SATURDAY - - - - JULY 7, 1877.

Letter from Chesterville.

CHESTERVILLE, July 2, 1877.

Messrs. Editors:—Although it has become a settled conviction with us that newspaper controversies never accomplished much either one way or the other, yet the contents of this last letter, under the signature of "Mack," is of such a character that we feel compelled to beg of you space enough for a short reply. The substance of this last correspondence is so foreign from the matter under consideration, and there is such a prevarication of the truth, that it might be attributed to a perverted brain, so warped and biased by ill-humor and spleen that nothing but vindictive verbiage could be expected; and we verily believe this party is just the one to become the petty, willing tool of those equally prejudiced and vindictive, but whose brains are more equally balanced by motives of self-interest, which any man who will take the trouble to follow the course of events will see completely and absolutely explained when the time arrives for the issuing of license, at the next session of the County Court. It is said, Messrt. Editors, that there is method in madness; certainly all momentous transactions have a "power behind the throne." Of this class we suspect are some of those grand people whose solicitations this learned benefactor of the unfortunate youth of our community is exercising, time, talent and dictionary research—at least such appears to be the prevailing impression.

We saw an unkind, uncharitable, and, as we believe, truthless charge made against the youth of our village in your paper, and, conscious of the influence it might exert from its widespread circulation, and actuated by feelings of friendship for those charged, and a parental care for our own family, (for we have a growing one around us) we took some necessary steps by observation, association and inquiry, to get at the truth of this charge of drunkenness and idleness in our very midst, and, if possible, if this evil did exist, to in some way provide a remedy, for we knew it to be a growing evil; but we are gratified to again be enabled to emphatically pronounce the charge a false one and an obstinate perversion of the truth, to which nine-tenths of our citizens will agree. And I do say we have yet to find a man or woman in this vicinity, of impartial minds, who will pronounce their knowledge and belief in this accusation against our young men, and, as a general thing, all with whom we have conversed and have heard converse upon the matter, have condemned the charge as uncalled for, uncharitable and false, and far beyond the benevolent intent this person would have us believe he feels towards the reclaiming of our unfortunate youths from strong drink; and I have yet to be convinced the plan thereby pursued the proper one, whether by one of Murphy's excited proselytes or any other set of fanatics, that to reform a young man you must first point the finger of scorn at him, class him with the depraved, idle and unfortunate inebriate of the land, and then stamp the brand of loafer upon his brow to reform him.—Save us from such reform workers as this; such magnanimous, christian temperance teachers as these! Surely there are other and better means of bringing about good results; if not—

"Alas! for the rarity
Of christian charity
Under the sun."

Again, Messrs. Editors, this persons' brain is so uneven and besmeared with vicious prejudice, unpolite, inbred ill-humor, that even our thoughts and ideas, though humble, are similarly perverted as is the truth. We have for the first time to learn that any language can be too severe or harsh in condemnation of a cowardly calumniator of a good name, with which the correspondent had we hope nothing in common, and upon whom were no reflections whatever and the intent of which were entirely foreign from him or his article, unless it should be discovered that he is a *particeps principalis*; and if so a different course might be pursued than that of a simple newspaper controversy. So far, Messrs. Editors, as his personal tirade upon us is concerned, it is beneath the dignity of a gentleman to notice it at all; but I will say that such language, such verbiage and personal vituperations does not prove assertions, draws no conclusions except contempt, is not argument, and is better suited for the bully or blackguard than a would be benevolent, christian, temperance reformer, and we are perfectly willing for a just, generous and discriminating public to pronounce judgment upon our social status. And in conclusion will simply say to this correspondent that if we are charged with advocating the cause of intemperance by a woman, she grossly misrepresents us; but if a man, his tongue lies in his throat and the truth is not in him.

AN OLD RESIDENTER.

A box of Glenn's Sulphur Soap, which contains three cakes and costs only sixty cents, is sufficient to supply material for at least twenty Sulphur Baths which would eradicate a whole catalogue of rheumatic and cutaneous maladies. Sold by all druggists. Hill's Hair & Whisker Dye, black or brown, 50 cts. j 16-4t.

It is saddening to see our hair blossoming for the grave too early. More especially women feel this affliction, and it is even a greater deformity to them than to men. AYER'S HAIR VIGOR removes it and restores the hair sometimes, but its original color always.

"A stitch in time saves nine." "A bottle of Dr. Bull's Cough Syrup will often save large doctor bills. Keep it handy for it only costs 25 cents.

OVER twenty citizens of Cambridge are making a living and supporting their families by catching crabs.

Delays are Dangerous.—If this axiom is true respecting the ordinary affairs of life, still more obviously so as regards the exigencies o approaching disease. Unquestionably! Yet how many neglect to practically recognize this plain truth when health is in the balance. Of the many premonitory symptoms of disease a hacking cough is the most prophetic of peril. Arrest it at the outset with Dr. WISHART'S PINE TREE TAR CORDIAL, and so avoid Consumption. Bronchitis, Inflammation of the Lungs, Coughs, Colds, and, indeed, all Affections of the Respiratory Organs, are entirely cured by this sovereign remedy, which also eradicates Dyspepsia, Piles, Gravel, Nervous Debility, Torpidity of the Liver, Urinary Difficulties, Constipation, Palpitation of the Heart, Scrofulous Affections, and the infirmities peculiar to the gentler sex. This Cordial derives its virtues from the vegetable kingdom, and is infinitely to be preferred, both on account of its superior efficacy and freedom from nauseous and injurious properties to the officinal drugs so often administered with no other effect than to offend the palate and disorder the stomach. The *Pine Tree Cordial* can always be relied on to do what is claimed for it. Sold by all Druggists. Principal Depot, 916 Filbert street, Philadelphia. mr24-3m.

Bone Super-Phosphate,

Again before the Public at $35 Cash per Ton of 2000 lbs. at the Factory.

Farmers, Read

For yourselves and be CONVINCED that those who pay CASH for our Phosphate on delivery, or in 30 days from date of bill, will find that money is worth to them much more than legal interest, showing a decided advantage both to the

The satisfactory results that have been so universally given to our customers can only be attributed to the large percentage of actual Fertilizer, essentially BONE, employed in its manufacture, of which

Messrs. Chapman & Lambert—Dear Sirs: The Climax Iron Frame Cultivator that I bought of you last year gave entire satisfaction and will not choke. You will please make me another one. I would not take $25 for the one you made me if I could not get another like it.

Messrs. Chapman & Lambert—Sirs: The Climax Iron Cultivator which I purchased from you last fall gave me entire satisfaction, and I shall want another. I broke up my corn ground for wheat with it and used no plow. I have never seen its equal and it is everything you claim for it.

Yours, &c., WM. MORRIS.

Near Fairlee, April 30, 1877.

Messrs. Chapman & Lambert—Sirs: Your newly invented Cultivator is a big thing for farmers, and I advise all in want of Cultivators to give them a trial. Last fall I put my corn ground in order for wheat with it, and it never choked once. You will please make me another.

GALENA MACHINE SHOPS!

Wm. A. Hyland & Co.

WE beg leave to call the attention of the Farmers of Kent and the adjoining counties to our new

COMPETITOR REAPER,

and the many IMPROVEMENTS we have made this year. Our Self-Oiling PITMAN BOX, which will run two hours without stopping to oil; also, case hardened Journals, which we think is a great advantage, preventing the wearing of the Journals, a trouble that all other machines have to contend with. We are now using a Guard with concaved centre, which will PREVENT CHOKING and always present a Sharp Cutting Edge, a thing that must present itself to the farmer at once. Also, a Knife with Steel Back, thereby adding Strength, Lightness and Elasticity; and our PATENT STEEL WIRE DROP, that overcomes all objections to a Dropper, working as well in light as heavy grain, a thing that has been long needed and found at last by us.

We make the Reapers of two sizes, for two and four horses. The four-horse Reaper cuts a Swath of six feet, and will cut from twenty-five to thirty acres of grain per day, and will not work the horses as hard as ordinary farm work. The five foot machine is intended for two horses, and is handled very easily. Farmers, call and see, or write to us and learn what we have for sale.

They are the proprietors of a Corn Sheller with Fan attachment, which with their one and two horse power, will shell and clean seventy-five bushels in one hour, of which fact good reference can be given.

REPAIRING

they do neatly, and all their work is done at reasonable prices, and say to all, encourage home manufacture, or at all events give them a trial.

THE CRAWFORD MOWER

so justly celebrated for its light draft, and good work done by it, they also keep for sale.

Also, the Celebrated Taylor Rake

☞*WE GUARANTEE every Machine that leaves our Works.*

WM. A. HYLAND & CO.

We are also selling the Celebrated

Hubbard Self-Raking Reaper

AND MOWER COMBINED.

Organs! Organs!

HAVING been acting as local agent for Geo. A. Prince & Co. since 1865, and having had offered to me since Dec. 17, 1876, the control of all unoccupied territory, with authority and instruction to appoint agents, I deem it proper to state to my numerous friends and the public that I shall continue in the old track to sell ORGANS and PIANOS without any misrepresentation or subterfuges, fictitious discounts, &c.

Having a mechanical knowledge of the construction of musical instruments, I am able to draw comparisons, and can therefore state that

MESSRS. PRINCE & Co.

Furnish a BETTER ORGAN

than any other establishment. The peculiar construction of their Organs is protected by 14 patents, and the durability of Prince's Organs and Melodeons is unsurpassed.

I am prepared to sell 2 Carbart & Needham double-bank Pedal bass Organs; one Mason & Hamlin, with 12 stops, very large case; one Estey, with sub bass, at very low figures, as the owners wish to make an exchange. Also, a good second-hand 7oc. Stieff Piano at a bargain.

Price lists, &c., may be obtained by mail on application to
