To Measure Corn in the Crib.

Two cubic feet of good, sound, dry corn in the ear will make a bushel of shelled corn. To get, then, the quantity of shelled corn in a crib of corn in the ear measure the length, breadth and height of the crib, inside of the rail; multiply the length by the breadth, and the product by the height; then divide the result by two, and you have the number of bushels of shelled corn in the crib. In measuring the height, of course, the height of the corn is intended. There will be found to be a difference in measureing corn by this method between fall and spring, as it shrinks very much in winter and spring, and settles down.

To Determine the Weight of Cattle.

Measure in inches the girth round the breast, just behind the shoulder blade and the length of the back from the tail to the fore-part of the shoulder blade. Multiply the girth by the length, and divide by 144. If the girth is less than three feet, multiply the quotent by 11; if between three feet and five feet, multiply by 23; if between seven feet and nine feet, multiply by 31. If the animal is lean deduct 1-20th from the result. Take the girth and length in feet, multiply the square of the girth by the length and multiply the product by 3-36. The result will be the answer in pounds. The live weight multiplied by 6.05 gives a near approximate to the net weight.

Miscellaneous.

Boards are sold by Superficial Measure.
A Firkin of butter is 56 lbs.
A Tub of butter is 84 lbs.
A Bale of cotton in Egypt is 90 lbs.
A Commercial Bale in America 400 lbs.
A Pack of wool is 240 lbs.
A Tod of wool is 28 lbs.
A Wey of wool is 182 lbs.
Two Weys of wool are a sack.
A Clove of wool is 7 lbs.
A Ton of hay is 2,000 or 2,240 lbs., according to custom.
A Bale of hay is 300 lbs.
A Cube of a solid mow of hay 10 feet square weighs a ton.
A Chaldron of coal is 36 bushels.
A heaped bushel of Anthracite coal weighs 80 lbs.
A Cord of wood is 128 solid Feet.

THE Republican National Convention will consist of 756 delegates, and a majority only is required to nominate. Two delegates is allowed for each Representative and Senator in Congress and two from each Territory and the District of Columbia. There are 293 Representatives, 76 Senators, 8 Territories and the District, and that number double makes 756. The democratic national convention consists of only 738 delegates who are entiuled to vote. The District of Columbia delegates and those from Territories are merely honorary; they are not permitted to vote. The rule now in force in holding democratic conventions requires a two-thirds vote to nominate candidates for President and Vice-President, but it will be within the power of the coming convention to abolish it and substitute the majority rule if it sees fit. In the republican convention it will require 379 to nominate, while in the democratic—unless the rule shall be changed—it will require 492.

GENERAL GRANT A CANDIDATE.—The following relative to Grant's position appeared editorily in the New York *Times* of Tuesday: "A near personal and political friend of ex-President Grant, who doubtless knows whereof he speaks, authorizes the following as a correct statement of the General's position with reference to the presidency: He says Gen. Grant is not now or has he ever been, a candidate for the presidential nomination; but should the Republican National Convention nominate him in the same manner as any other candidate would be nominated, he would deem it his duty to the country and his party to accept. Travelling abroad, he was a stranger to the contest now going on for the presidential nomination, and has written no letters on the subject to any person, and all assertions to the contrary are without foundation in fact."

A WEATHER PROPHET.—For several years past Mr. Henry G. Venner, of the Canadian geological survey, has been steadily acquiring quite a reputation for the accuracy of his forecast in relation to the weather. Last year and the year before he foretold the coming of storms at or about certain specified days in the future, and the variations between the time he foretold that the storm would occur were in every instance very slight. This year he predicted the coming of the great snow storm which has lately passed over the country from Nova Scotia southward, and announced at the same time that there would be two heavy falls of snow in March—one on the 17th of the month and the other on the 21st. He also states that there will be very severe cold weather between the 20th and 25th of this month, and much snow during the month of March. Upon what meteorological grounds Mr. Venner bases his weather predictions—for they really appear to be more than forecasts—we do not know; but it is quite remarkable that while our signal service can only impart information as to the probable state of the weather within the next twenty-four hours, Mr. Venner has been successful in announcing thirty and sixty days ahead—which appears to be the limit within which he confines his predictions—the storms that are coming, and often undertakes to give the minor fluctuations of the weather during the same period.

WASHINGTON, D. C. March 6th, '78.
This is to certify that I have been using in my family, for the past seventeen years, Prof. Laroque's Anti-Bilious Bitters. They have given entire satisfaction, and I gladly recommend them to all sufferers. J. J. GEORGE,
2118 Pennsylvania Avenue.

These Bitters have been before the public for more than half a century, and are destined to relieve thousands yet unborn from diseases of the Stomach and Liver, Headache, Costiveness, Nervousness and Dyspepsia. All druggists recommend them. Price, 25c. a package; $1 a bottle. W. E. Thornton, Prop'r.

A Remarkable Result.
It makes no difference how many Physicians or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Disease. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boschee's German Syrup. To such we would say that 50,000 doses were sold last year without one complaint. Consumptives try just one bottle. Regular size 75c. Sold by C. F. STAM, Chestertown, and F. H. GOODWIN, Millington.

THE fourth report of Messrs. T. B. Ferguson and Thomas Hughlett, Commissioners of State Fisheries, has been issued. It is a very interesting document, showing the extensive distributions of the various kinds of fish in the waters of the State. The trout has been abundantly distributed in some fifty brooks, streams, or ponds suitable for the purpose. An immense quantity of shad has been placed in the waters of the Choptank, Chester, Susquehanna, Miles, Tred Haven, Patuxent, Gun Powder, South, Pocomoke and Bush rivers, and in Tuckahoe creek. The propagation of European carp has been pursued with vigor in Druid Hill Park, where there are ponds for that purpose, and its distribution will be an interesting feature, proving as it will the practicability of introducing foreign fish into our waters.

THE landholders of Great Britain are reported to be 1,104,067 in number, of whom about fourfifths own less than one acre—that is to say, to be accurate, 816,294 own 179,348 acres, an average of about a-fifth of an acre apiece. One hundred and thirty-one thousand four hundred and fifty-four own between one and ten acres; 76,109 between ten and fifty acres; 27,052 less than 100 acres; 34,684 less than 500; 5,625 less than 1,000; 3,310 between 1,000 and 2,000; 2,402 less than 5,000 acres; 831 own under 10,000, and 25 persons own upwards of 100,000 acres.

A CORNER IN RED FLANNEL.—A small boy in a public school at Lansing, Michigan, tied a piece of red flannel around his neck. His teacher was afraid of diptheria and told him to go home and stay there until his throat was well. As he was going he met three more of them coming and they naturally wanted to know what was up. The result was a corner in the red flannel market. To see that school that afternoon you would have thought that red flannel around the neck was the latest mandate of imperious fashion for small boys.

ADVICE WITHOUT CHARGE.—When you write or speak, do not use a bushel of words to express about a tablespoonful of thought. Better think twice before you speak once. After expressing a thought clearly stop, even though it cost you a mighty effort to do so. It is a high accomplishment to learn how to stop when you get through. The effect on the listener is pleasant, and you will gain far more credit than by speaking longer. He that is clear can afford to be short. He that is not can hardly afford to speak at all.

BAD NEWS FOR ICE MONOPOLIES.—The Boston *Herald* says the present season, though so far unfavorable for the collection of ice in States south of Maine, has proved unusually fine in the latter, and a great crop has been harvested. A section of less than twenty miles of the Kennebec river, in Maine, constitutes now the principal ice farms of the country, and this season there will be harvested in that neighborhood upwards of one million tons of the crop.

A REPUBLICAN leader at Albany, and a close friend of senator Conkling, asserts that Gen. Grant will attend the Chicago national convention in person, and after receiving a complimentary vote withdraw from the campaign and ask all his friends to join in the support of Conkling.

WANT THE WAGES ADVANCED.—The Baltimore City Councils have passed a resolution instructing the city Directors in the Baltimore and Ohio Railroad to urge upon the Board the propriety of increasing the pay of the employees so as to correspond with those of other corporations.

A CALIFORNIA matrimonial advertisement winds up as follows: "Fortune no object, but should require the gal's relations to deposit fifteen hundred dollars with me as a security for her behavior."

THEY call it a romantic marriage in Michigan when a couple of the neighbors get the bride's father into a back room and sit on him to prevent his interrupting and breaking up the wedding.

IN this happy country, says the Boston *Courier*, there are but two things certain—death and an Indian war.

MALTBY HOUSE,
BALTIMORE.
APRIL 1st, 1879,
Recognizing the fact that the relationship existing between the counties of Maryland and the City of Baltimore is such that residents of the Counties have occasion to visit the city frequently during the year; in consideration of these facts and the liberal patronage extended the "Maltby" in the past, I deem it but a matter of justice that some discrimination should be made in their favor. I have therefore concluded to
Reduce Price of Board to $2 per Day
feeling confident that the same will be fully appreciated by them, and at same time merit and secure an increased share of their patronage. Assuring them that nothing will be left undone that can add to their comfort during their stay.

BIBB'S
"NEW BALTIMORE,"
THE ONLY GENUINE
Fire-Place Heater.

UNEXCELLED!
Manufactured by B. C. BIBB & SON, Inventors & Patentees, Baltimore, Md.
Special features & recommendations of Bibb's New Baltimore Fire-place Heater:
1st. Manufactured in Baltimore, where invented and perfected.
2d. *All the inside parts can be inserted without removing heater from fire-place.*
3d. The room in which it is placed will always be comfortable, as it sets well out of the fire-place, and has *entire front radiation*, thus giving more heat in the lower room than any other.
4th. It has the celebrated *Solid Slide Centre Grate*, by which the clinker can be removed *without disturbing the fire*, besides this peculiar style of grate lasts longer than any other.
5th. It is arranged to *drop ashes* into cellar when so desired.
6th. *It makes no dust* when shaking grate thus saving furniture and carpets.
7th. It is the *latest and newest style*, and the only Heater that meets the wants of the public in *all particulars*.
Before you buy a Cook Stove come and see the "New Regulator," a Cook Stove with revolving top, thus saving the lifting of pots and kettles when you wish to change their position on the stove.
Other styles of FIRST-CLASS COOK STOVES & Ranges constantly on hand.
Those in want of a first-class Parlor or Dining-room Stove, should not buy until they have seen the "HEXIGON," a new Stove, of new style, with all the improvements of grate and draught.
