The Kent News.

SATURDAY - - - - AUG. 9, 1879.

AMERICAN beer has taken the first prize at the Paris Exposition, it is now exported to Australia, France and other countries.

MASSACHUSETTS has hit upon a happy expedient for getting rid of Ben Butler. She is going to have him appointed Minister to England.

A PARTY of Philadelphia capitalists have purchased Five Mile Beach, above Cape May, with a view to building up a new summer resort there.

IT is reported from Washington that General McDowell will be placed on the retired list and that General Fitz John Porter will take his place.

TWELVE millions of dollars are invested in Coney Island improvements, while it is estimated that $5,000 would have bought the whole island ten years ago.

THERE was a fashionable wedding at Newport the other day, and among the gifts to the bride was one of one thousand $100 bills from her father, Charles H. Burdick.

THE Emperor of Japan celebrated the Fourth of July by giving an audience to General Grant. It is announced that the General will leave for America the last week of this month.

SENATOR McDONALD, of Indiana, is morally certain of a Democratic victory in 1880. He thinks the weakest candidates that could be brought out by the two parties would be Tilden and Grant.

WILLIAM E. CHANDLER told a reporter in Eureka, Nev., the other day that a Republican Presidential fight would be between Blaine, Sherman and Grant, with the chances decidedly in favor of Blaine.

A SPORTING MAN was murdered in Louisville recently, and all the gambling saloons closed up for a week "in respect to the dead." This presents a new suggestion as to the method of shutting the doors of such places.

A GENTLEMAN from Mississippi says that Jefferson Davis will make a mint of money out of his book, which is to be published this fall by the Appletons The general expectation is that it will have a tremendous sale and bring the author a handsome income.

AT a meeting in Chicago the other day a certain Col. Daniel, professing to hail from Washington, stated that "two hours a day was long enough to work." "Make it an hour and a half," said a gentleman tramp among the audience, "and I am with you."

SEVERAL ladies in Kentucky have signified their intention of running for State librarian before the next Legislature. Mrs. Cornelia Bush, the present incumbent, will also be a candidate, and it will be a "woman's fight" entirely, and promises to be an exceedingly interesting one.

THERE are a great many people in this country, says the Philadelphia *Times*, who will never be satisfied that things are right until the government is turned into an immense almshouse and agrees to see that they are all cared for. It looks ridiculous that people should have to work for money when the government presses can grind out their greenbacks by the million without any trouble whatever.

A COMMITTEE of the United States Senate is about to assemble on the shores of the Narragansett Bay, Rhode Island, and determine the question whether the State isn't enjoying one more member of Congress than it is entitled to. Rhode Island is the richest State in the Union. A poor man is of little consequence there. Even a crippled Union soldier is denied the right of voting unless he owns a bit of land.

A METEORIC STONE IN OHIO.—A meteoric stone weighing 333 pounds, has been dug up near Oxford station, on the Pan Handle road. It has fallen within the past two weeks, as evidenced by the freshness of the earth in which it buried itself to the depth of seven feet. People from all parts of the country are flocking to see it, and the owner is the most excited man in seven counties. He has a fine residence uninsured, and sent at once for the insurance men. He is prepared for the next.

REV. JOHN GRAHAM, D. D., of Brighton, England, lost his life while bathing in the surf at Cape May on Friday morning of last week, having ventured out too far. The body was recovered through the brave efforts of Dr. Graham's niece, Miss Bessie Graham. She secured the drowning man and clung to the pier with him until aid reached, when the doctor was found to be dead. The cause of his death is said to have been congestion of the heart, resulting from fright.

GEN. PORTER'S CASE.—It is stated that at the instance of Gov. McClellan Senator Randolph, of New Jersey, chairman of the Senate committee on military affairs, will introduce soon after the meeting of Congress and press through his committee a bill restoring Gen. Fitz John Porter to his rank as major general, with all his pay and allowances since his dismissal. It is said General Sherman favors this movement.

HON. JOHN H. STARIN, Representative in Congress from the twentieth district of New York, is looming up for the republican nomination for Governor of that State. He is a large manufacturer and very wealthy, besides which he is a fine organizer and very popular. Clubs in favor of his nomination are now being formed throughout the State, and Mr. Starin is understood to be willing to make the canvas.

A TASTEFULLY PLANNED SUICIDE.—Mrs. Elizabeth Schnell, wife of a Wheeling (W. Va.) saloon keeper, committed suicide Saturday morning, induced thereto, it is supposed, by a quarrel with her husband. She made all her preparations with the greatest care. It was found that she had first attired herself in clean underclothing, over which she wore a fine night dress. Then, after carefully dressing herself as noted, she had got into the bed and arranged the bed-clothing; the coverlet had been neatly turned over to her waist and tucked in on all sides of the bed, while underneath her head and about her neck she had folded a quilt to prevent the blood from flowing upon her night clothes or soiling the bed-clothing. Everything ready, she placed the pistol to her right temple and fired. Her husband rushed to the spot, but before he could secure a physician the unfortunate woman died.

The thirteenth section provides that no person shall be entitled to be or remain registered in any precinct or election district, unless he shall have been a resident of the State for one year, and of the city of Baltimore, or the county in which registration is claimed, for six months next preceding the next ensuing election, at which such registration would be evidence of the right of the person so registered to vote; and in case any county or city shall be so divided as to form portions of different electoral districts for the election of representatives in Congress, delegates or other officers, then to entitle a person to be or remain registered in any particular section or part of such county or city, he must have been a resident of that part or section of the electoral district in which he claims to be or is registered for six months next preceding the next election, at which such registration would be evidence of the right of the person so registered to vote; and the residence necessary to entitle any person to be or remain so registered, shall be an actual bona fide residence within the precinct or district within which such person may claim to reside and to be registered, and such actual bona fide residence shall be established upon the oath or affirmation of competent evidence to the satisfaction of the register to whom the application is made, and to the satisfaction of the judge or judges to whom any appeal is made under the provisions of this Act; and the neglect or refusal of any person deeming himself aggrieved by the refusal of any officer of registration to register his name, or by the striking off of his name from the list of qualified voters, to appeal by petition from such action, as provided for in this act, shall be deemed and taken to be conclusive evidence that the said person was rightfully refused registration, or that the name of such person was rightfully stricken from the list of qualified voters of such precinct or election district.

The law further provides, that whilst discharging the duties imposed by the several sections of this act, said officers of registration shall have and exercise the powers of a Justice of the Peace for the preservation of order around the place of registration, and may compe the presence of witnesses for the purpose of obtaining any information necessary to an intelligent discharge of the duties of their office; they shall have power to issue summonses, attachments and commitments, to any constable or sheriff, who shall serve such process as if issued by a Judge of a Court or a Justice of the Peace.

1879. WHEAT SEEDING! 1879.

Attention, FARMERS!

The undersigned PIONEER in the manufacture of FERTILIZERS in this city, and engaged, since 1858, first as a member of the firm of J. J. & F. TURNER, BY WHOM the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate,"

Were *originated*, and since 1864 a member of the late firm of J. J. TURNER & CO., (dissolved 19th March, 1878,) relying upon his experience and personal reputation, hitherto acquired in the uniform excellence of these Fertilizers as manufactured *by him*, offers them *in his own name* to the agricultural public.

Having secured the *Works of the old firm*, 111 **McElderry's Wharf**, with the complete machinery, *specially constructed for their uniform manipulation*, he will continue the manufacture of

Excelsior and Ammoniated Phosphate

On his own account, with his office adjoining the works, where he will be pleased to see his friends and patrons, assuring them that the Fertilizers manufactured BY HIM shall be of the *same uniform and high standard quality* as sold by the *old firms* since their introduction.

J. Q. A. HOLLOWAY,

ORIGINATOR and MANUFACTURER of

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano and the ever durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling in with the Grain—and it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years' experience in the use of the "EXCELSIOR," manufactured by me, that an application of 100 pounds is equal in its effects to 200 lbs. of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with *any Fertilizer sold in the United States* in Quality, Mechanical Condition and Price.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and *superintending in person their manufacture—as for the past twenty years—*

Uniform Quality is Guaranteed.

☞ Farmers to secure the ONLY GENUINE EXCELSIOR AND PHOSPHATE prepared according to *my original formulas* established in 1858, should see that every Bag is branded as above, with the *Analysis* and *my name in Red Letters.*
