The Kent News.

SATURDAY.....MARCH 27, 1880.

THE New Orleans *Democrat* estimates at more than $100,000 the loss of mules and other stock in the Ouachita Valley section of Louisiana from a disease produced by the bite of myriads of gnats that invaded that part of the State lately.

Two first-class Presidential booms were started last week—Hancock in Louisiana, and Hendricks in Indiana. At the same time Pennsylvania came out strong against Tilden, and things generally in that State got very much mixed.

BAYARD has carried the Massachusetts Legislature, just as he did the General Assembly of Maryland, by a large majority. Delaware is a little State, but she can raise a big man. Bayard in the White House would bring things back to the better days of the Republic.

THE municipal election in Hagerstown on Monday resulted in a handsome Democratic victory. For the first time in four years a Democrat was elected to the Mayoralty and the Council now stands four Democrats to one Republican. We tender our congratulations to the Washington county Democracy.

THE contribution of supplies to load the United States vessel Constellation, which sails from New York in a few days with a cargo for the relief of Irish sufferers, are stated to be more than enough, and it is expected that another vessel may be dispatched. Ireland certainly has no reason to complain of the response given on this side of the water to her appeals.

THERE does not seem to be much chance for the Peninsular Ship Canal, either by the Sassafras or Choptank route. Members of the Committee now having the matter under consideration frankly admitted when interrogated, that they did not think Congress would be likely to pass any bill appropriating money to build either route at present, though some of them thought that possibly some future Congress might do so.

DURING a school entertainment in the public hall, at Lincoln, Pa., Saturday night, at which 500 persons were present, the floor gave way, precipitating 150 persons to the floor below. Many others jumped from the windows, which are twelve feet from the ground. Thirty persons were injured. During the confusion the scholars rushed on the stage, overturning two lamps, setting fire to the carpet, but the fire was extinguished before serious damage was done.

THE United States Circuit Court has given a decision that the California law prohibiting the employment of Chinese was unconstitutional. This was to be expec, for the very principal of the law and the whole of the legislation of the Kearney sprige and quality was in contravention of our principles of Government. With Kearney convicted as a criminal agitator and the force of this decision, the Celestials are likely to have more peace and the country likewise.

COLORED MEN AS JURORS.—The Balto. *Gazette* of Tuesday says: In accordance with the decision of the Supreme Court of the United States in reference to colored men having the right to serve as jurors, &c., the Supreme Bench has decided to accord the colored race the privilege of serving on the May term jury. Yesterday about twenty-five names were placed in the box from which the jurors are drawn. This will be the first time in the history of Maryland that colored men have been drawn as jurors in any of the State courts.

TRIAL OF THE VIRGINIA JUDGES—*Acquittal of Judge Hill.*—In the United States District Court for the Western District of Virginia, in session at Lynchburg, Judge Rives presiding, the trials commenced on Saturday last of the several Virginia judges indicted for the violation of the United States statutes in refusing to put negroes on juries, thus obstructing, it was alleged, the civil rights of citizens as guaranteed by the recent amendments to the constitution and the laws made to enforce them. The first case tried was that of Judge John Hill, of Rockingham. He was defended by Hon. T. S. Bocock, Maj. John W. Daniel and Maj. Dandridge, of Winchester. When the testimony had been heard Judge Rives declared that the government had failed to make out a case, and that he would set aside any verdict of guilty which might be found, the violations of law that were charged not having been proved. The accused was thereupon acquitted. The charges against other judges will be tried at an early day, and, it is to be hoped, will terminate as the trial of Judge Hill did. No offence can be proved in any case, if any be proved at all, beyond what is merely technical and constructive, and entirely devoid of a purpose to obstruct the course of justice.

BEFORE a female jury Clarence Eugene Davis, now an inmate of a Chicago lock-up, might plead that his much-marrying propensities were a delicate compliment to their sex, but twelve men are likely to send him to the penitentiary for many years to come. So far as known Mr. Davis has had *thirteen wives*, besides attempting to run away with several belonging to other men, and the returns from the back counties are not all in yet. Davis was a commercial traveller, and drummed up business and wives at the same time. His first matrimonial experiment was made in 1861, when he was but 23 years old, and he liked it so well that he has been married on an average one and a third times each year since. When he was only five or six times a bigamist he was arrested in New York, but managed to give justice the slip, and kept on in his iniquitous career. Now, however, they have him safely caged in Chicago, and thitherward from all sections of the country are hurrying assorted lots of Mrs. Davises to testify against him. The telegraph a few days ago reported that he had attempted to commit suicide. It is hardly necessary to say that he failed. The man who survive's a baker's dozen of marriages, with several elopements thrown in, can't kill himself unless he should go to playing football with a can of nitro-glycerine.

THE Philadelphia Conference of the Methodist Episcopal Church was deeply agitated last week by the proceedings in the case of Rev. T. B. Miller and Rev. William Major. The former was expelled and the latter suspended; but they have taken an appeal to the General Conference, where the whole affair will have to be reviewed again. These two clergymen had gone into the business of healing bodies, as well as souls, and they managed some sort of a medical college in Philadelphia. There was some suspicion that the institution was crooked, and a newspaper reporter presented himself at its doors in the guise of a student. To him the reverend officials represented that it was all a delusion; that to practice the medical art there was any necessity to studying it. For the contemptuously small sum of $25 they issued to him a license and a neat little package of tickets testifying to the falsehood that he had attended a full course of lectures. The reporter, of course, was only looking for an item, and he at once "gave away" the college and its managers in the columns of his paper. They deserved to be exposed, and the evidence against them appears to be conclusive; but it would be interesting to know how many of their "graduates" are now bleeding, blistering, dosing and dissecting their fellow-beings.

A SAD AFFLICTION.—We regret exceedingly to learn that Dr. C. C. Cox has been brought back to Washington from Australia, ill with softening of the brain or some other form of brain disease that has seriously impaired his intellect. He probably overtaxed his brain in working at the duties incident to his position as the representative of the United States at the international exhibition at Melbourne. —*St Michael's (Md.) Comet.*

THE rush of immigration at New York is somewhat remarkable. The seven ocean steamers which arrived there Sunday and Monday landed 2,911 immigrants making the total for the month up to date 12,720, against 6,051 for the entire of March for last year, and as the season advances the numbers are expected to increase.

GENERAL GRANT visited the Mint in the City of Mexico on the 10th instant, and was presented by the workmen with a collection of Mexican coins. The Academy of Fine Arts presented the General with a medal commemorative of his visit to Mexico, and gave each of the other members of his party a piece of filligree work.

THE "ADVANCE"

CHILLED PLOW

For 1880!

THE YEAR of 1879 has seen our

ADVANCE CHILLED PLOWS

so widely introduced, and such a perfect success, that we need not again go into details of their principles.
In our new series for 1880 we have adhered strictly to first principles laid down in the construction of our plows: They will have the same easy mold-board; the same adjustable, truly set handles; same self-cleaning jointer. Farmers are invited to call and see my large stock.

Kennard & Co's Sterling Phosphate!

$23.00 CASH. $25.00 TIME.

THE GREAT SUCCESS of our Fertilizer last Spring has encouraged us to enlarge our Factory and adopt new and improved machinery, so that we are prepared to again offer our goods to the farmer, and guarantee a prompt and certain delivery of all orders. We respectfully invite the patronage of all, and are satisfied that a trial will insure the endorsement of those who use the "STERLING."
The following testimonials are a few of those received as to its work last Spring:

Chestertown, Md., Feb. 21st, 1880.
Dear Sirs:—Your Phosphate that I used on my Corn last Spring gave me great satisfaction. I also used your Wheat Phosphate last Fall; it is now looking as well as other Phosphates on the same land at a higher figure. I expect to use your goods next Spring. Yours, truly, COMEGYS BROWN.

Chestertown, Maryland, February, 1880.
KENNARD & Co.:—In reply to your question regarding the action of your Fertilizer, I will just state that I have only tried it on sugar beets. I applied it to my beets last Spring, putting it in the drill before I planted the seed, and notwithstanding the unfavorable circumstances to which the beets were subjected, the yield was far ahead of my most sanguine expectations. Yours, &c., I. C. TAYLOR.

Chestertown, Md., March 5th, 1880.
MESSRS. KENNARD & Co.—Gentlemen: I used your Phosphate last Spring on my Corn; applied it at the rate of one handful to three hills, and where I put it the yield was about twenty-five bushels to the acre; where I did not put any the yield was about ten bushels to the acre. On a portion of the same land I applied barnyard manure, and the result was about twelve bushels to the acre. Where I used your stuff the ear was large, well filled, and I could not find a worm in a hundred ears; the grains were large and close together. Where I did not use the Phosphate a great many ears were wormy and poorly filled. I can cheerfully recommend it, and will use more this spring. Yours, truly, GEORGE W. LONG.

☞ We also keep on hand a full stock of Pure Dissolved and Ground Raw Bone Potash and other Chemicals, which we furnish at prices equal to any offered.

PLOWS! PLOWS! PLOWS!

"Ohio Chilled" & "Gibbs' Imperial"

At KENNARD & CO.'S.

Read the result of the late Plow Contest as shown by the report of the committee to the Kent Co. Agricultural Club, together with the opinion of the plowman, and be convinced as to which is the best Plow in the market:

Synopsis of Report:—"The Ohio Chilled Plow was the lightest and the Advance was the heaviest. The Ohio Chilled was 27.03 lighter to the cubic foot than the Oliver Chilled; 33.57 lighter to the cubic foot than the Roland Chill, and 169.08 lighter to the cubic foot than the Advance."

Chestertown, Md., March 6th, 1880.
J. E. NEWCOMB, Esq.,—Dear Sir: You having been elected by the Judges, as plowman in the late plow contest, held on the farm of Mr. Wm. Morris, Tuesday, the 2nd inst., we would be pleased to have your opinion of the "Ohio Chilled" and "Imperial" Plow, entered by ourselves. Respectfully requesting an early reply, we remain, very truly, Yours, &c., KENNARD & CO.

Worton Station, March 8th, 1880.
MESSRS. KENNARD & Co.—Gentlemen: In answer to your question of March 6, about the Plows tried at Mr. Wm. Morris', of which I was plowman, I will simply state to you what I said to the Kent Co. Agricultural Club this afternoon, that of all the plows I handled, viz: the Advance, Roland, Oliver Chilled, Ohio Chilled & Gibbs' Imperial, that the Ohio Chilled and Gibbs' Imperial, as sold by you, were the best I have ever handled. I state this in justice to your Plows; not being pleased with them at first, am glad to say I was agreeably disappointed.
Very truly, yours, J. E. NEWCOMB.

☞ We also intend carrying a full line of Agricultural IMPLEMENTS and are satisfied it will be to the purchaser's interest to examine our goods and prices.

Important Notice!

No More SICK HORSES or CATTLE.

The introduction of the

English Condition Powders,

In our American market, exempt from duty, freight, &c., has proved to the thousands who are daily using them that they have been a long felt want.
For the past half century they have grown in public favor and general use in all quarters of the Globe, until their name and fame is world-wide.
There is not an ailment (known in Veterinary practice) of the Horse, Cow, Sheep or Pig, but yield to their miraculous influence.
Their rare balsamic properties are conveyed to every part of the brute creation, and immediate relief is given.
They heal Internal Ulcerations, banish all derangements, and give the stomach proper tone.
No Stock-owner need despair a cure, whilst this *never-failing remedy* can be obtained; and the reputation they bear from all quarters of the *Globe* is fully borne out by the success they have attained—corroborated by testimonials of all classes and countries.
They have cured Thousands of Cases conceded Incurable.
The many ailments of each class of animals and their various forms are too extended to discuss. But we *guarantee* in each case a tenfold remuneration for the small investment that places them within reach of the most humble who often have to rely on their stock for support.
The majority are more directly interested in Horses, and to them we say one trial will convince you that they work wonders, and no matter how doubtful the *case* is, you will invariably be benefitted, & your animals made & kept healthy by their use.

English Condition Powders

are a *certain* and *speedy remedy*, no matter what the disease is, or how complicated. They are not a temporary, but have *invariably* proved to be a *radical cure.*
They *restore health* and *produce flesh, milk and butter.* They aid digestion and assimilation, and thoroughly renovate the system, and will be found invaluable and remunerative to every stock-owner.
TO CONSUMERS.—They are only one-third the price of all others, and are as superior in quality as quantity.

The following TESTIMONIALS speak of their merits:

Baltimore, June 17, 1879.
Mr. P. Warren—Sir: We have been handling your English Condition Powders for some time past, and find that their merits as compared with similar compounds, meet a want seldom (if at all) found in goods of a similar class. With Patrons of Husbandry they are growing into favor rapidly. Signed: H. O. DEVRIES, Ag't Maryland State Grange.

Ashland House, 24th St. & 4th Avenue, *New York City*, Mar. 10, 1879.
I have used the English Condition Powders and can recommend them to the turf profession as being pure and similar to the imported, and would use no other.—For purity and quality they are *unequalled* and invaluable to horsemen.
Signed, HARRY HARTMAN, Late manager Budd Doble's Turf Stock.

Baltimore, Md., Aug. 6, 1879.
P. Warren, Esq.—Sir: The English Condition Powders are conceded by all my patrons to be the *purest, cheapest* and *best* on the market; and have worked wonders where used. I sell five times as many of *them* as all others combined.
Resp'y, &c., THOS. J. STACK, Feed & Grain dealer, 112 Linden ave.

Baltimore, Md., Aug. 11, 1879.
Mr. P. Warren—I used one pound box of your English Condition Powders on a mare which was so poor and weak she had to be raised when she laid down. She is now in perfect health and good flesh, and I credit it all to the Powders.
