Pacific Guano Company's
(CAPITAL $1,000,000,)
SOLUBLE
PACIFIC GUANO!

THE VALUE of this Guano is now so well known and appreciated, that it does not require further commendation from us.

The Company owns the Guano Islands, and other sources of supply from which its raw material is drawn. Hence, this Guano, possessing such high excellence, can be brought into market at a price not exceeding that of the ordinary Super-Phosphates of Lime.

The large capital invested by this Company affords the surest guarantee of the continued excellence of their fertilizer, as the safety of their capital depends upon continued and permanent business.

Experience has shown that this Guano ripens the Wheat crop from five to six days earlier than the Super-Phosphates.

It is the policy and purpose of the Company to furnish the best fertilizer that enterprize and capital, aided by the best scientific ability, can bring into market, at the lowest possible cost to consumers.
