The Kent News.

SATURDAY - - - - - OCT. 10, 1874

NARROW ESCAPE OF DONALDSON, THE AERONAUT.—Mr. Donaldson, of Barnum's Hippodrome, whose aerial ascensions from Baltimore created such a furore during the stay of that establishment in the city, appears not to be quite so fortunate in his air voyaging in the vicinity of Pittsburg. The following, from the Pittsburg *Dispatch* of October 3, gives an interesting account of Friday's trip:

"Friday it was found that the large balloon in which it was proposed by the management of the hippodrome to give the representatives of the afternoon papers a voyage to cloud land could not be prepared in time. Rather than disappoint the people who had gathered in thousands at the hippodrome and about the ground, Professor Donaldson decided to make an ascension in the small balloon "Magenta." It was rather hurriedly inflated, and instead of a car the daring aeronaut placed himself astride a rope on which he had hung an anchor as well as grappling irons, but took no ballast. The balloon ascended rapidly, amid the cheers of thousands of people, but it was evidently not inflated for a long voyage, and at its highest altitude was not over 2,500 feet from the ground. It passed over a portion of the city in about the same direction as the "Barnum" on Wednesday last, and was suddenly seen to be quickly dropping. It appeared that as soon as the balloon reached a current of cold air rising from the river the gas contracted, and was no longer able to sustain the weights of its load. People who were closely watching the air vessel saw its rapid descent, and from its appearance judged that it had collapsed. A large crowd followed in the direction where it seemed to be falling, expecting to find the shattered remains of the intrepid Donaldson. That gentleman, however, was equal to the situation in which he found himself. As he neared the earth he was seen to lower himself by his hands and hang suspended to the cross ropes on which he was seated. He was evidently looking for a clear place to jump, but unfortunately the wind took the matter into its own hands and dashed the balloon against the glass works of Frank & Co., at Frankstown station, on the Connellsville road, about two miles beyond Soho. The professor was very much shaken by the concussion, but escaped without serious injury. His ship was badly torn."

THE PHILADELPHIA KIDNAPPING CASE.—It is reported that Mr. Ross, the father of the kidnapped boy, Charley Ross, is crazed and dying. The Philadelphia correspondent of the New York World says:

"For several weeks it was plain to be seen that Mr. Ross was in a rapid decline. Your correspondent saw him frequently, and saw with regret that anguish was weighing him down. He became dejected, melancholy, morbid. Soon he was confined to his bed, where he now lies.—That is not all; he lies there bereft of reason, crazed by grief. He knows nothing, remembers nothing but the loss of his boy and all the trouble that has followed in its train. At first it was thought he had typhoid fever, but there is no fever there, nothing but a shattered frame and mental imbecility. He does not know his wife, and even in the worst paroxysms of his grief drives her from him. Shortly before reason entirely left him he said: 'I can bear the loss of my property, and the loss of Charley—even that God helps me to bear—but this slander and calumny against my wife and myself—that, that is what breaks me down.'"

LARGE FIRE AT CRISFIELD, MD.—A fire broke out in Crisfield, Md., at 7 a. m. on Thursday of last week, in Joseph Colbourn's oyster house, which was soon entirely destroyed, as also the establishments of William Colbourn, J. W. Milligan, Bayfield & Riggin, Bradshaw & Lewes, Conger & Riggen and J. E. Riggen, all oyster houses. The dwelling-houses of Mr. Billard and J. E. Riggen, Esq., are destroyed. As soon as the fire began the people removed all their furniture and household effects at a safe distance, and returned to battle with the flames and prevent their spreading. The telegraph company also removed the instruments and battery material. The railroad depot escaped, although the oyster house of Coulbourn, where the fire was first discovered, was within ten yards of it. The loss is estimated at $45,000; insurance $13,000.

☞The Gift Concerts in aid of the Lentucky Library are not at all speculative. The institution is chartered by the State of Kentucky, and every dollar of the prfits goes to the building up of the best Library in the United States. The first prize in the next drawing, which takes place Nov 21st, is $250,000. It is a reliable institution, and some one will get that money. And that there may be no doubt as to the honesty of its management we cite the fact that the best banks in Louisville endorse it, and that Governor Thomas E. Bramlette, of Louisville, is the general manager. An institution so fathered is certainly deserving of confidence.

GOVERNOR PONDER, of Delaware, has appointed his secretary of State, John H. Paynter, to be attorney general, in place of Mr. Lore, whose term of office has expired.

THE New York Herald predicts a general European war, based upon the forebodings of Mr Disraeli and Victor Hugo.

THE Vermont Supreme Court decides that a citizen cannot refuse to testify whom he voted for at an election.

The Source of Many Ills.

If all the ailments, bodily and mental, which torment the human family could be traced to their primary sources, it would probably be found that three-fourths of them originated in the failure of the stomach and the other organs by which the food is converted into nutriment and applied to the purposes of life, to perform the tasks allotted to them by nature, vigorously and regularly. This being the case the vast importance of a medicine which compels these organs to do their whole duty, thoroughly and efficiently, becomes at once apparent. Hostetter's Stomach Bitters may be truly characterized as a preparation of this kind, indeed as the only one which can be implicitly relied on as combining the propensities of a stomachic, an alterative and an aperient in such proportions as to produce simultaneously the desired effect upon the disordered stomach, liver and intestines. This conclusion is warranted by the celerity and certainty with which the Bitters afford relief in chronic cases of dyspepsia, torpidity of the liver and constipation. The false idea that these complaints and others that grow out of them, could be cured by fierce cathartics, has at last, it is to be hoped, been thoroughly exploded. The sick, during the last hundred years have swallowed thousands of tons of mercury, scammony, gamboge, croton oil, jalap, &c., and tens of thousands of graves have been prematurely filled thereby. But ever since the principle of renovation, as embodied in Hostetter's Stomach Bitters, was arrayed against the principle of prostration as represented by mineral salivants and furious purgatives, the latter has steadily and surely fallen into deserved contempt. The outcry against stimulation by which concoctors of depleting drenches hoped to give *eclat* to their disgusting and dangerous compounds has only served to increase the demand for the wholesome stimulant, tonic and alterative which for twenty-five years triumphed over all opposition and is now the most popular medicine in the Western hemisphere.

A Medicine Chest in Miniature.

Mishler's Herb Bitters is not a beverage, but a strictly medicinal preparation, more thoroughly adapted to the wants of the general public than any other in the market. Unlike all other so-called Remedies, it is prepared under the direct personal supervision of an eminent Physician. S. B. Hartman, M. D., the senior proprietor, is a regular graduate of the Jefferson Medical College of Philadelphia, and a practicing physician of large experience and extensive practice. In such hands the public may rest assured that Mishler's Herb Bitters is compounded in strict accordance with correct Pharmaceutical principles, and that none but the choicest ingredients enter into its composition.

Its immense sale alone is conclusive proof that it possesses merit of a high order. Merchants, bankers, clergymen, lawyers, clerks and others engaged in sedentary occupations, experience its wonderful effects in relieving the depression caused by severe mental labor; while the mechanic, farmer and laborer, find their bodily vigor restored like magic by its use.

At this season of the year, when DIARRHŒA, CRAMPS, COLICS and kindred disorders, caused by eating unripe fruits, imprudent indulgence in cold drinks, &c., are prevalent, a certain, speedy and effectual remedy will be found in Mishler's Herb Bitters.

The depressing feeling of languor or Debility, incident to the "heated term," is at once removed, the energies restored, and new life and vigor imparted to the prostrated system, by its use.

In DYSPEPSIA, LIVER COMPLAINT AND AFFECTIONS OF THE KIDNEYS, it invariably works like a charm. It is not a drastic purge nor heady stimulant, violent in its operation; but it is simply a natural remedy, thoroughly adapted to *assist* nature. It supplies tone to the stomach, reinvigorates the digestive organs, stimulates the secretions, and promoting a regular action of the bowels, enables every organ of the body to perform its allotted work regularly and without interruption.

It is the unerring certainty of desired results attendant on its use, coupled with the fact that it is prepared by a physician of eminence in his profession, that has rendered Mishler's Herb Bitters so popular, and as familiar as a household word. THOUSANDS OF MOTHERS all over the land have found it to be the safest and best remedy for use in their families; they not only give it with perfect safety to even the youngest child, but when used with caution find it the safest means of ensuring *their own* health and freedom from the weary aches and pains incident to their sex. Perfectly harmless, it is just the remedy needed by them to enable Nature to perform her functions *naturally regularly and without inconvenience.* NO LADY SHOULD BE WITHOUT IT if she would possess the clear, blooming complexion and cheerful spirits inseparable from sound health. It is sold by all Druggists and General Dealers; is neatly put up in square Glass Bottles, enclosed in a yellow wrapper. Is not sold on Draught, being *strictly a medicinal preparation*, and as such is endorsed by many of the most eminent physicians of the country.

NOTICE.—On or about the 28th of August a BARREL OF COAL OIL was taken from Buck Neck wharf, containing 44 gal. No. 1 Coal Oil, manufactured by C. West & Son. Any information concerning the same will be thankfully received by

MRS. MARY M. GREENWOOD.

THE GREAT NEURALGIA CURE.

HOPKINS'

ANTALGIC LINIMENT,

After a test of Twenty years, is confidently offered to the public as the most powerful external remedy which has ever been discovered for the cure of *NEURALGIA, RHEUMATISM, GOUT, TOOTHACHE, NERVOUS HEADACHE, STIFF NECK, LUMBAGO, SORE THROAT BRONCHITIS*, and all pains of the joints and limbs.

Hundreds who have used it give it the strongest endorsement.

FACTS to be Remembered:

ANTALGIC LINIMENT positively cures Neuralgia.
ANTALGIC LINIMENT cures the worst cases of Rheumatism.
ANTALGIC LINIMENT instantly cures Toothache.
ANTALGIC LIMIMENT never fails to cure Gout.
ANTALGIC LINIMENT instantly relieves Headache.
ANTALGIC LINIMENT cures the Face-ache.
ANTALGIC LINIMENT is unequalled for the immediate relief of all kinds of pains. It does not blister, nor discolor the skin.

SOLD EVERYWHERE.

A LECTURE TO YOUNG MEN.

Just published in a sealed envelope. Price Six Cents.

A Lecture on the Nature, Treatment and *radical cure* of Seminal Weakness or Spermatorrhœa, induced by Self-Abuse, Involuntary Emissions, Impotency, Nervous Debility, and Impediments to Marriage generally; Consumption, Epilepsy and Fits; Mental and Physical Incapacity, &c.—By ROBERT J. CULVERWELL, M. D., author of "Green Book," &c.

The world renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-abuse may be effectually removed without medicine and without dangerous surgical operations, bougies, instruments, rings, or cordials pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

☞*This Lecture will prove a boon to thousands and thousands.*

Sent, under seal, in a plain envelope, to any address, postpaid on receipt of six cents, or two postage stamps.

Texas Bone Meal

IT is now nearly three years since we first introduced our

Texas Bone Meal

in the Market. We sold the first ton, with the confident assurance that if strictly pure goods would establish reputation, we were sure to obtain it, and the result has confirmed our belief. Farmers who have used it, and dealers who have sold it, give it the preference, and heretofore we have been unable to meet the demand. C. C. Fulton, Esq., editor of the *Baltimore American*, recently visited Texas and was at our Factory, located at Fulton, Texas. In writing to his paper, under date February 24, 1874, and published in the American Weekly, March 14, he says of our Texas Bone Meal:

"After drying the residuum of Bones and Meat, it is ground to a fine powder, producing a fertilizing material but little inferior to Peruvian Guano. It smells very much like Guano, and if there is any virtue in bones, blood and animal matter, it ought to be a superior fertilizer. The material is too abundant to induce any temptation to give anything but the pure article, and as I witnessed the operation, I can vouch for its genuineness, that is to say, that it is all pulverized bone, flesh and blood."

This was testimony we had unsought and unknown, until we had several inquiries from the readers of the "Baltimore American."

We recommend the use of the TEXAS BONE MEAL to farmers, assuring them that it is strictly pure and will always be kept so.

The Analysis of Texas Bone Meal, made by Dr. T. R. Wolf, State Chemist, Newark, Del., July 17, 1874, is as follows:

Ammonia	4 55
Phosphoric Acid	24.25
Equal to Bone Phosphate of Lime	52.968

This Analysis will compare favorably with any other in the Market.

☞PRICE $45 PER TON—2,000 lbs.

THE

FARMER'S FAVORITE,

OR

BICKFORD & HUFFMAN

GRAIN DRILL.

HINES & BURCHINAL

Agents for Kent and Queen Anne's Co.'s

FOR THE ABOVE DRILL, HAVE ON EXHIBITION at their Ware House, next to the Kent National Bank, one of

The Improved Drills for 1874.

This Drill has stood the test for several years as CHAMPION OF GRAIN DRILLS. THE ONLY GRAIN DRILL which throws out of gear by the Automatic action of the TUBE LIFTER, and covers all the seed distributed.

TUBE SHIFTER, to enable the farmer to change the Tubes from a straight to a zig-zag, without raising the Tubes or stopping team.

THE IMPROVED

Fertilizer or Guano ATTACHMENT

For 1874,

SURPASSES ANYTHING IN THE MARKET.

Sows Guano, Super Phosphate, Bone Dust, Lime, Ashes, Salt, Plaster, or any Fertilizer, DRY OR DAMP, in desired quantities per acre. Never fails to perform.

The complaint about Drills not sowing Damp Fertilizers ceases with this Drill, as it has been obviated by the above Guano Attachment.

HINES & BURCHINAL sold Two Car loads last Fall of the New Style, and they gave perfect satisfaction, as the following Certificates will show:

NEAR CHESTERTOWN, KENT CO., MD., July 8th, 1873.

To Messrs. Hines & Burchinal, General Agents for the sale of Agricultural Implements, Chestertown:—Gentlemen: I have the highest appreciation of the merits of Bickford & Huffman's Eight Tooth Wheat and Guano Drill. The arrangement, for simplicity and good execution, I have never seen equalled in the workmanship of any similar Agricultural Implement. The Guano Attachment of this Drill is a *very gem* of excellence, and must soon establish its utility and superiority beyond cavil. In short, this is the best "Combination" Drill with which I am acquainted, and therefore, in recommending it to the consideration of Farmers generally affords me not a little pleasure.

JOSHUA COPPER, Farmer.

CHESTERTOWN, Kent Co., Md., July 9th, 1873.

MESSRS. HINES & BURCHINAL—*Dear Sirs:* The Latest Improved Bickford & Huffman Drill I purchased of you last Fall gives me perfect satisfaction, in both seeding of Wheat and Fertilizers, sowing them both regular, and it is my impression it far surpasses any Drill I ever saw, and I would cheerfully recommend it to the Farmers of Kent co. The late improvement beats anything I ever saw for seeding Fertilizers.

ISAAC PERKINS.

STILL POND, Kent Co., Md., May 8th, 1874.

THIS IS TO CERTIFY that I bought of HINES & BURCHINAL last Fall, one of the Bickford & Huffman Improved Wheat and Fertilizer Drills, which I pronounce the best I have ever seen. My son bought a Delaware Drill at the same time, and says he likes mine better.

I think, and in fact know, that the Bickford & Huffman is the best Drill. It sows the Guano *perfectly even*, and it is the only Drill I ever saw that did.

JAMES A. ROSEBERRY.

They also refer to:

GEO. W. T. PERKINS, WM. H. STEWART
DR. SAMUEL BECK, JOHN BRICE,
SAMUEL TAYLOR, WILLIAM FORD,
AND OTHERS,

Who will give the highest testimony in favor of these Drills.

Persons in want of a good Drill, should call and see the NEW STYLE for 1874.

Those in want of a 9-tube with shaft, will give their orders as soon as possible, as the Company make all 8-tube with tongue, unless otherwise ordered.

HINES & BURCHINAL,
Chestertown, Md.

FERTILIZERS.

We also offer to Farmers the following well known brands of Phosphate:

Maryland Fertilizing Company's.
Whitelock & Co.'s Vegetator.
J. J. Turner & Co.'s Excelsior, and Ammoniated Super Phosphate.
Rasin & Co.'s Sea Island Guano, and Ground Meat and Bone.
Rhodes & Company's.
Watson & Clark's.
And Pacific Guano.

☞We offer the above Phosphate on time and reasonable terms, delivered either on Sassafras or Chester River and their tributaries. Call before buying.

HINES & BURCHINAL,
Aug. 15—3m. Chestertown.

FARMERS!

TAKE NOTICE

OF REDUCTION OF PRICE OF FOLLOWING FERTILIZERS:

1874. Wheat Seeding. 1874.

ANALYSIS:

Ammonia	3.18
Soluble Phosphate of Lime	23 91
Bone Phosphate of Lime	3.15

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," its only competitor, and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling. Packed in bags.

Price $45 per Ton.

J. J. TURNER & CO.,
42 Pratt st.; Baltimore.

DUGDALE'S

UNRIVALLED

EXCELLENZA

BONE SUPER PHOSPHATE

FOR THE

Wheat Seeding of 1874!

OUR SUPPLY OF "EXCELLENZA" this Fall has been prepared with special reference to the wants of the Wheat Crop—The necessary elements for the growth of this cereal have been increased, and the mechanical condition greatly improved.

So far as we have been able to learn, the "EXCELLENZA" has given the most complete satisfaction to nearly all who have used it, and MANY UNHESITATINGLY PRONOUNCE IT TO BE THE

BEST FERTILIZER

THEY HAVE EVER USED.

We use *no South Carolina Rock, no insoluble Guanos of any kind, no adulterative matter.*

Pure Dissolved Bone

And Rich Nitrogenous Matter,

Treated with SULPHURIC ACID, are the ingredients which compose the EXCELLENZA.

☞*We earnestly invite all Farmers who have not given it a trial, to TEST IT alongside of other brands no matter how high their reputation, or how high their price.*

We submit to the consideration of Farmers the following letters:

BAKERVILLE, KENT CO., MD., July 25, 1874.

Messrs. Geo. Dugdale & Co.:
Gents:—I have used your Excellenza Bone Superphosphate on my Wheat for three years. It has always given me entire satisfaction. I regard it as second to no fertilizer I have ever tried. JAS. H. BAKER.

CENTREVILLE, MD., July 21st, 1874.

Messrs. Geo. Dugdale & Co, Baltimore, Md.:
Dear Sirs:—Having sold your "Ammoniated" and "Excellenza" Phosphates for the past four seasons, and each season used them on my own farms, I take great pleasure in saying that they have given those to whom I sold them, as well as in all the cases in which I have used them myself, general satisfaction.

Yours, truly, WM. MCKENNEY.

GEO. DUGDALE & CO.,
Baltimore, Md.

WHANN'S

Raw Bone Super Phosphate

IN the culture of WHEAT, true economy implies the use of such manures as produce the greatest yield, and at the same time leave the land in the best condition for grass.

WHANN'S RAW BONE SUPER PHOSPHATE is extensively used on this important crop, for the reason that it fulfills these conditions—the Grass often paying for the Fertilizers, leaving the increased yield of Wheat clear profit.

No Fertilizer has ever excelled it, combining the active qualities of the best Peruvian Guano with the more lasting properties of dissolved Bone, it is unexcelled as a manure for Wheat. Those Farmers who have used

Whann's Raw
