In a late number of the Lynchburg Virginian, we find the following:

"A friend who had been residing in the peninsula for some months past, informs us that there are about 28,000 negroes between Williamsburg and Hampton—a distance of thirty-six miles. These people are sustained with rations furnished by the government, at a cost of sixty thousand dollars monthly, while five companies of cavalry are required to patrol the country to prevent depredations. Every effort has been made to induce a portion of them to remove to Florida, the officers of the government offering them free transportation. There is a standing offer of this nature made by Gen. Armstrong of the Freedmen's Bureau, to convey the men with their families to any point they may select, with the view of engaging in useful labor. But they have persistently refused every offer of the kind, and rejected every overture made to get them employment. Under the provisions of the civil rights bill it is impossible to do anything contrary to their wishes, and so they remain huddled within this limited area, and are a heavy tax upon the government. Some of them have taken to highway robbery, and but for the presence of a large cavalry force, a residence in that country would be intolerable. How long, we wonder, will the people submit to this enormous tax to support such idle and worthless pets of the Black Republican party? Verily! Radicalism is a dear experience, taxing the patience and pockets of the people to a degree unprecedented in the history of any country."

The facts speak for themselves; *seven hundred and twenty thousand dollars* taken every year from our heavily-taxed people to support in idleness twenty-eight thousand negroes, who will not accept work when offered. And, if the people sustain the Radical policy, how many more thousand idle negroes in the South will they be compelled to maintain, to furnish Radical voters?

The Tenure of Office Law.—In suspending Secretary Stanton, and ordering him to cease the performance of the functions of War Minister, the President acts, of course, in view of his constitutional prerogative as well as the late act of Congress known as the tenure of office law. The second section of that act provides as follows:

"That when any officer appointed as aforesaid, excepting judges of the United States courts, shall, during the recess of the Senate, be shown by evidence satisfactory to the President to be guilty of misconduct in office or crime, or for any reason shall become incapable or legally disqualified to perform its duties, in such case, and in no other, the President may suspend such officer, and designate some suitable person to perform temporarily the duties of such office until the next meeting of the Senate, and until the case shall be acted upon by the Senate."

The law further requires that the President shall state to the Senate his reasons for such suspension, with the evidence supporting them, within twenty days after the next assembling of that body.

The Difference Between Words and Acts.—The *National Intelligencer* says those who took the trouble to scan the votes of Senator Wilson during the last session of Congress would hardly recognize the following passage as a possible emanation from him. Yet it is a veritable part of a speech, delivered by him at Saratoga recently. Speaking of the people of the South, he said:

They are more severely conquered than I dreamed of. I tell you here to-night that the people of that section of the country put into the contest all they had of blood and treasure, and they were defeated, utterly annihilated, their powers gone. No man who loves his country and his fellow-men, and who regards those States as part of the country, and the people as part of his countrymen, can witness the condition of that section without having his heart softened and stirred within him. For myself, while I spoke to them in plain words, I desired to speak to them in kindness, and in thirty-two speeches I made in that section of the country, to various kinds of audiences, I never received a hiss, or whisper, or unkind word. * * * For myself, I want no more punishments than have already been inflicted on these men. They have suffered and have been disappointed more than any body of men in the history of the world.

Gen. Lee.—The Greenbrier (Va.) Independent speaks of a modest visit paid by Gen. Lee to a friend in Lewisburg. A number of ladies and gentlemen called to see him, but, in deference to his wishes, the citizens refrained from any public expression of their regard and affection.—"No one had the bad taste to introduce the subject of politics;" and the war was, if mentioned at all, only incidentally referred to. The Independent says:

We have been reliably informed, however, that whenever General Lee does refer to the political condition of the country, he advises a submission, in good, faith, to the result of the war—a strict obedience to the laws, and that everything which could be tortured even into an evidence of continued disloyalty should be avoided.

Rumors.—The air is thick with rumors. We give some of them, not to endorse them, but simply as a specimen of what is afloat. It is said that a court of inquiry is to be instituted over the conduct of Judge Holt, chief of the Bureau of Military Justice. General Grant, it is rumored, will act as Secretary of War only until Gen. McClellan can be heard from, who will be called to the portfolio of the War Department. It is stoutly affirmed in certain quarters that Mr. Ashley will be legally proceeded against on a charge of conspiracy, on account of his recent connection with the arch-perjurer Conover.—*Washington Express.*

The Peach Trade.—The Philadelphia, Wilmington and Baltimore Railroad Co. have had sixty-three new cars built this season to accommodate the peach trade. Each car is intended to hold 400 baskets, and there are received from the Delaware road about 150 car loads daily, about two-thirds of which go directly to New York, and the balance are for dealers in Philadelphia. The company have about 200 peach cars constantly on the road and as many more could be filled at the present time.—*Del. Gazette.*

Wonderful Freak of a Baby.—The Ottowa Mercury tells the following:

"A few days ago, in Keokuk county, a babe six months old, was crying lustily, and the usual appliances seemed to have no effect. It still cried, and the mother was perplexed to know what the trouble was. At last, after it seemed almost exhausted, it spoke with startling distinctness these words: "Give me a drink of water!" Of course the mother was frightened, but gave the water, when it immediately went to sleep. The infant had never spoken before, nor has it since.—We can vouch for the truth of the above, as we are personally acquainted with the parents of the child."

A Large Peach Crop.—Mr. H. Gerger, living a few miles from our town, is considered one of the largest peach-growers in the State. He has between seven and eight hundred acres in bearing this year, and expects to ship from 75,000 to 100,000 baskets of peaches. He has over one hundred men and boys employed to pick them, fifteen wagons to haul them to the cars, and has engaged ten cars a day to ship them in. If any other man in our State can do better than that we would like to know who he is.—*Smyrna (Del.) Herald.*

Steamer Sunk.—The steamer Wilson Small, running between Baltimore and the Choptank river, was sunk by collision with the steamer Mary Augusta on Friday morning of last week, off Poplar Island. All on board were saved except two black women, who were asleep at the time.—The steamer is owned by Mr. W. D. Wallach, of Washington, and insured. Arrangements have been made with Messrs. Baker, wreckers, of Norfolk, for raising the vessel at an early day, when she will be put in complete order.

BEALE'S
(Late Powell's)
EMBROCATION,
FOR ALL DISEASES INCIDENT TO
HORSES, CATTLE,
AND
THE HUMAN FLESH,
REQUIRING THE USE OF AN EXTERNAL APPLICATION.

THIS new compound, prepared by a practical Chemist, having a full knowledge of all the medical virtues of each ingredient that enters into its composition, is warranted to exceed anything of the kind ever yet offered to the public as an external application for the diseases for which it is recommended. We are satisfied that it will work its own way into the confidence of all who use it, and those who

Try It Once

will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by Farriers, and all who have tried it, to be the *best application* ever used.

This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgent request of my friends and the public that I send it forth as the

Grand Remedial Agent

for the various diseases to which that noble and useful animal, the horse, is subject.

Many remedies have been offered to the public under different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purposes for which they are recommended.

A judicious and really useful composition, free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and pretended ferriers. Their wishes are at length fully gratified, by (Dr. Beale) being prevailed upon to allow this VALUABLE EMBROCATION, which has proved so efficacious to the various diseases, to be prepared and brought out to the public.

This Embrocation was extensively used by the Government during the war.

PACIFIC GUANO COMPANY'S
SOLUBLE
PACIFIC GUANO,
Office of General Agency:
71 SOUTH STREET, BALTIMORE, MD.
JOHN S. REESE & CO.,
General Agents for Company.
The very extended use of this guano throughout the country renders it unnecessary for us to say more this season, than that its *composition* and *quality* are precisely the same as that heretofore sold by us for the Company.
We have sold this Guano from the beginning under a regular system of rigid inspection, at an expense to the Company of many hundred dollars annually. This is done for the *protection* alike of the *consumer* and the *Company*, as it is manifest to all who understand the trade in fertilizers, that it can not be safely conducted on any other principle. The importance and extent of the trade demands this protection. We are prepared to exhibit Dr. A. Snowden Piggot's *certificate of inspection* for every cargo sold. Consumers must observe the name of John S. Reese & Co. branded on the bags, none other genuine. jy27-3m.

"FLOUR OF BONE."
We will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone*, reduced to the *fineness* of *flour*, which adds 100 per cent. to its value. It is as *quick* and *active* as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 lbs. to be used in place of 300 lbs. Super Phosphate or dissolved bone.

SECURE A
LARGE WHEAT CROP
BY USING
Baugh's Raw-Bone Phosphate,
Which contains by analysis of Prof. A. Snowden Piggott, 3 78 per cent. of Ammonia, and 52.57 per cent. of Bone Phosphate of Lime, besides over 14 per cent. of Soluble Salts.
THIS ARTICLE stands prominent on the list of valuable Fertilizers, years of trial having gained for it an enviable reputation, being made from Raw Bones, which contain all their original organic matter. It retains the *durable properties of Bone, and while it produces large Crops, it renovates and permanently improves the Soil.*
A TRIAL OF IT is all that is needed to convince any one of its merits.
The public are cautioned against several spurious imitations of this article called "Raw Bone," "Raw Bone Phosphates," &c. Many farmers have been greatly deceived by purchasing them. Be sure to specify "BAUGH'S."
It is packed in bags and barrels, and is prepared in a fine powder suitable for drilling.

NOTICE
TO ALL FRUIT GROWERS.
I ADVERTISE in order to let you all know that I am again in the market, with one of the largest and best selected stocks of FRUIT TREES of various kinds. Our stock of PEACH are
ABOUT 800,000,
comprising twenty-one of the best orchard varieties, and am taking orders at extremely low figures, on terms that will enable every one who is desirous of planting to do so. Our Trees are reared from natural seed, procured from Northampton and Accomac counties, Va., and Worcester and Somerset counties, Md. We have a block of about 350,000 reared at Smyrna, Del., which will be unusually good, in size, they will no doubt compare with any in the country. Our stock of PEARS, both Standard and Dwarf, is large, and extra in size. APPLES No. 1, in fact everything for sale low that is grown in a first class Nursery.
I feel exceedingly grateful for past patronage, and hope by strict attention to the fruit growers' interest, to still secure an equal share of patronage. I will pledge myself to be the servant of the fruit growers, and do everything in my power to work to their interest.

KENT COUNTY
MACHINE SHOP.
THE undersigned beg leave to inform the Farmers of Kent and adjoining Counties that they are prepared to do all kinds of
Agricultural Machine Repairing,
at short notice. They also put up in good order the Celebrated
Pennington Improved Reaper,
which is of central draught, runs easy for four horses, and will cut from 25 to 30 acres per day; it cuts 6 ft. 6 in. swath, and can have a Mower attached in a few minutes; it gives general satisfaction, as has been certified to by many able Farmers of Kent and Cecil counties.
They also build HORSE POWERS AND THRESHERS of modern style, which in good wheat will thresh and clean from four to six hundred bushels per day.
They make and have for sale the following kinds of PLOWS and PLOW CASTINGS:—Nos. 9, 10 and 11 Concave; 1, 2 and 0 Pratt & Davis; No. 4 Wiley, and two-furrowed Plows of excellent model, and not surpassed in smoothness or temper by any made or used in this State. MILL SPINDLES, Shafts and Picks made and repaired to order and in style.
CULTIVATORS, Cultivator Teeth, Farm Hinges, Harrows, &c., for sale wholesale and retail, and on reasonable terms.
