SATURDAY - - - MARCH 24, 1877

A NEW FIRM.

The firm of John Sherman, Jay Gould & Co., says the New York *Sun*, have established their principal house in the Treasury Department at Washington, with a branch in the *Tribune* office of this city. They offer peculiar facilities for operation in United States loans, bonds and stocks of all kinds, and have formed connections in the United States and Europe which promise great advantages. Mr. Sherman's former association and dealings with Jay Cooke & Co., and his experience as Chairman of the Finance Committee during that time, entitle him to be considered as a man of business qualifications. As an economist he takes special rank, having, while a member of Congress, managed to salt down a million or more, saved upon a salary varying from $3,000 to $5,000 a year.

Mr. Gould is also known in financial circles as a prudent and shrewd manager, who has no great taste for speculation, who loves to avoid venturing in the pools of Wall street, and who divides his spare hours between piety and patriotism.—Hereafter he proposes to devote his energies to the development of our national resources, to the strengthening of the public credit at home and abroad, and to movement of the crops at the proper season every year.

It is possible there may be wicked partners connected with this pious and responsible firm, and it has been maliciously suggested that such is the case; but thus far their names are concealed, if they exist at all. The two principals who, at the political centre in Washington and the financial centre in New York, are to direct the main business, furnish a guarantee that few can offer for public confidence. They have the Treasury at their back, and, what is more, they know how to use it like experts. Mr. Sherman and Mr. Gould both belong to the respectable society of bondholders, who pocket their semi-annual dividends in gold and pay no taxes.

Both principals are rich in their own right, independent of the profits expected for running the Treasury. Mr. Gould is quoted as having a great income, the extent of which he modestly declines to state. Mr. Sherman is estimated at $100,000 a year in round numbers by friends who have managed to get an insite into his investments, which are chiefly in coupon bonds, and therefore require no registry. Altogether, the new firm starts out with the brightest prospects, and Gen. Sherman, who was once a banker in San Francisco himself, vouches upon his military fame that "John is the greatest financier of the age;" and all who know them well must admit that Mr. Gould is hardly inferior to his senior partner.

How Rubber Boots are Made.—The gum used is imported directly from Africa, South America and Central, that from Central America being the best, while the African gum is the poorest. The raw gum, which is nearly white, is ground several times between immense fluted iron rollers after which it passes through the composition room, which process is secret, but when it comes out the gum has the black appearance of common rubber. The next process is that of passing the rubber between chilled iron cylinders, of many tons weight, which are kept very hot and very smooth. A part of the rubber intended for "uppers," is here spread upon and fastened to long sheets of cloth. The heels and taps are stamped out of sheets of gum of the required thickness. The rubber cloth is now carried to the cutter's room, where it is cut out and sent to the boot makers. The boots are made by men, the shoes or ordinary rubbers by girls, while the over-shoes are made by either. One man will make twelve to fourteen pairs of boots a day, and receive twenty cents a pair. An active girl will make from twenty-five to thirty pairs of rubbers. After the boot-maker is through they are placed in an oven, where for twelve hours they are subjected to a temperature of 300 degrees. They are then ready for boxing and shipping. In one factory about four thousand pairs of boots, rubbers and over-shoes are turned out daily.

Is George Washington Petrified?—It is stated that President Washington's tomb at Mount Vernon was recently opened to make repairs. The unusual weight of the sarcophagus containing Washington's remains aroused the curiosity of the official who was superintending the work of removal, and it was decided to open the sarcophagus to ascertain the cause.—This was done, and the remains were found to be petrified; in fact a solid stone resembling a statute, the features perfectly natural, with the exception of eyes and ears, no trace of which can be seen. The body is of a dark leathery color, and may be a soft sandstone, which would likely break should an attempt be made to remove it from the sarcophagus. Edward Baker, an aged colored man, who has resided upon the farm since he was a boy, and who assisted in removing the remains from the old tomb to the present one, stated that it is thirty-eight years since their last removal. At that time they had rested in the old tomb thirty-eight years, and were exhumed in a state of preservation beyond all expectation, being a solid compact mass, with the skin drawn tightly to the bones, petrification had no doubt commenced its work. The sarcophagus was again firmly closed and the repairs to the tomb completed.

Important to all Invalids. Iron in the Blood.

The Peruvian Syrup, a protected solution of the protoxide of iron, strikes at the root of disease, by supplying the blood with its vital principle, or life element—Iron. This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of blood, or accompanied by debility or a low state of the system.

The Texas *Tribune* says, "The late 'atmospherical freshness' has brought on many cases of Coughs and Colds, and Dr. Bull's Cough Syrup is in greater demand than ever."

Many thousands of dollars has been spent in distributing, *free of charge*, Sample Bottles of Boschee's German Syrup to all parts of this country, to those suffering from Coughs, Asthma, Hemorrhages, Consumption and other Throat and Lung Diseases, that the afflicted might satisfy themselves, that this remedy would save them from those fatal diseases. No person has ever used this medicine without getting immediate relief, yet there are a great many poor, suffering skeptical persons going about our streets with a suspicious cough, and the voice of consumption coming from their lungs, that will not try it. If you die it is your own fault, as you can go to your Druggists, C. F. Stam & Bro., Chestertown or E. B. Britton, Millington, and get a Sample Bottle for 10 cents and try it; three doses will relieve any case. Regular size only 75 cts.

The Farmer.

When a farmer can so manage his farm as to make "both ends meet," even if it be with the most rigid economy, he should be content with his lot. If we take a survey of the business men of our villages and cities, we find that only two or three or four in a hundred realize a competence for old age. Then imagine the unhappiness of those who sooner or latter, fail to support themselves and families respectably—and cares and anxieties that constantly produce pangs and tortures that no farmer ever felt. These may apparently lead happy lives, as the world cannot witness the emotions of a man who strains every financial nerve to meet his notes falling due at the bank. The time between 1 and 3 o'clock every day in the city of New York, brings more anxieties to the business men than all the farmers of the United States realize in a lifetime.

No, farmers, your lot is not a hard one. Your food may be plain and the cut of your coat may not be as fashionable as those of the merchants of the day; but when you lie upon your pillows your repose is sound and sweet. The horrors of protested notes seldom keep you awake at night; and in the morning as you go around to feed your flocks and view your crops that have visibly grown while you were in the arms of Morpheus, you may take more real enjoyment in life in one hour than many city merchants and manufacturers do in a year. Our advice therefore is, be not discouraged. The times may now be hard; but you are promised "seed-time and harvest" to the end, and with hard labor and judicious management, you come out in the end victorious.—*Stillwater (Minn.) Messenger.*

She was a very modest girl (just from Boston,) and when the observatory astronomer said: "Take a glance through the telescope, Miss, and you will see Venus in all her glory," she frigidly drew back and replied: "No, thank you, sir; I have no desire to look at any member of my sex who dresses as she is represented to."

The astronomer froze in his boots, and it was not a very cold night either.

This is the way old jokes may be revamped: Sleep under a blue counterpane, and you'll ne'er en-counter pain.

"Dear me," said a lady, "I have such a cold. What do you do, Doctor, when you have a cold?" "What do I do?" said the Doctor; "why, madame, I cough and sometimes I sneeze."

The Science of Life;

Or, SELF-PRESERVATION.

MORE THAN ONE MILLION COPIES SOLD.

Gold Medal Awarded to the Author by the "National Medical Association," March 31st, 1876.

Just published by the PEABODY MEDICAL INSTITUTE, a new edition of the celebrated medical work entitled the "SCIENCE OF LIFE; or, SELF-PRESERVATION." It treats upon Manhood, how lost, how regained and how perpetuated; cause and cure of Exhausted Vitality, Impotency, Premature Decline in Man, Spermatorrhœa, or Seminal Losses (nocturnal and diurnal,) Nervous and Physical Debility, Hypochondria, Gloomy Forebodings, Mental Depression, Loss of Energy, Haggard Countenance, Confusion of Mind and Loss of Memory, Impure State of the Blood, and all diseases arising from the Errors of Youth, or the indiscretions or excesses of mature years.

It tells you all about the Morale of Generative Physiology, the Physiology of Marriage, of Wedlock and Offspring, Physical Contrasts, True Morality, Empiricism, Perversion of Marriage, Conjugal Precept and Friendly Counsel, Physical Infirmity, its Causes and Cure, Relations Between the Sexes, Proofs of the Expansion of Vice, The Miseries of Imprudence, Ancient Ignorance and Errors, Means of Cure, Cure of Body and Mind. True Principles of Treatment, Address to Patients and Invalid Readers, The Author's Principles. The price of this book is only $1.00.

This Book also contains MORE Than FIFTY PRESCRIPTIONS for the above named and other diseases, each one worth more than the price of the book.

Also, another valuable medical work treating exclusively on MENTAL AND NERVOUS DISEASES; more than 200 royal octavo pages, twenty elegant engravings, bound in substantial muslin. Price only $2.00. Barely enough to pay for printing.

"The Book for young and middle-aged men to read just now, is the Science of Life, or Self Preservation. The author has returned from Europe in excellent health, and is again the Chief Consulting Physician of the Peabody Medical Institute, No. 4 Bulfinch St., Boston, Mass."—*Republican Journal.*

"The Science of Life is beyond all comparison the most extraordinary work on Physiology ever published."—*Boston Herald.*

"Hope nestled in the bottom of Pandora's box, and hope plumes her wings anew, since the issuing of these valuable works, published by the Peabody Medical Institute, which are teaching thousands how to avoid the maladies that sap the citadel of life."—*Philadelphia Enquirer.*

"It should be read by the young, the middle aged and even the old."—*N. Y. Tribune.*

The first and only Medal ever conferred upon any Medical Man in this country, as a recognition of skill and professional services, was presented to the author of these works, March 1st, 1876. The presentation was noticed at the time of its occurrence by the Boston Press and the leading journals throughout the country. This magnificent Medal is of solid gold, set with more than one hundred India diamonds of rare brilliancy.

"Altogether, in its execution and the richness of its materials, and size, this is decidedly the most noticeable medal ever struck in this country for any purpose whatever. It is well worth the inspection of numismatists. It was fairly won and worthily bestowed."—*Massachusetts Ploughman, June 3d, 1876.*

☞ Catalogue sent on receipt of 6 cents for postage.

Either of the above works sent by mail on receipt of price. Address PEABODY MEDICAL INSTITUTE, (or W. H. PARKER, M. D., Consulting Physician,) No. 4 Bulfinch St., Boston, Mass., opp. Revere House.

N. B.—The author can be consulted on the above named diseases, as well as all diseases requiring skill, secrecy and experience. Office hours, 9 A. M. to 6 P. M. aug5-y.

CELEBRATED FAN SHELLER,

which gave entire satisfaction last season, we are still making, and we think, as all others do who have used them, that they cannot be equalled by any other Sheller in the market, and we think they are the most economical Sheller the farmer can use. We have testimonials from farmers who have used them that they will shell from six to eight hundred bus. per day and clean it ready for market. We also make the plain HAND SHELLER, which can be used by horse power if desired.

The demand for our Sheller and Small Horse Powers has been steadily increasing for the last twelve months, and we hope by strict attention to business and fighting against high prices, to merit a share of public patronage. WM. A. HYLAND & CO.

Ayer's Cathartic Pills,

For all the purposes of a Family Physic, and for curing Costiveness, Jaundice, Indigestion, Foul Stomach, Breath, Headache, Erysipelas, Rheumatism, Eruptions and Skin Diseases, Biliousness, Dropsy, Tumors, Worms, Neuralgia, as a Dinner Pill, for Purifying the Blood,

Are the most effective and congenial purgative ever discovered. They are mild, but effectual in their operation, moving the bowels surely and without pain. Although gentle in their operation, they are still the most thorough and searching cathartic medicine that can be employed: cleansing the stomach and bowels, and even the blood. In small doses of one pill a day, they stimulate the digestive organs and promote vigorous health.

Ayer's Pills have been known for more than a quarter of a century, and have obtained a world-wide reputation for their virtues. They correct diseased action in the several assimilative organs of the body, and are so composed that obstructions within their range can rarely withstand or evade them. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are, at the same time, the safest and best physic for children. By their aperient action they gripe much less than the common purgatives, and never give pain when the bowels are not inflamed. They reach the vital fountains of the blood, and strengthen the system by freeing it from the elements of weakness.

Adapted to all ages and conditions in all climates, containing neither calomel nor any deleterious drug, these Pills may be taken with safety by anybody. Their sugar-coating preserves them ever fresh, and makes them pleasant to take; while being purely vegetable, no harm can arise from their use in any quantity.

NOTICE.

THE undersigned having bought and remodeled

Gooding's Mills,

on the road leading from Galena to Locust Grove, is now prepared to do ALL KINDS OF CUSTOM WORK ON SHORT NOTICE.

Grain sent to the Mills by Farmers or Merchants, to store, will be kept in good condition and ground for them as ordered. Will always keep on hand

FLOUR, MEAL, CHOP CORN,

MIDDLINGS, BRAN, BUCKWHEAT, SHIPSTUFF, &c.

EXTRA FAMILY FLOUR,

on hand at all times, and will be delivered to families living in the county, and warranted to be of the FINEST QUALITY. Persons wanting Flour can leave their order with C. H. J. SPARKS, at Locust Grove, or at the Mill, and prompt attention will be given thereto. FLOUR and MEAL furnished to Merchants at lowest wholesale prices. It is a branch of manufacturing that can be done here as cheap and cheaper than in the cities, as we can get grain cheaper. Give us a trial.
