USING LEFTOVERS

DERHAPS a glance at what other cooks have done with the leftovers of feasts will help to use those that are daily problems in most homes. Chicken is the one meat that is not hard to serve in left-over dishes. cupful will make a delightful salad mixed with tender celery, and less than a cupful, mixed with crumbs and seasoning, will stuff tomatoes or peppers. The following is a good recipe to keep on hand:

Stuffed Peppers. Slice from the stem end of each pepper, making a cup, removing the seeds and white fiber. Parboil the peppers in boiling water five minutes, then drain and chill. For six peppers use the following: Two tablespoonfuls of minced onion cooked in three tablespeonfuls of oil, add one and one-half capfule of bread crumbs and one-fourth of a cupful of minced chicken. Season with sait and pepper and add one-half cupful of stock. Mix well, stuff the peppers, place them in a little water in gem pans to bake. Cover the tops with buttered crumbs and when they are well browned the peppers will be ready to serve.

White Sauce That's Different. Take one and one-half tablespoonfuls of corn oil, one tablespoonful of minced onlon, cook until yellow, add one tablespoonful of cornstarch, half a teaspoonful of salt, a dash of pepper and a cupful of milk. Cook until smooth Elegance Imperative and thick and serve with any leftover regetable.

Creamed Chicken. Take two tablespoonfuls of olive oil or any vegetable oil, add a tablespoonful of minced onlon, cook three minutes, add two tablespoonfuls of cornstarch, stir until well blended, then add one and one-half cupfuls of top milk by cunning hands and stil one-eighth teaspoonful of nutmeg, dash of cayenne and paprika. Add two cupfuls of minced chicken. Berve on toast or in bread cases. A dash o current jelly is an improvement. • Western Newspaper Union.

Glass Table-Plax Are Rich and Colorful

THERE is a brand new requisite for your home. It is the mirrored II table-plax. It provides a number of decorative possibilities which appeal strongly to the ingenious woman of taste and refinement. Obtainable in sets of 8, 12 or 18 plax, they can be formed into innumerable geometric designs. Four of the plax are cut one quarter round, and the others approximately five inches square. All are beveled, with edges polished. The picture above shows one of many designs that are possible. Sets are available in colors of soft green, peach, and three shades of blue, so that stunning contrasts can be obtained with china, stemware and flowers.

IN FASHION NOW

Good news for the woman who liked the freedom of shorts for sports but felt conspicuous after the game is that the cuplotte or divided skirt which comes just below the knees is to be the popular garment this season for tennis, etc. This length is much more flattering to the average woman than shorts, which probably accounts for its growing popularity. It is really too late in the season to buy a very important evening gown but if the velvet is crushed or the lame is a bit tarwished one will find in the shops the loveliest chiffons, laces and nets imaginable. Some of these have shoulder coverings in the way of short capes or abbreviated sleeves.

One of the loveliest models is of gray thread lace which can be worn over different colored slips.

One notices how beautifully the hems of the chiffons are rolled and how the neck lines of the lace models are appliqued with lace

Buying Table Linen

Most housewives manage somehow o other to have at least one table cloth to put on the "board" when company comes to dinner. The amount of wear in that or any other table cloth depends on how well it is woven, the number of long floats (passage of weft thread over warp thread without interweaving) present, the length and quality of the fibres and the twist of the yarn. I poorly woven repeated laundering will soon bring out that worn look. This is because a loose weave allows threads to slip and to be misplaced with a wearing away of the long, unprotected floats. Thus in choosing even a table cloth one should buy it only from a reliable dealer. Choose a pattern and weave that will wear, as well as one that will harmonize with the table and the dishes to be used on it. To look its best a cloth should be large enough to hang ove the edge of the table from eight to 12 Brekke, extension specialist at North Dakota Agricultural College, double damask, which is considered supreme in linens, has a double satin weave created by having the filling pass over four or more warp threads and under one. A closely woven double damask of medium fine yarns with a thick leathery feel is usually the best buy. But if you cannot afford a good grade of double damask it is best to buy a good grade of plain weave.

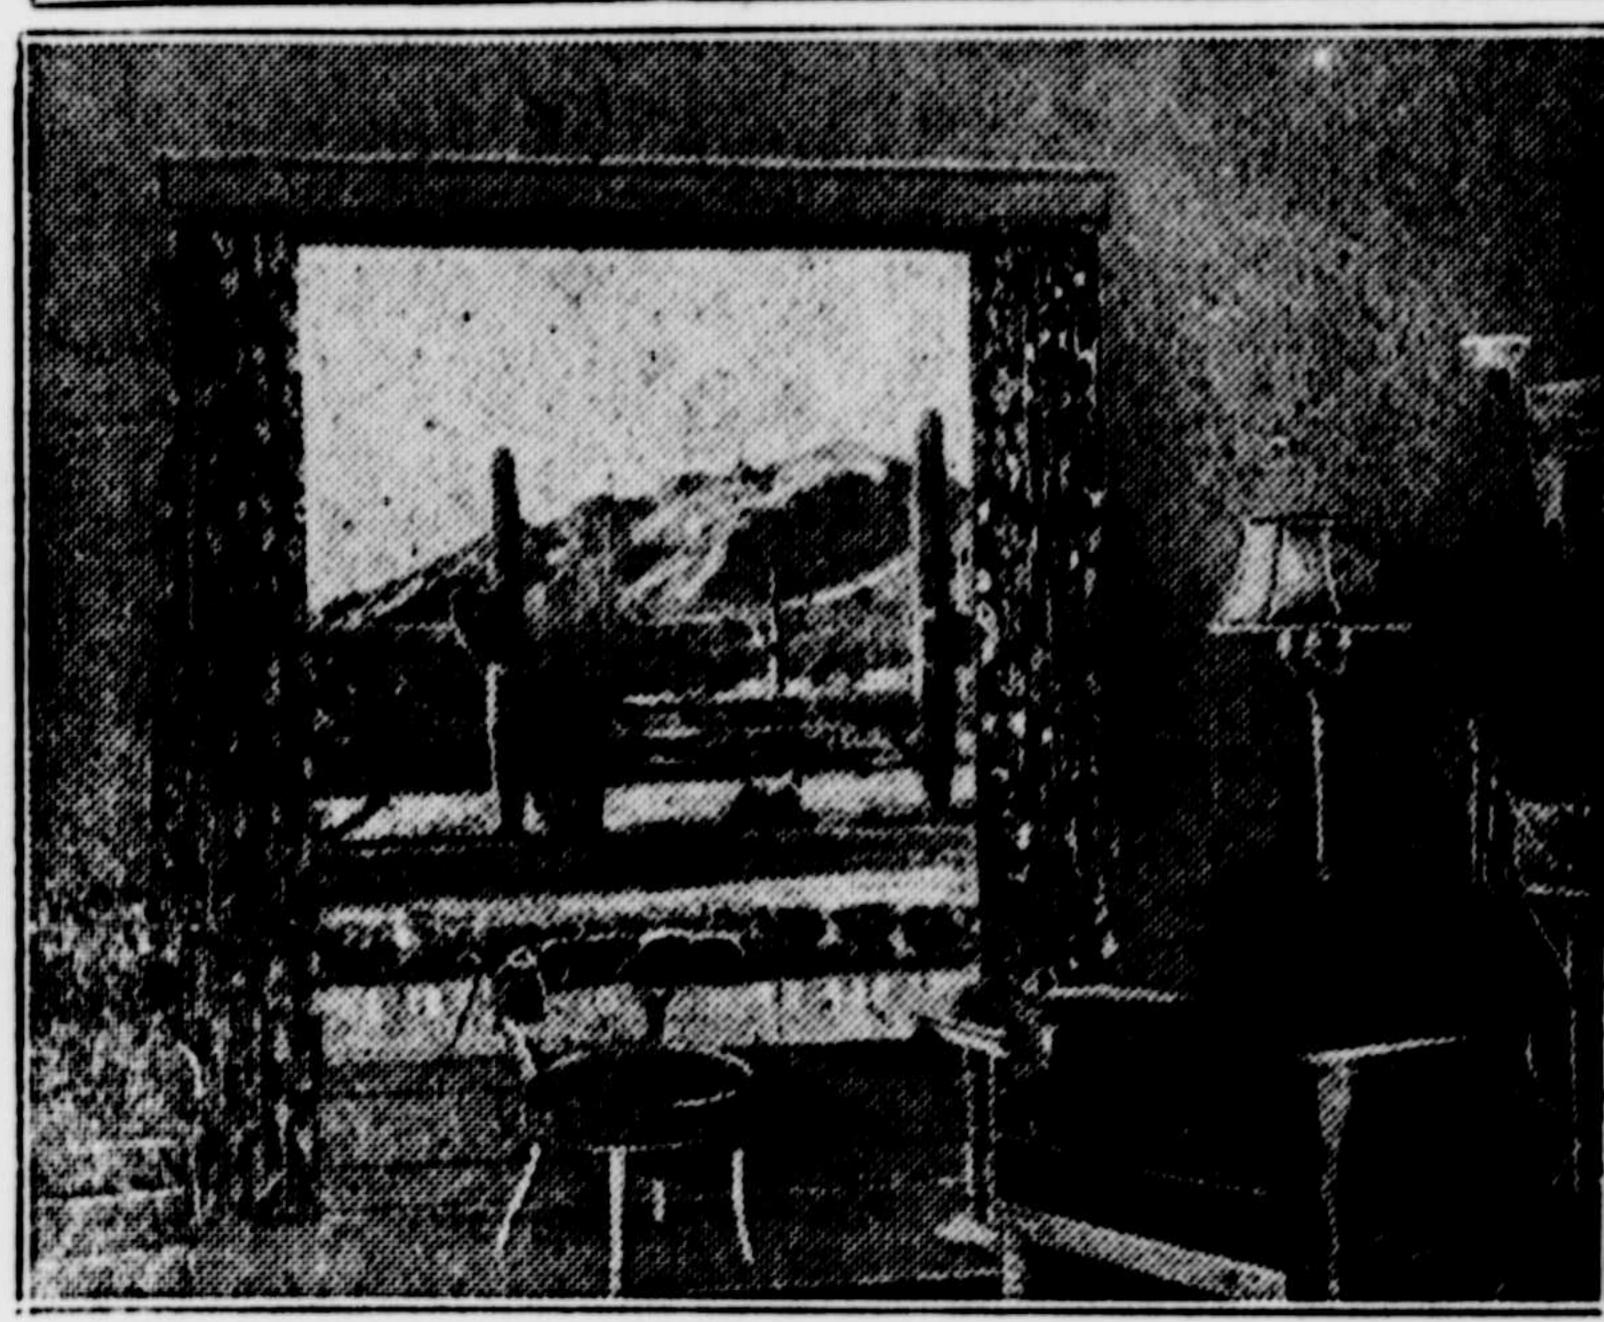

Guard Against Poisoning

Keeping of poisons in one form or another is often a necessary evil. But they should be kept in well labeled bottles or other containers and placed well out of reach of children. That not enough care is exercised in this respect; in December. Glazed pineapple fruit or alligator pears are his fais revealed in reports of over 500 children five years of age or less dying from poison every year. Special care must be taken when poisons are kept in the medicine cabinet. Some make doubly sure of getting the right bottle by sticking pins or thumb tacks in the corks of such bottles, leaving the heads protrude slightly. But the safest way is to turn on the light and read the label carefully before taking anything from a

TIERE is a striking example of how an Arizona resident made use Al of the picture window idea. A generous expanse of polished plate glass affords an inspiring outdoor scene. The artist never lived whose brush could rival Nature's own creation. Every season of the year your picture window will bring you a private showing of natural splendor that never grows monotonous or old. The window should be stationary, framed and draped so as to be in complete barmony with the decorative color scheme of the room. Such a window is like a companion or friend, and will be a never ending source of joy. It will add attractiveness, dignity and character to your home. Double glazing was used in this window to keep home cool and comfortable.
