The Kent News.

SATURDAY - - - - - APRIL 6, 1878.

THAT MULE.

The mule stood on the steamer's deck,
To land he would not tread;
They pulled the halter round his neck,
And cracked him o'er the head,

Yet firm and steadfast there he stood,
As though formed to rule;
A critter of heroic blood
Was that there cussed mule.

They cussed and swore—he would not go
Until he felt inclined;
And though they showered blow on blow
He wouldn't change his mind.

The deck hand to the shore then cried:
"This here mule's bound to stay,"
And still upon the critter's hide
With lash they fired away.

His master from the shore replied:
The boat's about to sail,
As every other means you've tried,
Suppose you twist his tail?

"Its likely that will make him land,"
The deck man brave, though pale,
Approached with his outstretched hand,
To twist that there mule's tail.

There came a sudden kick behind!
The man—oh! where was he?
Ask of the soft blowing wind,
The fishes in the sea!

For a moment there was not a sound,
As that mule winked his eye,
As though to ask of those around:
"Now, how is that for high?"

"Cut that there mule's throat right away,"
The Captain did command;
But the noblest critter killed that day,
Was the fearless, brave deck hand.

THE OYSTER SEASON.—The Annapolis correspondent of the Baltimore *American* says: The oystermen generally complain of disappointed hopes the outgoing winter. The bivalvular season will soon close, and but for a few oystermen it has, in fact, closed already. The best of this class of "shellfish" have been uncommonly low this winter, probably on account of the mild weather. Men and oysters both were plentiful, and the demand also was brisk, and prices were fearfully low, and admirable oysters—the selects—which last winter brought seventy-five cents per bushel at this period of the year, on last Saturday were gladly disposed of at twenty-five cents per bushel. The oysters measure at least, unshelled, six inches long and three broad. The tongmen, as well as the dredgers, are astounded and astonished over their winter's work, and look in blank despair at the prospects of the spring and summer. Good common oysters were sold at ten cents per bushel, which in the aggregate would realize the tongmen about three dollars per week, and the majority of these have large families to support. The tongmen are now preparing for prospective fish and eels, the latter, especially, when pickled in brine, bringing good prices in Northern cities.

THE silverware delivered by the National Silver-Plating Co., No. 704 Chestnut street, Philadelphia, is giving entire satisfaction. All orders are promptly filled and no one need hesitate about sending them money.—*Lutheran Observer.*

THE Philadelphia *Times*, the organ of the Pennsylvania Railroad, admits that the debt of the road is one hundred and eighty-four million dollars.

WHEN the season for making presents comes, make some sufferer of your acquaintance a present of Dr. Bull's Cough Syrup, and note the benefit it will do him and the happiness you will receive.

THE American people use 700,000,000 postage stamps annually.

"German Syrup."

No other medicine in the world was ever given such a test of its curative qualities as BOSCHEE'S GERMAN SYRUP. In 3 years two million four hundred thousand small bottles of this medicine was distributed *free of charge* by Druggists in this country to those afflicted with Consumption, Asthma, Croup, severe Coughs, Pneumonia and other diseases of throat and lungs, giving the American people undeniable proof that GERMAN SYRUP will cure them. The result has been that Druggists in every town and village in the United States are recommending it to their customers. Go to your Druggist and ask what they know about it.—Sample bottles 10 cts. Regular size 75c. Three doses will relieve any case.

GOVERNOR ROBINSON has vetoed the bill passed recently by the New York Legislature allowing persons charged with crime to testify in courts of law. He says, among other things, that he will never admit the right of a murderer or burglar to testify on an equality with a law-abiding citizen, lest the latter's truthful narrative may be negatived by the perjury of an interested criminal.

MR. ROBERT MAXWELL, the master machinist of the Baltimore and Ohio railroad at Cumberland, is reported to have fallen heir to a fortune of $3,000,000, left by a relative in Europe. The ancestor was a Bavarian Duke.

Various Causes—

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light and red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action, and removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, to which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous.

THOS. W. WICKES,

JUST RECEIVED

SEEDS

From Jerome B. Rice, Cambridge Valley Seed Gardens, N. Y., consisting of

Tomatoes, Cabbage, Celery, Peppers,

CAULIFLOWER, and the new variety of

HANSON LETTUCE

the best in the world; the heads are very large size, deliciously sweet, tender and crisp, even to the outer leaves: color green outside and white within; free from any bitter or unpleasant taste; not recommended for forcing, but has no superior for family use.

EARLY ROSE SEED POTATOES.

Isn't it Strange?

That those who exhibit sound sense in most affairs of life, frequently purchase seeds from questionable sources, when they can obtain RICE'S at the same price from

THOS. W. WICKES.
March 9, 1878—2m.

BRIDGE NOTICE.

THE undersigned hereby give notice that thirty days from the date hereof they intend to petition the Hon. Board of County Commissioners to appoint commissioners to determine whether the public convenience requires the erection of a

Substantial Bridge

ACROSS A BRANCH OF MORGAN'S CREEK

that crosses the public road near Urieville Mill in the Second Election District, and to locate the place therefor.

S. A. MERRITT,
JACOB HIGHLEY,
WM. F. ROEDER,
March 30—5t. and others.

ROAD NOTICE.

THE undersigned hereby give notice that, thirty days from the date hereof, they intend to petition the Hon. Board of County Commissioners for Kent county, to

Locate the Private Road

leading from the main road at Locust Grove, through the lands of Rob't Comly, Stewart Matthews, and William O. Shallcross, to Shrewsbury Neck road, in First Election District, and to make the said road a public one.

OWEN HAYES,
C. H. J. SPARKS,
E. ANDERSON,
March 16, 1878—5t. and others.

KENT CO. COMMISSIONERS' NOTICE.

THE COMMISSIONERS OF KENT COUNTY will meet at their office in CHESTERTOWN, on

TUESDAY,

The 2d day of April, 1877,

at Ten o'clock, A. M., and will continue to meet at the same place and hour

EVERY TUESDAY,

UNTIL THE TWENTY-FIRST DAY OF MAY NEXT.

All persons who have sold or transferred any assessable property since the recent General Assessment are particularly requested to attend at an early day and have their assessments adjusted.

After Tuesday, May 21st,

no alteration will be made in the assessments during the present year.

COLLECTORS,

ONE FROM EACH ELECTION DISTRICT, and a

STANDARD KEEPER,

Will be appointed on
TUESDAY, the 9th day of April next.

All persons having accounts against the County are requested to present the same on or before

TUESDAY, the 21st of May next,

otherwise they will be excluded from the levy for this year. All accounts properly chargable to the County are required to be made out in a fair and clear manner and itemized—to be rendered under oath.

PENSIONS.

ALL APPLICATIONS for Pensions must be made in writing, stating condition and circumstances of the applicant, and signed by three or more free holders having a knowledge of the facts therein set forth.

By order,
T. WATERS RUSSELL,
Clerk to Kent Co. Commissioners.
March 16, 1878—td.

READ

The following testimonials of only a few in our possesion,

showing the Wonderful results of our

STANDARD;

NEAR CHESTERTOWN, MD., Feb. 20, 1878.

Messrs. T. R. Hubbard & Son:—Gentlemen: I used your Standard Phosphate in the spring of 1876 on corn, applied one handful to three hills, which gave me an increase of fully one-third if not more; I think it acted as well or *better* for me on corn than any I have ever used, and the 9 tons I bought of you the following fall for wheat done quite as well as two other High Grade Phosphates which cost more money, all applied the same.
JOSIAS RINGGOLD, JR.

NEAR CHESTERTOWN, MD., Oct. 3, 1877.

Messrs. T. R. Hubbard & Son:—I used your Standard Bone Super Phosphate last spring, carefully tested with two other high grade corn fertilizers, and I say your Standard is preferred, as it produced more corn, and there was no burning or frenching where applied. I will want some this fall for wheat.
Yours, truly, THOMAS C. PARSONS.

NEAR CHESTERTOWN, MD., Oct. 1876.

Messrs. T. R. Hubbard & Son:—I take pleasure in saying that your Standard Bone Super Phosphate that I used last spring on corn gave me, as well as other farmers in my neighborhood, full satisfaction, and I must say my crop was greatly increased. Applied one handful to three hills. I believe it to be a High Grade Fertilizer, and I want some this fall for wheat.
S. LECATES.

NEAR CHESTERTOWN, MD., March 13, 1878.

Messrs. T. R. Hubbard & Son:—I used in the spring of '76 two tons of your Standard Phosphate, for corn. I also used one other kind that cost me more money. Both applied, one handful to two hills, and I consider yours paid me, and did quite as well as the other article. Five tons on my wheat last year was equally satisfactory.
JAS. M. J. BYRON.

CHESTERTOWN, Feb. 7, 1877.

In riding to my farm last summer, I passed immediately along one of the corn fields, and observed particularly that in one place along the road the stalks were large, stronger than on any part of the field along which the road passed: I mentioned the fact to Mr. P. Stokes, my tenant, and he told me that the larger growth of corn was where he had used Messrs. T. R. Hubbard & Son's Standard Bone Super Phosphate. I subsequently noticed that the ears of corn were larger at the place referred to than elsewhere. We used only a ton as an experiment, never having, previously, used any Fertilizer on corn.
GEORGE VICKERS.

Morgan's Creek, Near Chestertown, Md., Feb. 25, 1878.

MESSRS. T. B. HUBBARD & SON:—Gentlemen; The ton of Phosphate bought of you last spring, applied to corn, one handful to 3 hills, gave me entire satisfaction. I used it along side good Compost Manure broad cast, but the corn was much better where I used the Phosphate, and so far as I have tried both upon wheat and corn I think it as good as any in the market.
JACOB BARKMAN.

Quaker Neck, Near Chestertown, Md., Nov. 4, 1876.

MESSRS. T. R. HUBBARD & SON;—Gents: Your Phosphate I used last spring on corn on low stiff land; applied one handful to three hills; it gave me a good yield, and besides there was none frenched where I used it, and had I applied it on my entire crop, I feel confident that I should have been richly paid, and I shall expect to use it more freely another season.
Respectfully, Yours, ISAAC CORDRAY.

EDESVILLE, MD., Feb. 25, 1878.

Messrs. T. R. Hubbard & Son:—Gentlemen: I used last spring ½ ton of your Standard Bone Super Phosphate on six acres of low stiff land applied to corn in the hill which gave me twenty-seven barrels of good corn. Have never before gathered from the same piece of ground over four barrels. I left out two rows to see what the difference would be, and the result was I got no corn from them nor scarcely any fodder, and I am confident that the increase of fodder of the six acres more than paid for the Phosphate. I want a ton for corn this spring.
Respectfully. OWEN CONNELLY.

EDESVILLE, KENT CO., MD., Mar. 4, 1878.

Messrs. T. R. Hubbard & Son:—Gentlemen: Where I used your Standard Bone Super Phosphate last spring on my corn, applied one handful to three hills, made me as much again as where I did not use it. Hence it paid me well and I will want some more this spring.
Respectfully, JAS. H. EDES.

HANESVILLE, MD., Jan. 1, 1877.

Messrs. T. R. Hubbard & Son:—I am glad to inform you that your Standard Bone Super Phosphate done well for me last Spring. Applied to corn, one handful to three hills, it paid me, and besides, did quite as much good as two other kinds used at the same time and same way, and yours cost me $6 less per ton.
Respectfully, R. G. NICHOLSON.

Hanesville, Kent Co., Md., Jan. 30, 1878.

MESSRS. HUBBARD & SON:—In answer to your inquiry, as to result of application I made of your Phosphate upon corn, last spring, permit me to say it was entirely satisfactory. I used other Fertilizers, for which I paid more, applying the same quantity, about 200 lbs. per acre, but saw no difference in the crop.
Very respectfully yours, &c., JNO. W. COREY.

Still Pond, Kent Co., Md., Feb. 28, 1877.

MESSRS. T. R. HUBBARD & SON:—Gentlemen: Where I applied the two tons of your Standard Phosphate last spring to corn at the rate of one handful to three hills was entirely satisfactory, it produced me the best corn I had on low land; I had no trouble of its Frenching as heretofore; it paid me the best of any I have ever used.
Respectfully, WM. L. BOWERS.

WORTON STATION, Feb. 4, 1878.

Messrs. T. R. Hubbard & Son:—Gentlemen: The result of your Standard Bone Super Phosphate applied to corn last spring, one handful to three hills, did for me what I thought impossible: it produced for me 40 bushels of corn to the acre, where I have never before got 10, and in fact have been in the habit of cutting it down heretofore for feed, as it was never before worth gathering. I also used one other high grade Phosphate, same proportion, and stable manure, broadcast, but they did not at all compare with yours in yield of corn, and cost me more money.
Respectfully, J. W. IVENS.

NEAR GALENA, MD., Feb. 25, 1878.

Messrs. T. A. Hubbard & Son:—Dear Sirs: In answer to your inquiry, regarding your Phosphate, I can say it has given entire satisfaction, as I have tried it on my wheat, corn and potatoes. I believe it has paid me as well as any I have ever used. I intend using it again this spring on my corn.
Yours, respectfully, E. B. WOODALL.

GALENA, Kent Co., MD., Jan. 11, 1877.

Messrs. T. R. Hubbard & Son:—Gentlemen: In reply to your card of Oct. 28, 1876, would say, that I used your Standard Bone Super Phosphate last spring on land that had been planted three consecutive years in corn, which yielded as much again corn as where I did not apply it, the land being equal.
Very respectfully, GEO. W. CHRISFIELD.

Locust Grove, Kent Co., Md., Feb. 2, 1878.

MESSRS. T. R. HUBBARD & SON,—Dear Sirs: Where I used your Standard Bone Superphosphate on my Corn last Spring, one handful to four hills gave me entire satisfaction—did quite as well as good barn-yard manure alongside broadcast. I am confident that your Standard is as good as any Phosphate in the market.
Respectfully, SAM'L J. HILL.

MASSEYS, March 22, 1878.

Messrs. T. R. Hubbard & Son,—Gents: I used one ton of your Standard Bone Superphosphate last spring as an experiment upon corn; applied one handful to three hills on stalk ground. The result was entirely satisfactory, and I am confident that it increased my crop fully one-third. You will please ship me 2½ tons more to Masseys on receipt of this, and oblige, yours truly, R. C. JOHNSON.

For Queen Anne's certificates see Centreville *Observer.*

To avoid disappointment and delay we advise that all orders be sent in early.

ADDRESS:

T. R. HUBBARD & SON, Manufacturers,
CHESTERTOWN, KENT CO., MD.

Remember the Place:

Opposite C. F. Stam's Drug Store.

J. FRANK CONNELLY,
Jan. 12, 1878. CHESTERTOWN.

NOTICE.

THE subscriber most respectfully informs the public that he has made arrangements with Dr. T. H. Whaland to run his MILL for the present year. She has been in very bad order, but has just undergone thorough and complete repair, and he feels satisfied that soon he will be able to give universal satisfaction. He will think if he fails to do so it must be the fault of the miller.

He wishes every one who feels that he has not had a good turn out, or work done satisfactorily, to inform him immediately, and he will adjust it.

Those in want of FLOUR, MEAL, or Horse Feed, can be supplied at any time. Persons sending Grain should see that it is sent in good order, properly measured, and sent by trusty persons.

Graham Flour constantly for sale.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. ***Glenn's Sulphur Soap*** produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N. B.—Buy the large cakes and thereby economize. Sold by all Druggists.

"HILL'S HAIR AND WHISKER DYE,"
Black or Brown, 50 Cents.

C. N. CRITTENTON, Prop'r, 7 Sixth Av., N.Y.
