U. S. 10-40 BONDS.

These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this Act shall be *exempt from taxation* by or under any State or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period *not less than ten nor more than forty years* from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the actual interest in coin—(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium,) or receive them drawing interest from the date of subscription and deposit. As these Bonds are EXEMPT FROM STATE OR MUNICIPAL TAXATION, their value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they

Pay Over Eight per cent Interest

in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from $50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the bidder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was $768,965,000. The interest on this debt for the coming fiscal year will be $45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over $100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to $150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the

FIRST NATIONAL BANK of Baltimore, Md.
" " " Washington, D. C.
" " " Carlisle, Pa.,

AND BY ALL NATIONAL BANKS which are depositaries of Public money, and all respectable Banks and Bankers throughout the country, (acting as agents of the National Depositary Banks,) will furnish further information on application and AFFORD EVERY FACILITY TO SUBSCRIBERS. [my14-2m.]

COAL! COAL!

He proposes to visit the mines at the period when Coal can be bought at the lowest rates, and ship it direct—thus saving the expense of re-handling. He is now receiving subscriptions of the quantities which our citizens may require; with the understanding that no one will be under obligation to receive it, if he does not furnish it as low as it can be had of any one else.

Subscribers may have the option of Registered or Coupon Bonds, as they may prefer.

FOUTZ'S Celebrated Horse and Cattle POWDERS.

THESE Powders have proved, after a trial of several years, to be superior to any preparation of the kind in use.—The chief superiority of these Powders arises from the fact that they are composed of Medicines that have Laxative, Tonic and Purifying properties. The Laxative ejects crudities from the stomach and intestines, the Tonic gives strength to the system of the Horse, and the purifying medicines contained in them cleanse the blood, and lay the foundation for a healthy and vigorous circulation. The use of them improves the wind, strengthens the appetite and gives the horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal. These Powders are not intended, as most powders are, to bloat the animal, so as to give him the appearance of being fat when not really so—but, to remove the disease and promote his general health.

These Powders will strengthen the stomach and intestines, cleanse them of offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all diseases of the Horse, as Glanders, Yellow Water, Distempers, Founder, Heaves, Slavering Coughs, Fevers, Loss of Appetite, and Vital Energy, &c. These Powders, if used two or three times a week through the winter and spring, your horses will never get the Lung Fever, Colic or Botts. A few doses of these Powders will remove the worst cough on any horse. Were owners of Horses to feed a few doses of these Powders every year they might save the lives of many valuable Horses.

MILCH COWS.

The properties this Powder possesses in increasing the quantity of Milk in Cows give it an importance and value which should place it in the hands of every person keeping a Cow. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

HOGS.

In all diseases of Swine, as Coughs, Ulcers in the Lungs and Liver, &c., by putting from half a paper to a paper of these Powders in a barrel of Swill, the above diseases can be cured or entirely prevented. By using these Powders the Hog Cholera can be prevented. Prepared by S. A. FOUTZ & BROTHER,
