The Kent News.

SATURDAY - - - - - MAY 17, 1879.

MARK GRAY, who shot at Edwin Booth, in Chicago, has been pronounced insane by a commission of medical experts.

THE question whether the whipping post shall be revived is the most exciting issue in Kentucky politics.

IT seems to be definitely settled now that Secretary Sherman will be Grant's strongest opponent.

THE Pennsylvania State Legislature has passed a bill offering a premium for fruit or shade trees planted along the roads.

PAROLE'S defeat in the race for the Chester Trade Cup may be easily explained. The horse has never been considered a good one in a crowd.

GROUND was broken on the 8th inst. for an addition of 75 feet on the western end of Congress Hall, Cape May, N. J., to be of brick, four stories high, with French roof, same as the main structure.

AN artesian well has been sunk at Ocean City; at a depth of 80 feet, good water was struck, and it has been flowing ever since. This will be a great help to the place.

THE Woodruff Scientific Expedition around the world has been abandoned for the reason that a sufficient number of volunteers at $2,500 apiece cannot be obtained.

THE colored emigrants to Kansas are complaining of a lack of "sympathy." They should go to Massachusetts or Iowa. They would get a plenty of it there—provided they do not stay too long.

THE Annapolis correspondent of the Baltimore *Sun* says that Judge Miller, of the Circuit Court, has received an anonymous letter, threatening, if justice is not done to colored people in Maryland, that they will begin an exodus.

EX-CONGRESSMAN SCOTT LORD, several years ago, was forced to take the benefit of the bankrupt law. Recently he returned to his former home, in Genesee, N. Y., and paid, principal and interest, all his past indebtedness, from which the law had given him a release.

PORTABLE gas is sold and delivered in England like milk. People in the country and in villages receive it in copper vessels from large cities. This method is additionally popular from the fact that it dispenses with the erratic and depraved meter.

SAMUEL BEVAN, senior member of the firm of Samuel Bevan & Co., dry goods merchants, Baltimore, died Saturday night last, at 10 o'clock, of general breaking down of the system, after a sickness of three months. He was the oldest jobbing dry goods merchant in Baltimore, having been in the business half a century.

THE Baltimore dog pound was opened on Tuesday, and at the close of business for the day 297 dogs had been received and held to await claimants or a watery grave at the expiration of forty-eight hours. The price paid at the pound is 25 cents per dog. Some boys brought in ten to twelve dogs.

THE Louisville *Courier-Journal* published the other day a column of bloody crimes and tragedies which had occurred in a single day in Ohio—the President's own State. It would be obviously unfair to hold the mild Mr. Hayes responsible for them, yet this is exactly the method of procedure adopted by the stalwarts toward leading Southerners.

AT a recent opening of the Supreme Court at Barnstable, Mass., there appeared thirty females, none of them more than twenty years of age, and yet they were all plaintiffs in divorce cases! The general plea was desertion for three years, which has recently become by law a good cause for divorce, and more than double the number of such suits in Massachusetts.

THE President, it is said, vetoed the new army bill because he does not "propose to permit the office of President to be degraded." As our old friend, Mr. Squeers, would say, "Ere's richness for you!" We had always supposed that Mr. Hayes had degraded the office of President himself, by taking possession of it without ever having been elected.—*Baltimore Bulletin.*

JOHN S. WALTERS, aged about thirty-eight years, a former tobacco merchant on Light street and other streets in Baltimore, and lately travelling salesman for the tobacco house of Holmes & Sons, Exchange Place, disappeared on Friday night of last week, from the steamer Tangier, Capt. Wilson, on the trip from Baltimore to Crisfield, and is believed to have gone overboard and drowned.

A STEAMER from Constantinople, bound for New Haven for a consignment of arms and amunition, has aboard two magnificent Arabian horses, the property of General Grant, who received them as a gift from the Sultan of Turkey. One is a dapple gray and the other a coal-black, with a white star on his forehead. They are housed on deck, and have borne the voyage well. They will be taken to Philadelphia and cared for in Mr. G. W. Childs' stables until Gen. Grant's return.

WHAT ANOTHER TERM OF GRANT MEANS.—Blaine does not propose to follow Conkling. He sees that if grant goes back into politics as the great and only Republican leader, he comes to stay. The only Republican party will be at an end. There will be only a Grant party. The foremost Republican statesman will dwindle into insignificance. Senator Conkling alone will remain important as the personal representative of his sovereign.—*Cincinnati Commercial, Rep.*

THE New York *Sun* (independent) says: "The fraudulent President of the United States, backed by the men who combined to give him a disgraceful tenure of the high office he holds, declares that whenever in his judgment it is necessary to employ the army and navy of the United States to control elections he will so employ them. The issue remains as Congress has presented it, that the use of troops at the polls is not only contrary to the spirit of our institutions, but dangerous to the liberty of the people."

THE Confederate monument erected by the Ladies' Monumental Association in the Capitol Square at Columbia, S. C., was unveiled Tuesday. Military organizations from all parts of the State, and from Charlotte, N. C., participated in the ceremonies. A salute of eleven guns was fired by the German Artillery of Charleston. The procession, consisting of twenty-five companies of cavalry, infantry, veterans and artillery, marched through the streets to Capitol Square, where Gen. John S. Preston delivered the oration. Gov. Simpson presided. About 12,000 persons were present.

THE TALMAGE TRIAL.—The trial of Rev. Dewitt Talmage for conduct indecorous in a clergyman, has ended in an acquittal, or rather in the Scotch verdict of "Not proven." The New York *Nation* writes the epilogue to the comedy in the following words:

"The curious feature of this is that the court, composed in the main of professional moralists, is divided on facts which are not disputed. The question finally submitted to them was not, in other words, as we understand it, whether certain acts had been committed by the defendant, but whether they were blameworthy. Ten members of the Presbytery, at least, hold that they amounted to untruthfulness and deceit, and the others that they were entirely harmless. One of the charges, let us add, was of having, for the purpose of raising money for the church, resort to the device of asking a man publicly to set down his name for a sum which, by private understanding with Talmage, he was not to pay, in order to induce others. This is really a modification of the mock auctioneer's plan of operations; but the majority of a church court have declared that they see no wrong in it, or, at all events, no plausible wrong." The court, however, probably acquitted Talmage principally upon the ground that he suits his congregation. What thay seek in him is "sensation," and he gives it to them, full measure. In fact, this trial is exactly in his line, and jumped exactly with his vein.

A PENINSULA TRIP.—On Friday week a number of journalists from New York and Philadelphia, at the invitation of the Philadelphia, Wilmington and Baltimore Railroad Company, made a trip over the Delaware railroad, visiting Ocean City, Crisfield, the Westover estate, Governor Ross's farms, several large canning establishments and other points of interest on the peninsula. The object of the trip was to display to the journalists the superior advantages of the peninsula as an agricultural country and to direct the attention of settlers, who desire good homes and easily tilled farms, to the great attractions of the lands between the Chesapeake and Delaware bays. The excursion proved to be an exceedingly pleasant one.

THE Crisfield *Leader* says that a number of preachers a few days ago went out sailing in the sound in one of our fast sailing sloops. They desired to see how dredging was done, and the captain started in the direction of a boat which was at work. As soon as the captain, who was violating the law, saw this boat approaching him he hauled in his dredges and made sail, thinking the officers of the law were after him. The preachers, however, commanded him to "heave to," which he did, thinking himself a "goner." He was overjoyed when he found they were ministers of the Gospel and not of the law.

THE

"COMPETITOR" REAPER,

MANUFACTURED BY

WM. A. HYLAND & Co.

Galena, Kent Co., Md.

The COMPETITOR REAPER, invented by us, has been thoroughly tested in past seasons. There are many reasons why it should be preferred above all others by the Farmers of Kent. It is sold as cheap as any other; the parts can always be had at home; it took the FIRST PREMIUM at Middletown and Kent Co. Fairs, and it is, we believe, the best in the market. Among the numerous testimonials received are the following:

Georgetown, Kent co., Md., April 19, 1879.

Messrs. W. A. Hyland & Co.

Gentlemen:—The Competitor Reaper I purchased of you last season gave me entire satisfaction. Mr. Morris Davis, who carries on the farm for me, says that he can cut from 25 to 30 acres per day, and believes the Reaper to be a reliable machine, working well in all its parts; runs very light to the horses and is easily managed. I recommend the Reaper to any farmers wanting a new and good Reaper.
Yours, resp'y, A. WOODALL.

Masseys, Md., Sept. 10, 1877.

Messrs. W. A. Hyland & Co.—Gentlemen:—The Competitor Reaper I purchased of you last June did its work to perfection, not causing one moment's detention in cutting my entire crop of wheat. In my opinion it has no equal for durability, simplicity of construction, ease of draught, &c. The matter is I would have no other. Yours, very resp'y,
RICHARD C. JOHNSON.

Masseys, Md., Sept. 15, 1878.

W. A. Hyland & Co.—Dear Sirs:—I have used several Reapers and consider yours the best. DR. C. H. B. MASSEY.

Masseys, Md., April 19, 1879.

Messrs. W. A. Hyland & Co.

Gentlemen:—The Competitor Reaper I bought of you last year gave me perfect satisfaction. I have used the following named reapers and believe yours excels each and all of them: The Hussey, Pennington, Jersey Blue, Wood & Champion. I purpose buying another "Competitor" Reaper from you next year to use on a farm that I lately purchased. I cheerfully recommend your Reaper as a reliable and easily managed machine.
Yours, SAM'L HURLOCK.

Galena, Kent co., Md., April 15, '79.

Messrs. Wm. A. Hyland & Co.

I have taken a great interest in your Reaper from the time you first put it out, and have followed it through its many improvements. I believe it to be the lightest draft, the most durable and satisfactory in its work of any dropper that I have ever seen. I have one and would not exchange it for any other make.
Yours, respectfully,
CORNELIUS J. SCOTT.

Masseys, Kent county, Md., April 10, 1879.

Messrs. W. A. Hyland & Co:—Gentlemen:—The Reaper I purchased of you last year gave me entire satisfaction; it worked well in every particular, and I cheerfully recommend the Competitor Reaper to those wanting Reapers for the coming harvest, believing it to be a first class and reliable Reaper. Yours, respectfully,
STEPHEN BOYER.

Masseys, Md., April 4, 1879.

Messrs. W. A. Hyland & Co:—Gentlemen:—I am well pleased with the Competitor Reaper I purchased of you. I have used the Reaper two years with great satisfaction, cutting from 20 to 25 acres per day, and believe it to be the best Reaper out, and cheerfully recommend it to farmers needing new machines.
Yours, truly, SAM'L CACY.

Masseys, Md., March 10, 1877

Messrs W A Hyland & Co:

Gentlemen:—The new Competitor Reaper I purchased of you for the harvest of 1876 gave me the utmost satisfaction in cutting my grain. I cut fifty acres in two days, and I am perfectly satisfied that it is superior to any drop reaper now used.
Very resp'y, yours,
R. H. CORBALEY.

Philadelphia, March 1, 1877.

Messrs. Hyland & Co:—Gents: I used your new Competitor Reaper on my farm near Galena with great satisfaction. For strength and lightness of draught it cannot be excelled. D. MCCAULEY.

Near Galena, Aug. 1, 1877.

Messrs. W. A. Hyland & Co.—Gents: I have used the Competitor Reaper I bought of you for two seasons, and consider it to be the most economical machine ever offered to farmers. There has been no expense incurred by breaking or any part of its works getting out of order; and with two horses it will reap 20 acres of wheat per day; runs very easy and light to the horses, and can be readily managed by any farm hand. Resp'y, yours,
EUGENE GOODING.

Cecilton, Md., April 12, 1879.

Messrs. W. A. Hyland & Co:

Gentlemen:—The Competitor Reaper that I purchased from you last season proved all that it was recommended to do and I believe it to be the best Reaper in use. It is of light draft for four horses and is very easy on their necks. It does its work well. *I cut 126 acres of wheat in 4½ days last season* with less expense than I ever did before.
Yours, resp'y,
JEREMIAH C. PRICE.

Galena, April 20, 1878.

W. A. Hyland & Co:—I bought a Competitor Reaper of you last year and cut my wheat (over one hundred acres) and am well pleased with the working of the machine. It runs very light and does the work well. Resp'y,
SAMUEL TODD.

Near Galena, April 15, 1878.

Messrs. W. A. Hyland & Co:—Gents: I wish to inform you that the Competitor Reaper I bought of you last season worked to perfection, cutting with ease both wet and dry grain; did not loose fifteen minutes time, and I can see no reason why my fellow farmers would go from home to buy a machine when such a good one can be obtained in our own county.
Yours, E. B. WOODALL.

Hanesville, April 22, 1879.

Messrs. Hyland & Co:—The Competitor Reaper I bought of you last harvest did its work well. It runs lighter than any machine I have ever used. I cheerfully recommend it to any one in want of a good, reliable machine.
Yours, LEWIN USILTON.

Galena, April 1, 1879.

Messrs. Hyland & Co:—Gents: The Reaper I purchased of you last year I am very much pleased with. I cut 140 acres without any trouble whatever. I cut 25 acres a day and can cut 30.
Resp'y, H. J. GRAY.

Still Pond, April 15, 1878.

Messrs. W. A. Hyland & Co:—Gentlemen: The Competitor Reaper I bought of you last harvest did its work perfect. We first tried it in a bottom where the wheat was wet and down, and it did the work elegant, not leaving or running over any wheat. We cut in valley, hill-side and hill-top, and it acted perfectin every place. I can cut from 25 to 30 acres per day. It runs very light, and there is no weight of the Reaper on the horse's neck, and it gives me pleasure to say that farmers can buy a first-class machine in their own native county. Very truly, yours,
W. T. HEPBRON.

Church Hill, Q. A. co., April 15, '78.

Messrs. Hyland & Co:—The Competitor Reaper I bought of you last season I consider a first-class machine. It sustained its reputation as a mower as well as reaper; I have used various kinds of machines and I consider this the best machine I ever used, and I can give this certificate without the least hesitation.
Resp'y, JOHN BAXTER.

JOHN S. KNAPP—Sir: Having used the London Horse and Cattle Food on both my horses and cows, I cheerfully recommend it to the public as a good condition food for the horse and a profitable condiment for cattle, as it will cause cows to give more milk and make at least 25 per cent. more butter than any condition powders I ever used. Hoping this will induce my friends to try it, after which I am convinced they will bear the same testimony as to its merits as I do.

Milling! Milling!

THE subscriber most respectfully informs his old customers and the public in general that he has made arrangement with Dr. T. H. Whaland to run his Mill for the present year, and will use his best endeavors to give entire satisfaction. The Mill has undergone a very

Thorough Repair,

and has just finished a NEW BOLTING CLOTH as large as any on the Eastern Shore. This will enable him to do double the amount of work done heretofore, and in a very superior manner.

He hopes by strict attention to business to merit a share of public patronage.

The Great Cause of HUMAN MISERY.

Just Published in a Sealed Envelope. Price Six Cents.

A LECTURE on the Nature, Treatment, and radical cure of Seminal Weakness or Spermatorrhœa, induced by Self Abuse, Involuntary Emissions, Impotency, Nervous Debility, and Impediments to Marriage generally; Consumption, Epilepsy and Fits, Mental and Physical Incapacity, &c.; by ROB'T J. CULVERWELL, M. D., author of the "Green Book," &c.

The world renowned author, in this admirable Lecture, clearly proves from his experience that the awful consequences of self-abuse may be effectually removed without medicine and without dangerous surgical operations, bougies, instruments, rings, or cordials; pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

☞ This Lecture will prove a boon to thousands and thousands.

Sent under seal, in a plain envelope, to any address, post-paid, on receipt of six cents, or two postage stamps.
