IMPORTANT to FARMERS!

The Great Fertilizers!

WHANN'S
Raw Bone Super Phosphate

FARMERS who are about purchasing Fertilizers for seeding their WHEAT should by all means use
WHANN'S
RAW BONE SUPER PHOSPHATE,
which for the past thirteen years has met with unexampled success on this important crop.
WHANN'S RAW BONE SUPER PHOSPHATE is not a mere temporary stimulant, but an active and lasting manure, showing its beneficial effects throughout several seasons. It produces large crops of Wheat and a great yield of clover.
Farmers who have been disappointed in the use of other Fertilizers are invited to give WHANN'S a trial alongside of any manure in the market.
The following testimonials from two well known Farmers in this neighborhood, will be appreciated:

LYNCH'S STATION, KENT CO., MD., July 31, 1873.
Messrs. Walton, Whann & Co.,
Gentlemen:—I have used Whann's Raw Bone Super Phosphate on my wheat for the past two years. I am exceedingly well pleased with its action and regard it as an excellent article.
Yours, respectfully,
JAMES A. ROSEBERRY.

CHESTERTOWN, KENT COUNTY, MD., Nov. 23, 1872.
Messrs. Walton, Whann & Co.,
Gentlemen:—I have been using Whann's Raw Bone Super Phosphate on my Farms near Chestertown for seven or eight years, and while I have made changes in some other Fertilizers, *Whann's has given me so much satisfaction that I have continued its use.* I believe it to be a permanent improver of the land while it is prompt and reliable in its action on crops. Yours, truly, S. LECATES.

To WHEAT GROWERS

"Excelsior,"

1873. 1873.

Composed of 800 pounds of No. 1 Peruvian Guano, and 1200 lbs. of Soluble Phosphate of Lime, (bones dissolved in sulphuric acid,) Potash and Soda,

Forming the most concentrated, universal and durable fertilizer ever offered to the farmers, combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones.

"EXCELSIOR"

is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity however small, per acre, and it is the opinion of many close calculating Farmers, after 14 years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.
Look out for imitations and counterfeits. The popularity of Excelsior has induced *unscrupulous* parties in this and other cities to copy our trade mark, and resort to other *dishonorable* means to sell their *worthless* compounds.
Farmers should see that every Bag is branded as above, with the ANALYSIS and OUR NAME in RED LETTERS. All others are Counterfeits.
