THE PROSPECT.

Conceding that the Radical Congress should admit all the Southern States, and force them under military and negro rule to vote for Grant, what are the prospects for electing a Democratic candidate? This is a question often asked. Let us examine.

The whole number of electoral votes, the Southern States counted in, is 317. A majority of all is consequently 159.—To secure the election of our candidate, whoever he may be, will require the following States, most, or all of which have already indicated, in tones unmistakable, the bent of their inclination, and if we can believe with the Radicals that "Revolutions never go backwards," we may set down as certain for our nominees the States as follows:

Kentucky,	11
Delaware,	3
Maryland,	7
Pennsylvania,	23
New Jersey,	7
New York,	33
Connecticut,	6
California,	5
Oregon,	3
Nevada,	3
Ohio,	21
Illinois,	16
Indiana,	13
Michigan,	8
	159

to say nothing of New Hampshire, Missouri, Wisconsin, Minnesota, Iowa, Nebraska, Kansas and West Virginia, which are, to say the least, doubtful, and as likely to vote with us as against us.—Thus it will be seen that the Democracy enter the contest with prospects as favorable as ever heretofore, and will doubtless with a good and acceptable candidate achieve a great, grand and glorious victory.—*Allentown Democrat.*

GENERAL FORREST ON POLITICS.—The ex-Confederate General Forrest is going to the New York Fourth of July Convention as a delegate. In the course of a recent conversation he is reported to have said that it will not be any more curious to see him in the democratic convention than it was to see Joe Brown, of Georgia, in the radical convention, and he adds:

"The radicals like Joe Brown because he is a radical. I suppose the same rule would apply to me with the democrats.—Why, sir, the warmest reception I've had since the war was from General Sherman. I'm not afraid of the democratic soldiers or the republican soldiers. I like General Hancock, and I don't believe there is a brave or reasonable Union soldier who dislikes or doubts me as a man. I went into the war because my vote had been unable to preserve the peace. I took a through ticket, of course, and I fought and lost as much as any one else; certainly as much as I could. Now the war's over, and I'm under oath to keep my parole. Suppose I consider myself an outlaw, and refuse to take part in what's going on, does that help me to keep my oath? Won't folks that are disposed to be ill-natured say I'm sullen and dangerous, and only waiting a chance to break out in a fresh place? That's what they have said. Now I give the country a sort of hostage, in addition to my parole, when I join an active, organized body of Union men in the North, and I proclaim when I go to New York that I am at least as well reconstructed as Joe Brown, who was an original secessionist."

WHY IS IT?—We ask the careful reading, by every qualified voter of either political party, of the following questions:

Why is the burden of taxation so oppressive, and employment scarce?

Why are there to-day hundreds of thousand of white men and women in the North living in dread of starvation within the present year?

Why are thirty millions of white men taxed for the special benefit of a class who pay no taxes on the great bulk of their property?

Why should there be over two thousand millions of dollars exempt from taxation?

If negroes are fit for freedom, why has a great poor house system for their support to be kept up at the expense of Northern industry?

If the war was prosecuted for the preservation of the Union, why are ten States kept out of it?

BUSINESS IN NEW YORK.—The New York correspondent of the Philadelphia Ledger writes:

"City trade continues very slow, and no brisk movement is looked for in any department until the middle or end of July. Not a few retail stores in the upper part of Broadway have closed their doors within the few days past. They were not making money enough to pay their rent, and, doubtful of doing better in the future, threw up their lease. Stores to let, therefore, are more numerous than usual, and at rents which landlords would never have thought of accepting last spring."

NEARLY COMPLETED.—The M. E. Church in Port Deposit is rapidly progressing toward completion. When completed this will be the finest church on the Eastern Shore, in fact there will be few churches equal to it on the Western. It is to this church that Mr. J. Tome donated the handsome sum of $25,000 towards its erection, and it is said that he will build it entirely. It is built of fine granite and of a beautiful model, and will prove a great ornament to Port Deposit.—*Cecil Democrat.*

A REMEDY.—When cows or other cattle are attacked with swelling or colic from over eating clover, a subscriber informs us that relief can be afforded by prizing open the mouth with a stick, and keeping it open by a rope attached to the stick and tied round the horns. Occasionally rap the animal in the side, to aid the gas to escape.—*Marlboro' Gazette.*

THE friends of John C. Breckinridge say that he is anxious to be pardoned, and come home and return to the practice of law in Kentucky. He will soon leave Europe for Canada, where he will remain until he gets permission, in the form of a pardon, to go to Kentucky.

Greeley is now for Grant, but he was not when he wrote the following:

"More soldiers were uselessly slaughtered in the late war through the blunders of drunken officers, than by the bullets of the foe."

NEWARK MACHINE WORKS.

THE DIAMOND STATE

Thresher & Cleaner.

We call the attention of Farmers to our IMPROVED DIAMOND STATE THRESHER and CLEANER with Double Acting Separator.—The practical operation of these machines is such as will warrant us in advising those wanting Threshers to examine ours before purchasing elsewhere. We build three sizes—No. 1, 36 in. cylinder; No. 2, 30 in. cylinder; No. 3, 26 in. cylinder. They are of the best materials and workmanship, and warranted to suit purchasers. Large or small powers can be made to drive them, as desired. Galvanized Sheet Iron is used for sieves and shaker bottoms.—They are unequalled in strength, capacity, durability and lightness of running, doing their work rapidly and in the best manner. The machine is a model of simplicity in its construction and operation, and the price of it much below others in the market. The Double Shaker separates all the grain from the straw—none is wasted, and the Fan as a Cleaner is unsurpassed.

The Shoe of the Shaker can be easily detached and the machine used as a Thresher and Separator alone.

Our ENDLESS CHAIN HORSE POWERS are made with Steel Rods and our Improved Link. All the bearings for the wheels are steel, making the Power run with great ease to the team.

Also, Lever Powers. Send for a Circular.

Churning Made Easy.

Good Fresh Butter all the year round!

Farmers Attend:

Save Time! Save Labor! Save Money!

By using Tomlinson & Co.'s (Lincoln, England) Celebrated Butter Powder. By the use of this inexpensive Powder, churning of hours is reduced to minutes, and is applicable to the making of butter at all seasons of the year. A small quantity added to the milk or cream at the time of churning will produce Butter in much less time, in larger quantity, and of a superior quality, flavor and consistency.

It removes the unpleasant flavor caused by the cows feeding on turnips, garlic, weeds, &c.; and prevents all rancidity peculiar to butter; also makes it firmer and sweeter, even in the hottest weather.

This Powder, now being introduced into this country, has long been in use throughout Europe and the Canadas, and Butter made with it has invariably taken the prize at all Agricultural Shows, wherever exhibited.

Price 25 cts. and 50 cts. per box. Sold by all respectable Druggists and Store keepers throughout the country.
