PACIFIC GUANO COMPANY'S SOLUBLE

PACIFIC GUANO,

Office of General Agency:
71 SOUTH STREET, BALTIMORE, MD.
JOHN S. REESE & CO.,
General Agents for Company.

The very extended use of this guano throughout the country renders it unnecessary for us to say more this season, than that its *composition* and *quality* are precisely the same as that heretofore sold by us for the Company.

We have sold this Guano from the beginning under a regular system of rigid inspection, at an expense to the Company of many hundred dollars annually. This is done for the *protection* alike of the *consumer* and the *Company*, as it is manifest to all who understand the trade in fertilizers, that it can not be safely conducted on any other principle. The importance and extent of the trade demands this protection. We are prepared to exhibit Dr. A. Snowden Piggot's *certificate of inspection* for every cargo sold. Consumers must observe the name of JOHN S. REESE & Co. branded on the bags, none other genuine. jy27-3m.

"FLOUR OF BONE."

We will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone*, reduced to the *fineness of flour*, which adds 100 per cent. to its value. It is as *quick* and *active* as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 lbs. to be used in place of 300 lbs. Super Phosphate or dissolved bone

SECURE A
LARGE WHEAT CROP
BY USING
Baugh's Raw-Bone Phosphate,

Which contains by analysis of Prof. A. Snowden Piggott, 3.78 per cent. of Ammonia, and 52.57 per cent. of Bone Phosphate of Lime, besides over 14 per cent. of Soluble Salts.

THIS ARTICLE stands prominent on the list of valuable Fertilizers, years of trial having gained for it an enviable reputation, being made from Raw Bones, which contain all their original organic matter. It retains the *durable properties of Bone, and while it produces large Crops, it renovates and permanently improves the Soil.*

A TRIAL OF IT is all that is needed to convince any one of its merits.

☞ *The public are cautioned* against several spurious imitations of this article called "Raw Bone," "Raw Bone Phosphates," &c. Many farmers have been greatly deceived by purchasing them. Be sure to specify "BAUGH'S."

It is packed in bags and barrels, and is prepared in a fine powder suitable for drilling.

FARMERS AND DEALERS

are respectfully referred to the above FERTILIZERS, as being prepared in the best manner, thoroughly reliable, and in every way calculated to give universal satisfaction. They are extensively known, having been used with great success during the past six or seven years.

☞ Read the following certificate of one of the best chemists of this country:

CHEMICAL LABARATORY,
No. 108 Arch Street,
PHILADELPHIA, April 10th, 1866.

During the last five years I have been in frequent consultation with Mr. George M. Woodward, manufacturer of Messrs. BERGER & BUTZ's artificial manures, in regard to the preparation of their Super Phosphate of Lime, etc. The materials used in these Fertilizers, are in all cases subjected to my examination and analysis before purchase. Being fully acquainted with their formula and methods of manufacture, I can assure those interested in the purchase and sale of Fertilizers, that their "EXCELSIOR" and "AMMONIATED" Super Phosphate of Lime are of such a character as must render them of great value to the farmer, and place them amongst the BEST FERTILIZERS now in the market. F. A. GENTH.

☞ *We Guarantee these Fertilizers to be UNADULTERATED.* ☜

By the introduction of new and improved machinery into our factory these articles will be much better prepared than formerly.
