GOVERNOR BOWIE'S TURF VICTORIES.—*Playing Picolo.*—It seems that Governer Bowie quite astonished Saratoga on Saturday playing Picolo on them. The New York Tribune has the following in regard to the victory of the Maryland colt:

"In the first race, a dash of one mile and an eighth, nine horses came to the post, and Col. McDaniel's beautiful filly Madge was made the favorite, but her chance of winning was extinguished by being nearly knocked down by another horse in the race. Picolo, a three-year old colt, belonging to Gov. Bowie, of Maryland, proved the winner, after a close and exciting finish with Lizzie Lucas. Picolo sold in the field, and was such a thorough outsider that the Paris Mutual pools paid $413 90 for every $5 invested. Up the home stretch the race was reduced to a match between Lizzie and Picolo, the young one outstaying the gray filly, and runing a capital race by a length in 1.56, being the fastest time on record at this distance. Fanny Ludlow, carrying her proper weight for age, ran a mile and an eighth on Saratoga course in 1869 in 1 56, which has remained the fastest record at the distance up to the present time. It must be remembered that Picolo carried seven pounds less than her regular weight for age, so that the merit of his performance is hardly equal to that of Fanny Ludlow's, but his tremendous speed was shown by his running the last mile, from stand to stand, in 1.42½. In the second race Catesby bore Governor Bowie's colors a second time to victory; that staunch turfman receiving hearty congratulations on his double triumph. Picolo is a dark bay colt, with black points, very stoutly built, about 15½ hands high, and he runs with a great deal of vim. He is a full brother to Galway."

The New York Herald, speaking of Governor Bowie's second victory on the same day, says:

"The ex Governor of Maryland says this is a circumstance that never occurred to him before. Mr. Bowie deserves success, as he is a great lover of thoroughbred horses, and he comes from a family that have been racing horses for over a century."

BOLD ATTEMPT TO ABDUCT A CHILD AT ROCKAWAY BEACH.—On Thursday afternoon last Mrs. Lott, of Flatlands, with her son, a bright little boy of three years, visited the Sea Side House at Rockaway Beach. She met a number of friends there, and while engaged in conversation with them the child strayed a short distance from the house. Search was soon made, but the boy was found to have disappeared and no trace of him could for some time be found. Inquiries, however, at last revealed the fact that about 4 30 o'clock two women were seen carrying a child answering to the description of the one missing towards the pier, at which was then lying a large excursion steamer from New Brunswick, N. J, and that the child appeared to be struggling to get away from them. The steamer was about to cast off her lines when Mrs. Lott jumped on board and made loud inquiries for her child.—One of the deck hands informed her that a woman on the upper deck of the boat had a child which he thought might be the one she was looking for, and went with her and pointed out the woman, who was then holding the child forcibly, while two other women were in the act of changing its clothing. On seeing his mother the little fellow began crying and calling "Mamma!" and the abductors seeing that they were discovered, threw the child on the deck, hastily ran down the steps to the main deck, and, jumping to the dock, mixed with the crowd and so escaped in the confusion leaving no means of recognizing them. Had Mrs. Lott been a few moments later the boat would have been away from the dock and there might have been another Charley Ross case to record. There is no question but the women, whoever they were, intended to take the child away with them, whatever their ultimate purpose might have been.—*New York Herald.*

"NEW PROCESS FLOUR."—A new flour is making its appearance in Eastern markets, made away in the interior of Minnesota by what is styled the "new process for purifying middlings"—a process thus far kept secret. This flour is heavy-bodied, and of such consistency that when thrown into the air it does not fly off in particles, but descends into the hand in a mass. It requires one-third more water in mixing than in ordinary flour, and in kneading it into dough more labor is required. The bread, it is claimed, will remain fresh for a long time. The yield to the bushel of grain is not known. It is claimed that by the "new purifying process" it has been found in Minnesota that spring wheat can be made into the highest price flour, and that the same can be done with other kinds of wheat. There are now about thenty mills in Minnesota in which the new machinery has been introduced. The owner of the patent was recently in Baltimore negotiating for the formation of a stock company to manufacture the "new process" flour in that city, and it is understood that his efforts were so far successful that the Millington Mills will be at once fitted up for the purpose.—*N. Y. Bulletin.*

THE assertion is frequently made in discussing the Beecher question that all the Western journals condemn Mr. Beecher, while nearly all the Eastern acquit him. This is, of course, not true. The following, from the *Inter-Ocean*, gives about the average sentiment of the Western press: "That Mr. Beecher has been exceedingly weak and foolish, all admit.—That he has been guilty as charged, we do not believe. Subsequent developments may change this conviction, but carefully following the whole case, viewing his letters in the light of his explanations, and especially taking into consideration the probabilities and the circumstances, all of which are so utterly inconsistent with the charge, we cannot but come to the conclusion that the whole wretched business is the outgrowth of malice, jealousy and misapprehension; having its rise in the hatred of some, the disordered brain and offended vanity of others, and the busy, meddlesome and mischief-making tongues of an indefinite number."

A BEAUTIFUL TRIBUTE.—At the Washington and Lee University, Lexington, Va., a student is each day detailed to watch beside the tomb of General Lee.—Every morning one of the students is posted at the tomb in the memorial room of the chapel, built under the supervision of Lee. He is styled a "watcher," and his duty is to remain there during the day and receive visitors, showing them the proper courtesy and attention. As there are nearly three hundred and fifty students, no one is on duty more than once a year. Thus the entire Southern people, through their representatives in the University, are watching at the tomb of Lee, and their sons improved in manner and bearing by the sacred duty they perform, and their minds and hearts benefitted by thought of the noble dead.—*Loudoun Enterprise.*

A DUEL IN NEW JERSEY.—Harvey Newell and William Sanders, of Freehold, N. J., having become involved in rivalry about a young lady, the result was that Sanders sent a challenge to mortal combat to Newell. The "defi" was accepted. The New York Times says:

"Mr. E. L. Cowart acted as the second of Newell, and Robert F. Stockton for Sanders. The hour was nine o'clock last Thursday evening, and the place the grounds of the Freehold base ball club.—Promptly at the hour principals and seconds were on hand, and some half a hundred spectators. Mr. Stockton measured off fifteen paces with the coolness of old Commodore Stockton himself, and then stepping back, called out in a clear, ringing voice. "One—two—three." The last word was scarcely uttered when the two pistols were fired simultaneously, and Sanders fell. His second ran to him, tore open his coat, and called out, "Run for a surgeon, quick!" The terrified Newell threw down his pistol and ran—but not for a physician. Down the embankment he leaped, and made his way home, where he remained until the next day, when to his unexpressible relief he learned that his antogonist, Sanders, was not dead, and in fact was not hurt at all. The truth of it was the second, Messrs Stockton and Cowart, took particular care to load the pistols with blank cartridges, letting Sanders into the secret, whose sudden fall was arranged beforehand. The whole thing, although a dead earnest affair to one, was the hugest kind of a joke to all else, and has created more amusement in Freehold than anything of the kind that has occurred for years."

SINGULAR CONDUCT OF A JURY.—A man named Briceland, under sentence of death for murder, has petitioned the Pennsylvania board of pardons to release him. One of the strong points urged in his behalf was the manner in which the jury arrived at a verdict in his trial, as stated in the certificate of one or two of the jurors who rendered the decision, to wit: That several of the jurors at no time during their deliberations believed that he was guilty as he stood indicted according to the evidence adduced, but that after being out a long time and believing that they could not be discharged until they agreed, and fearing they might be taken ill by longer confinement they consented to render a verdict of guilty, holding the jurors who differed with them responsible for the result, and thus washing their hands of the blood of Briceland. This in substance is the story told of their deliberations, and reveals a very singular phase of trial by jury—that of several gentlemen, under fear of anticipated illness, deliberately consenting to the death of a fellow-mortal whom they believed to be innocent.

UDDERZOOK.—Quite an effort is being made in Baltimore city by petition to be presented to the Board of Pennsylvania, for a commutation of the sentence of death in Udderzook's case, to imprisonment for life. A weak attempt is being made to prove an alibi, by attaching of the name of Udderzook to a report of a subordinate lodge of the United Order of Mechanics upon the same night that it was testified he was in Chester county and killed Goss. This is a very flimsy attempt, and will only do Udderzook more harm than good. The case is postponed until next October.

A Medicine Chest in Miniature.

Mishler's Herb Bitters is not a beverage, but a strictly medicinal preparation, more thoroughly adapted to the wants of the general public than any other in the market. Unlike all other so-called remedies, it is prepared under the direct personal supervision of an eminent Physician. S. B. Hartman, M. D., the senior proprietor, is a regular graduate of the Jefferson Medical College of Philadelphia, and a practicing physician of large experience and extensive practice. In such hands the public may rest assured that Mishler's Herb Bitters is compounded in strict accordance with correct Pharmaceutical principles, and that none but the choicest ingredients enter into its composition.

Its immense sale alone is conclusive proof that it possesses merit of a high order. Merchants, bankers, clergymen, lawyers, clerks and others engaged in sedentary occupations, experience its wonderful effects in relieving the depression caused by severe mental labor; while the mechanic, farmer and laborer, find their bodily vigor restored like magic by its use.

At this season of the year, when DIARRHŒA, CRAMPS, COLICS and kindred disorders, caused by eating unripe fruits, imprudent indulgence in cold drinks, &c., are prevalent, a certain, speedy and effectual remedy will be found in Mishler's Herb Bitters.

The depressing feeling of Languor or Debility, incident to the "heated term," is at once removed, the energies restored, and new life and vigor imparted to the prostrated system, by its use.

IN DYSPEPSIA, LIVER COMPLAINT AND AFFECTIONS OF THE KIDNEYS, it invariably works like a charm. It is not a drastic purge nor heady stimulant, violent in its operations; but it is simply a natural remedy, thoroughly adapted to *assist* nature. It supplies tone to the stomach, reinvigorates the digestive organs, stimulates the secretions, and promoting a regular action of the bowels, enables every organ of the body to perform its allotted work regularly and without interruption.

It is the unerring certainty of desired results attendant on its use, coupled with the fact that it is prepared by a physician of eminence in his profession, that has rendered Mishler's Herb Bitters so popular, and as familiar as a household word. THOUSANDS OF MOTHERS all over the land have found it to be the safest and best remedy for use in their families; they not only give it with perfect safety to even the youngest child, but when used with caution find it the safest means of ensuring *their own* health and freedom from the weary aches and pains incident to their sex. Perfectly harmless, it is just the remedy needed by them to enable Nature to perform her functions *naturally, regularly and without inconvenience.* NO LADY SHOULD BE WITHOUT IT! for she would possess the clear, blooming complexion and cheerful spirits inseparable from sound health. It is sold by all Druggists and General Dealers; is neatly put up in square Glass Bottles, enclosed in a yellow wrapper. Is not sold on Draught, being *strictly a medicinal preparation,* and as such is endorsed by many of the most eminent physicians of the country.

WHANN'S

Raw Bone Super Phosphate

IN the culture of WHEAT, true economy implies the use of such manures as produce the greatest yield, and at the same time leave the land in the best condition for grass.

WHANN'S RAW BONE SUPER PHOSPHATE is extensively used on this important crop, for the reason that it fulfills these conditions—the Grass often paying for the Fertilizers, leaving the increased yield of Wheat clear profit.

No Fertilizer has ever excelled it, combining the active qualities of the best Peruvian Guano with the more lasting properties of dissolved Bone, it is unexcelled as a manure for Wheat. Those Farmers who have used

Whann's Raw Bone Super Phosphate,

need no reminder as to its worth. Their continued use of it year after year is the strongest argument which can be brought to prove its merits.

The following testimonials from two well known Farmers will be appreciated:

HANESVILLE, KENT CO., MD., July 17th, 1874.

Messrs. Walton, Whann & Co.:

Gentlemen:—I have used Whann's Raw Bone Super Phosphate on my Wheat for the past two years. I am very much pleased with its action both on Wheat and Grass, and regard it as one of the best Fertilizers on the market, and a permanent improver of the land.

Yours, truly, WILLIAM T. ANDERSON.

CHESTERTOWN, MARYLAND, July 16th, 1874.

Messrs. Walton, Whann & Co.:

Gentlemen:—I have been using Whann's Raw Bone Super Phosphate on my farm near Chestertown nine or ten years. It has never failed to give me satisfaction both in its results on Wheat and the Grass following. I regard it as second to none, and expect to continue its use.

Respectfully, yours, S. LECATES.

FARMERS who have not yet used this renowned Fertilizer are earnestly requested to TRY IT.

ITS MECHANICAL CONDITION IS EXCELLENT, prepared EXPRESSLY FOR USE WITH THE DRILL.

Pamphlets and Circulars mailed free on application.

DUGDALE'S

UNRIVALLED

EXCELLENZA

BONE SUPER PHOSPHATE

FOR THE

Wheat Seeding of 1874!

OUR SUPPLY OF "EXCELLENZA" this Fall has been prepared with special reference to the wants of the Wheat Crop—The necessary elements for the growth of this cereal have been increased, and the mechanical condition greatly improved.

So far as we have been able to learn, the "EXCELLENZA" has given the most complete satisfaction to nearly all who have used it, and MANY UNHESITATINGLY PRONOUNCE IT TO BE THE

BEST FERTILIZER

THEY HAVE EVER USED.

We use *no South Carolina Rock, no insoluble Guanos of any kind, no adulterative matter.*

Pure Dissolved Bone

And Rich Nitrogenous Matter,

Treated with SULPHURIC ACID, are the ingredients which compose the EXCELLENZA.

We earnestly invite all Farmers who have not given it a trial, to TEST IT alongside of other brands no matter how high their reputation, or how high their price.

We submit to the consideration of Farmers the following letters:

BAKERSVILLE, KENT CO., MD., July 25, 1874.

Messrs. Geo. Dugdale & Co.:

Gents:—I have used your Excellenza Bone Superphosphate on my Wheat for three years. It has always given me entire satisfaction. I regard it as second to no fertilizer I have ever tried. JAS. H. BAKER.

CENTREVILLE, MD., July 21st, 1874.

Messrs. Geo. Dugdale & Co, Baltimore, Md.:

Dear Sirs:—Having sold your "Ammoniated" and "Excellenza" Phosphates for the past four seasons, and each season used them on my own farms, I take great pleasure in saying that they have given those to whom I sold them, as well as in all the cases in which I have used them myself, general satisfaction.

Yours, truly, WM. McKENNEY.

The most concentrated, universal and durable Fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre. It is the opinion of many close calculating Farmers after SIXTEEN YEARS' experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or Guano, and therefore fully 100 to 200 per cent. cheaper.

UNIFORMITY OF QUALITY GUARANTEED BY THE MANUFACTURERS.

$18 HARNESS!

MADE by the undersigned, all good material, and guaranted to be of

Good Workmanship.

I wish the people of this and the adjoining counties to take notice that I have commenced

HARNESS MAKING BUSINESS

IN CHESTERTOWN,

in the Burchinal Building, adjoining the store of James M. Vandyke, on Cross street, where I can be found at all times, and will work 25 per cent. cheaper than was ever done before.

The reason I can do this is that I do all my work myself, and work for the cash.

All kinds of REPAIRING done at short notice. Give me a call and be convinced.

MANHOOD:

HOW LOST, HOW RESTORED!

JUST PUBLISHED

A NEW EDITION OF

Dr. Culverwell's Celebrated Essay

on the *radical cure* (without medicine) of Spermatorhœa, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only 6 cts.

The celebrated author, in this admirable essay, clearly demonstrates from thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically

THIS LECTURE should be in the hands of every youth and every man in the land.
