriously affecting the other.
All of the COMBINED CHAMPIONS are wrought-iron framed Machines, securing the greatest strength with the least weight. The only wrought Iron Frame Machine ever made, and the only successful combined two-wheeled Machine in use.
For reference we refer to parties that have used the Machines in 1869 and 1870, viz:
Jno. Greenwood, of W., Isaac Parsons,
Wm. Overend, A. Hurlock,
Alex. Wilson, Wm. T. Hepbron,
Wm. J. Griffith, Lewis Justice,
Benj. S. Startt, John Young.
THE CHAMPION MACHINES

TO FARMERS.
"EXCELSIOR."
Containing Ammonia - - 6 per cent.
Super-Phosphate equivalent to Bone Phosphate of Lime 57 "
Potash and Soda - - - 5 "
We again call the attention of the Farmers of Maryland and Virginia to our EXCELSIOR, composed of 700 pounds No. 1 Peruvian Guano, and 1300 pounds of Soluble Phosphate of lime (bones dissolved in sulphuric acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones.
Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of many close calculating Farmers, after Twelve years experience in testing it side by side with other popular fertilizers that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.
The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities.
Farmers should see that the 'Analysis' and name of J. J. TURNER & CO., are branded on every bag in *RED LETTERS*. All others are counterfeits.
PRICE $60 PER TON.
J. J. TURNER & CO.,
42 Pratt Street, Baltimore, Md.
For sale by ANDREW WOODALL, Galena.
March 18, 1871—3m.

MORO PHILLIPS,
ap1-6m. Sole Prop'r and Manufacturer.

To Corn Growers.
J. J. TURNER & CO.'S
Ammoniated Bone Super-Phosphate.
ANALYSIS:
Ammonia - - - - - - - 2.83
Soluble Phosphate of Lime - - 29.51
Bone Phosphate of Lime - - - 10.67
For Corn, Oats and Spring Crops generally it has no superior. Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other fertilizer sold, except our "Excelsior," and made with the same care and supervision—uniform quality guaranteed. Fine and dry, in excellent order for drilling. Packed in bags and barrels. PRICE $50 PER TON.

For sale by ANDREW WOODALL, Galena.
March 18, 1871—3m.

SPRING. 1871 SPRING.
WE HAVE RECEIVED SOME
SPRING GOODS,
suitable for the season, and invite our friends to call and examine. We will satisfy any judge of goods, if they will take the trouble to post themselves, that there is no mercantile establishment in Kent county that can undersell us. Respectfully,
WM. A. VICKERS.
Chestertown, March 25, 1871.
