LETTER FROM FAIRLEE.

Lo! the Poor Indian!—The Lecture—Seeding—Taxes—Business—Conundrum, for Jewell, P. M. G., not James.

Messrs. Editors:—The lecture by Rev. T. Sunrise Dana, the Indian missionary, was delivered on Thursday evening, 7th instant, according to appointment. The audience was very respectable in numbers as well as in character, though the house was not at all crowded. The lecture itself was open to criticism, yet the speaker is fluent and has, for one in his position, a surprising mastery of the English language, though not always strictly grammatical, nor faultless in pronunciation. The word "guardian," for instance, he pronounces "*guardeen*," just as some of the Anglo Saxon race would—for want of proper tuition. The gravest charge is, however, against the general tendency of his address. This is to exalt the red man, and his modes of life, his character, habits and worship, above the white man, and his character, habits and religion. Civilization suffers immensely in the comparison, and yet, it must be admitted, sometimes very justly suffers. It would not be fair to give a resume or even a synopsis of the lecture, as Mr. Dana, I learn, will lecture in your town on the 21st, and at Fairlee on the 26th instant. I had looked for a little of the fire of Logan and the genuine eloquence of the Indian, and was not wholly disappointed when he appealed to his audience to keep the fire-water of the white race away from his countrymen. His whole speech displayed strongly his Indian patriotism. All faults, however, sink into insignificance when we direct attention to the purpose of his lecture and his life. It is consecrated to God, and to the spread of the Gospel among his countrymen. He is endeavoring to raise means to reach the Indian Territory, to carry the glad tidings of salvation to its tribes. Who but must wish him a hearty God-speed?

Our farmers are busy in their wheat seeding, and a large quantity of commercial fertilizer is being applied. It seems to be conceded that it is not possible to raise wheat without it, and yet it was not so in former days. Why is it? Can it be the result of the use of Peruvian guano? May it not be that better and more certain results would ensue from a full crop of clover on which a hoof had never been turned, and well limed and thoroughly plowed in? But I may not allow myself to be betrayed into an agricultural homily. One thing is certain, everybody is complaining of taxes, and the heaviest of taxes is the fertilizer.

Our merchants are laying in their fall stocks, and judging from the passing loads a brisk trade is anticipated. Our mechanics are overworked. At the wheelwright and smith shops they have been literally driven by work since the beginning of harvest, and our accommodating shoemaker has his lap full and hands full. Of *out* of which he complains not.

Why does it take from 36 to 48 hours to get a letter conveyed by mail from Fairlee to Edesville? Answer—because unless the party addressed is at the office when the postman arrives, he will not be likely to find the office open until the next arrival. This is a conundrum for P. M. G. Jewell—not James. SIMON SHARP.

A TERRIBLE FALL—*Two Wilmington Trapeze Performers Fall a Distance of Thirty Feet.*—The Middletown *Transcript* of last Saturday says:

On Wednesday evening last, as soon as the crowd faom the fair grounds reached the centre of the town, Messrs. Gookin & Fisher ærial performers on the trapeze, made their appearance in the street opposite the Town Hall, climbed to the trapeze and commenced their performance. The rope to which the trapeze was attached extended from a large sycamore tree in the Middletown Hotel yard to some rafters in the cupola of the hall, and was about one inch in circumference, and had been used to some extent previously. After a number of acts had been gone through with by which great stress was put upon the long rope, Geokin and Fisher were resting on the bar. Shortly after a move was made by them when the rope snapped suddenly near the Hall roof and the two performers fell heavily to the ground while the large crowd that was watching became very much excited and ran in all directions. Fisher got up immediately and Gookin shortly afterward, and both walked a short distance, but from injury and excitement were compelled to lie down near by. Gookin was carried to the Hall, and on being examined by Dr. McKee, was found to be more seriously hurt in the left hip than elsewhere, although his whole form was jarred badly and rendered his limbs stiff. Fisher was bruised in his legs and received a cut over the left eye. Both of the injured men were put in bed, and remained there most of the next day.

SALE OF THE "BOMBAY HOOK" RAILROAD.—That portion of the Smyrna and Delaware Bay (better known as the Bombay Hook) railroad in New Castle county, Del., being one and one-half miles in length, was sold at public sale, with all its chartered privileges and appurtenances, by Sheriff Lambson on Thursday. Samuel M. Mills, of New York, was the purchaser at $2,500. It is supposed the purchase was made in the behalf or interest of Jay Gould, who is the owner of the remainder of the road—that part in Kent county, which was sold at sheriff's sale a year or more ago.

JUDGE WICKES informed the bar of Cecil county last week that taxpayers have some rights which lawyers are bound to respect, and that the sitting of the court cannot be prolonged at a cost of $200 a day to the county for the convenience solely of counsel.

The Great Anti-Periodic.

The certainty and promptitude with which Hostetter's Stomach Bitters conquer the most obstinate cases of malarial disease, and the complete protection which they afford the system against miasmatic poison which impregnates the air of low-lying, marshy localities, stamp them as the furmost of American anti-periodics. Wherever on this continent fever and ague is a regular visitant—in the bottom lands of the South, the new clearings and mining districts of the West, and in all localities in the Eastern and Middle States where the malaria prevails, the Bitters are recognized as the only true specific for the disease, and its most reliable preventative. They are, moreover, a safe and agreeble as well as a certain remedy, and on this account are immeasurably superior to the preparations of quinine, arsenic, bismuth, and other mineral poisons mistakenly administered as curatives for maladies caused by miasma, and which if persisted work irreparable injury to the constitution.

Unfortunately, fever and ague, and the other febrile complaints generated by miasma, are not the only evil which result from it. A great variety of disorders are superinduced by the irritation which it causes. Among these are neuralgia, rheumatism, gout, periodical headache, palpitation, painful affections of the spleen, and various derangements of the stomach. When traceable to malaria, the above affections are apt to assume, like the disease which originated them, an intermittent type; that is to say, they recur at regular intervals. Hostetter's Bitters, however, obviates them all, by banishing the miasmatic virus from the stomach.

Reduces the quantity of grain required both for Cattle and Horses one fourth. Being a perfectly nutritious, health giving preparation from the seeds of grasses and herbs in combination with tonic and invigorating root barks, we claim it to be the one thing needful to make a perfect feed.
